REPORT

OF THE

Secretary of Internal Affairs.

COMMUNICATION.

Department of Internal Affairs,
Harrisburg, January 25, 1901.

To His Excellency, William A. Stone,

Governor of the Commonwealth of Pennsylvania:

Sir: Complying with the requirements of the Constitution, I have the honor to present you herewith for transmission to the General Assembly, the general report of this Department for the year ending November 30, 1900, as follows:

Part I, Land Office.

Boundary Lines.

Part II, Assessments.

Taxes.

Very respectfully,

Your obedient servant,

JAMES W. LATTA,

Secretary of Internal Affairs.

(1 A.)

ORGANIZATION OF DEPARTMENT.

The Department of Internal Affairs, as organized, consists of five bureaus, designated as follows:

1. Land Office and Boundary Line Monuments, 11 employes.
2. Assessments and Taxes, 3 employes.
3. Industrial Statistics, 6 employes.
4. Railroads, Canals, Telegraphs and Telephones, 3 employes.
5. Mines, 4 employes.

A record of the business of the Department is published in five parts:

Parts I and II, Land Office, Boundary Lines, Assessments and Taxes.

Part III. Industrial Statistics.

Part IV. Railroads, Canals, Telegraphs and Telephones.

Part V. Bureau of Mines.

Office hours, 9 A. M. to 4.30 P. M. Saturdays, 9 A. M. to 11 A. M.

The term of office of all clerks and employes expires with the term of the Secretary of Internal Affairs.

STATEMENT.

Showing the number of warrants, patents and certificates to the State Treasurer issued from December 1, 1899, to November 30, 1900, both days included, with the amount of purchase money and fees for warrants, patents, etc. Also copying fees received during the same period.

Year and Month.	Warrants.	Patents.	Certificates to State Treasurer.	Purchase money.	Warrant and patent fees.	Fees for certificates to mine foremen and assistants.	Copying fees.	Totals.

	\$12,721 92
	<hr/>

The general report of the Department treats rather fully of the affairs of the Land Office Bureau and the Bureau of Assessments and Taxes. The other Bureaus, viz: Industrial Statistics, Railways and Mines, receive only brief mention, as they prepare and publish separate reports. The work of the Department continues to increase from year to year, and all the Bureaus have had constant employment during the period covered by this report. An examination of the several reports issued from this Department will show to some extent the great amount of labor involved in the conduct of the year's official business. Much care is bestowed upon the preparation of these reports in the hope that they may show in a satisfactory manner with what thoroughness the duties imposed by law are performed. Some insight into the detailed work of the Department will be gained by an examination of the resume given herewith.

RESUME OF THE BUSINESS OF THE DEPARTMENT FOR THE YEAR ENDING NOVEMBER 30, 1900.

Letters and Reports Received, Endorsed and Filed.

4,731 Land Office and Assessment Bureau.
3,052 Bureau of Railways.
1,875 Bureau of Industrial Statistics.
1,342 Bureau of Mines.

Letters Written, Copied and Indexed.

3,873 Land Office and Assessments Bureau.
1,354 Bureau of Railways.
1,560 Bureau of Industrial Statistics.
1,854 Bureau of Mines.

Reports and Maps Distributed, Blanks, Certificates and Circulars Forwarded, Certificates Issued and Recorded, Certified Copies of Official Records Made and Sent Out, Etc.

Land Office and Assessments Bureau:

1,250 Reports on lands and assessments.
1,360 blanks to county surveyors relating to Land Office business.
480 blanks to county commissioners for tax and assessment reports.

2,519 copies of original papers certified and issued under the seal of the Department.

10,620 searches for applications, warrants, surveys and patents required for copying, also for patenting and connections.

3,161 entries in fee, account and cash books, and transcribing the same quarterly for settlement with the Auditor General.

188 applications for patents received and entered on register.

73 applications for warrants received and entered on register.

73 applications for warrants endorsed and filed.

188 applications for patents endorsed and filed.

188 tickets issued for patents.

4 quarterly returns to the Auditor General.

12 monthly statements delivered to the Auditor General.

164 mine foremen's certificates issued and recorded.

3,050 old surveys copied for binding.

540 copies of large surveys of tracts of land in the 17 certified townships of Luzerne, together with the certificates and assignments of the same, covering 1,080 pages of manuscript.

67 assessment reports of the counties of the Commonwealth copied, compiled and consolidated, showing the number of taxables, number of acres of cleared land, number of acres of timber land, value of real estate taxable, value of real estate exempt from taxation and value of all real estate, number and value of horses, mares, geldings and mules over the age of four years; number and value of neat cattle over the age of four years; value of salaries and emoluments of office, posts of profit, professions, trades and occupations; aggregate amount of county tax assessed; amount of money at interest, including mortgages, judgments, bonds, notes, stocks, etc.; value of stages, omnibuses, hacks, cabs, etc.; aggregate value of all property taxable for State purposes at the rate of four mills on the dollar, including money at interest, stages, omnibuses, hacks, cabs, etc.; aggregate amount of State tax assessed and the amount of debt of each county, with a comparative statement of each item from the year 1891.

67 tax reports of the counties of the Commonwealth, copied, compiled and consolidated, showing the entire amount of tax collected or worked out for the maintenance of State, county, city ward, borough and township governments; the total amount collected for the support of the poor; total amount collected for the construction and repairs of streets, roads and bridges; amount collected for school purposes; amount collected on personal property, on occupations and licenses; amount collected on real estate of railroad corporations, amount collected on real estate of corporations other than railroad, including limited partnerships, in the several assessment districts of the Commonwealth, between the first day of June, 1899, and the 31st day of May, 1900, made pursuant to the act of Assembly, approved the 9th day of May, A. D. 1889.

73 tickets for warrants.

73 new warrants issued, registered, numbered and filed.

73 warrants issued and directed to county surveyors for execution.

73 new surveys from county surveyors calculated and compared with warrants.

13,500 searches made and recorded in new index.

73 new surveys entered on surveyors' list of returns, numbered and filed.

18 new surveys containing an excess of land calculated, compared with warrants and placed in excess files.

27,235 entries in new indexes, covering names of warrantees, dates of returns, names of patentees, number of acres returned, where recorded, etc.

22 new surveys calculated, compared with warrants and returned to the county surveyor for correction.

73 entries on warrants, or applications, of the time of patenting.

73 entries on warrant registers of the time of patenting.

75 calculations of sums due.

261 certificates of sums due State Treasurer.

261 State Treasurer's receipts entered and delivered to the Auditor General.

261 vouchers numbered and filed.

73 warrants issued to survey 920 acres of land.

188 patents written, recorded and endorsed, embracing 2,228 acres and 120½ perches of land, and 15 in lots and out lots.

140 satisfactions of liens on land lien docket.

140 certificates of liquidation made out and forwarded to the prothonotaries of the several counties, under act of 4th day of April, 1868.

45 caveats entered, recorded on caveat book and filed.

35 citations issued and noted on caveat book.

977 railroad, street railway, canal, telegraph and telephone companies registered.

443 reports of railroad companies tabulated, showing capital stock and dividends, debt and interest, cost of road and equipment, mileage, equipment and number of persons employed; miles run by trains and their speed; number of passengers carried and the cost per mile; kind of freight carried in tons and cost per ton; earnings and income; expenses during the year, and accidents, together with comparative statements showing figures for the past five years.

400 street railway reports tabulated, showing stock and debt, cost and characteristics of road, passengers and expenses, receipts and accidents.

4 canal company reports tabulated, showing stock and debt, cost and characteristics of canal, tonnage, expenses and receipts, with a comparative statement for five years.

130 telegraph and telephone company reports tabulated, showing stock, debt, cost of line, expenses and receipts.

354 checks issued for payments and disbursements on account of appropriations under act of Assembly.

7 meetings of the Board of Property held during the year, proceedings of which covered 36 pages of the minute book.

597 railroad, telegraph, telephone and canal reports copied for printing.

67 tax reports copied for printing.

67 assessment reports copied for printing.
3,050 copied surveys indexed in warrant registers.
3,050 old surveys endorsed and filed.
3,050 surveys compared before binding.
3,590 copied surveys registered in Warrant Books, giving index to same.

BUREAU OF RAILWAYS.

Under existing laws annual reports for the fiscal year ending June 30th, are required from all steam railway, street railway, telephone, telegraph and canal corporations, showing the receipts from operation, the expenditures and the dividends paid. The steam railways give detailed information regarding construction of road, equipment, maintenance and operation, affording the public in this way the most concise data obtainable regarding the affairs of these corporations.

An article of general interest, prepared by Mr. Theodore B. Klein, and entitled "The Canals of Pennsylvania, and the System of Internal Improvement of the Commonwealth," appears in the report of this Bureau.

Reports received from Corporations, Blank Reports Sent to Corporations, Annual Reports and Maps Distributed.

977 reports received from railway, canal, telegraph and telephone companies.

2,000 blank reports sent to corporations.

750 Annual Reports distributed.

4,000 maps distributed.

The report of this Bureau is designated Part IV of the Department reports.

Maps, Etc., Received and Filed.

Under the act of May 8, 1876, and other existing laws, the following papers have been received and filed:

No. 91. Map of the Pittsburg, Connellsville and Wheeling Railroad and branches, from Millsboro, Pennsylvania, to the Pennsylvania and West Virginia State Line. Filed March 2, 1900.

No. 92. Maps of the located lines and branches of the New York and Pennsylvania Railroad Company in Pennsylvania. Filed April 18, 1900.

No. 93. Map of Uniontown, Waynesburg and West Virginia Railroad in Pennsylvania. Filed May 8, 1900.

BUREAU OF INDUSTRIAL STATISTICS.

The chief duty of this Bureau is to collect and compile statistics relating to the manufacturing interests of the Commonwealth. In the report for this year interesting articles appear upon the cotton goods industry and the woolen goods industry. The articles were prepared by men thoroughly familiar with the subjects and they will be found to contain much valuable information regarding these two prominent industries.

Reports, Etc., Received and Distributed.

2,500 Annual Reports distributed.

2,318 reports received from manufacturing establishments and compiled.

5,500 blank reports sent to manufacturing establishments.

The report of this Bureau is designated Part III of the Department reports.

BUREAU OF MINES.

Under the act of 1897, which provided for the appointment of a Chief of the Bureau of Mines, who should have immediate charge of the inspectors with reference to the discharge of the duties imposed upon them by law, the inspectors of both the anthracite and bituminous districts make annual reports to this Bureau.

Reports, Etc., Received and Filed.

2,350 accident reports.

2,279 inspection reports, bituminous districts.

1,039 inspection reports, anthracite districts.

5,627 inspectors' daily reports of expenses and how time of inspectors was occupied.

644 vouchers for incidental and other expenses compared and delivered to the Auditor General.

164 mine foremen's and assistant mine foremen's certificates of examination.

Books, Blanks, Etc., Furnished Inspectors.

455 monthly narrative report books, 31 pages each.

17 books for recording accidents, 250 pages each.

76,428 blanks.

26,750 letter heads and envelopes.

2,165 copies of general and special rules.

200 fire bosses' daily record books, 300 pages each.

400 report books for mine foremen, 250 pages each.

1,735 Annual Reports of Bureau distributed.

164 certificates of qualification were issued during the year to mine foremen and assistant mine foremen, after being duly recorded,

The report of this Bureau is designated Part V of the Department reports.

PART I--Land Office.
Boundary Lines.

BOARD OF PROPERTY.

The Board of Property is, perhaps, not of as much importance at the present time as it was in the early days of the Land Office under the Colonial government, but it is one of the oldest quasi-judicial boards in existence, and its proceedings form no insignificant part of the legal records during the time of the Colony and since then under the Commonwealth of Pennsylvania. Important questions involving the most intricate points of law are passed upon by this Board. During the year covered by this report the most noteworthy case was one growing out of the effort made by some citizens of the Commonwealth to acquire title to the back channel of the Ohio river below the city of Pittsburg. It would seem from the proceedings already had in the Department of Internal Affairs in connection with this case that it is likely to demand the consideration of the best lawyers and will no doubt be adjudicated by the courts of the Commonwealth having jurisdiction. From the apparent importance of this case, and the value of the land in controversy, it seems proper that there should be a fairly complete publication of the proceedings from the time of the first application down to the close of the year covered by this report. On the 17th of July, 1894, an application was filed in this department for 400 acres, more or less, of unimproved land situated in the townships of Stowe, Neville and Robinson, in the county of Allegheny, known as the back channel of the Ohio river. The following is a copy of the application:

D. J. Kyle, Alex. S. Hunter, G. H. Clapp and F. M. Love, of the county of Allegheny and State of Pennsylvania, applicants for 400 acres of land, more or less, situate partly in Stowe, Neville and Robinson townships, in the county of Allegheny and State of Pennsylvania, known as the Back Channel of the Ohio River, bounded and described as follows, viz:

Beginning at a point in Stowe township on the southerly shore of the Ohio river where the dam from Davis island shore intersects said southerly shore of said river; thence northwardly with the westerly line of said dam to a point on the southerly shore of Davis island; thence westerly with the southerly shore of Davis island to a point at the lower extremity of said island; thence eastwardly with the northerly shore of said island to a point at the end of the main dam on the northerly shore of said Davis island; thence westerly and nearly parallel with the north shore of the Ohio river to a point at the head of Neville island; thence westwardly and following the line of lands formerly the river bank of said channel on the southerly side of Neville

island, which constitutes Neville township; to a point at the lower extremity of said Neville island or township, thence southwardly by a line at right angles with the last mentioned line of Neville township to a point in borough of Coraopolis on the southerly shore of the Ohio river; thence eastwardly following northerly line of land of the borough of Coraopolis, and the northerly lines of land of the townships of Robinson and Stowe, being the former river bank of said channel to the beginning, containing 400 acres more or less.

To the Secretary of Internal Affairs of the Commonwealth of Pennsylvania.

D. J. KYLE,
ALEX. S. HUNTER,
G. H. CLAPP,
F. M. LOVE.

It will be seen that this application is made under the act of 1874, which provide for the granting of warrants and patents for vacant or unappropriated land. It is a question, however, whether the land could properly be considered as vacant or unappropriated. It appears that the United States government had built a dam at the head of an island in the Ohio river called Neville's or Montour's island, for the purpose of changing the current of water to one side of the island, thereby facilitating the navigation of the river. The building of this dam, it seems, caused the flow of water to cease on one side of the island, which left what has since been called the

NOTE:-

The office records here show that a warrant was granted to Joseph Hart, in the Back Channel of the Ohio River, which was surveyed Aug. 1. 1860, warrants were granted to Joseph Hart, H. B. Wilkins, E. P. Darlington, Saml B. Pennock, Robert Bagley, Charles Israel, B. F. Chandler, and Charles B. Seeley, on the Ohio River, and which were surveyed Aug. 25. 1860. These

Partly
A Draft of a tract of land situated in the Townships of Stowe, Neville and Robinson and County of Allegheny, containing (411 A. 75.65 P) Four hundred eleven acres, 75.65 perches and allowance of six per cent. for roads etc. Surveyed the 16th day of October 1895, in pursuance of a warrant granted to D. J. Kyle, Alex. S. Hunter, G. H. Clapp & F. M. Love dated the 3^d day of September 1894.
To

Approved Dec. 30. 1899.
James W. Latta, Esq.,
Secretary of Internal Affairs.
Chas. Davis.
County Surveyor.

back channel of the Ohio river. The length of this channel is represented to be from four to six miles, and in some localities nearly a quarter of a mile in width. There seemed to be no dispute as to the title to this channel being in the Commonwealth, and no act was passed by the Legislature appropriating it to any use, unless such appropriation was made in the enactment which declared certain rivers of the Commonwealth to be public highways. However, as before indicated, there was some question as to the right of the Secretary of Internal Affairs to grant a warrant for land that had at one time been the bed of a navigable river, but as no caveat was filed against the granting of the warrant, and as the proof of publication was made in the regular way, the warrant was issued September 3, 1894, directed to the county surveyor, Charles Davis, for execution. The proof of publication and the warrant are printed herewith.

PROOF OF NOTICE BY PUBLICATION OF APPLICATION FOR WARRANT
TO SURVEY VACANT LAND.

Allegheny County, ss:

Before me, a justice of the peace, in and for said county, personally appeared J. D. Hamilton, who being duly sworn according to law, says that the notice appended, to wit:

Notice.—Notice is hereby given that an application for a warrant for unimproved land consisting of 400 acres, more or less, situate partly in Stowe, Neville and Robinson townships, in the county of Allegheny and State of Pennsylvania, known as the back channel of the Ohio river, was filed in the office of the Secretary of Internal Affairs, at Harrisburg, by D. J. Kyle, A. S. Hunter, G. H. Clapp and F. M. Love, all of the county and State aforesaid, on Tuesday, July 17, 1894. The said land being bounded and described as follows:

Beginning at a point in Stowe township on the southerly shore of the Ohio river, where the dam from Davis island shore intersects said southerly shore of said river; thence northerly with the westerly line of said dam to a point on the southerly shore of Davis island thence westerly with the southerly shore of Davis island to a point at the lower extremity of said island; thence eastwardly with the northerly shore of said island to a point at the end of the main dam on the northerly shore of said Davis island; thence westerly and nearly parallel with the north shore of the Ohio river to a point at the head of Neville island; thence westwardly and following the line of lands formerly the river bank of said channel on the southerly side of Neville island, which constitutes Neville township, to a point at the lower extremity of said Neville island or township; thence southwardly by a line at right angles with the last mentioned line of Neville township to a point in borough of Coraopolis on the the southerly shore of the Ohio river thence eastwardly following northerly line of land of the borough of Coraopolis and the northerly lines of the land of the townships of Robinson and Stowe, being the former river bank of said channel to the beginning, containing 400 acres, more or less, was advertised once a week for three consecutive weeks in the Coraopolis Suburban, published at Coraopolis, Pa., and that the said Coraopolis Suburban is

a newspaper of the county in which the land applied for is situated and nearest its location, and that the notice first appeared in the issue of said paper on the 21st day of July, 1894.

Sworn and subscribed before me this 21st day of August, 1894.

J. D. HAMILTON,
Publisher.

(Seal.) GEO. A. LASHELL, J. P.

The Commonwealth of Pennsylvania, ss:

Whereas, D. J. Kyle, Alex. S. Hunter, G. H. Clapp and F. M. Love, of county of Allegheny, hath applied for four hundred acres of unimproved land: Beginning at a point in Stowe township on the southerly shore of the Ohio river, where the dam from Davis island shore intersects said southerly shore of said river; thence northwardly with the westerly line of said dam to a point on the southerly shore of Davis island thence westerly with the southerly shore of Davis island to a point at the lower extremity of said island; thence eastwardly with the northerly shore of said island to a point at the end of the main dam on the northerly shore of said Davis island; thence westerly and nearly parallel with the north shore of the Ohio river to a point at the head of Neville island; thence westwardly and following the line of lands formerly the river bank of said channel on the southerly side of Neville island, which constitutes Neville township, to a point at the lower extremity of said Neville island or township; thence southwardly by a line at right angles with the last mentioned line of Neville township to a point in borough of Coraopolis on the the southerly shore of the Ohio river thence eastwardly following northerly line of land of the borough of Coraopolis and the northerly lines of the land of the townships of Robinson and Stowe, being the former river bank of said channel to the beginning, situate partly in the townships of Stowe, Neville and Robinson. (Known as the back channel of the Ohio river) in the county of Allegheny, for which they have paid into the office of the State Treasurer at the rate of ten pounds per hundred acres. Interest thereon to commence from the date hereof to be paid agreeably to the several acts of Assembly in such case made and provided.

These are, therefore, To authorize and require you to survey, unto the said D. J. Kyle, Alex. S. Hunter, G. H. Clapp and F. M. Love, the quantity of acres by them applied for, at the place aforesaid, if not already surveyed or appropriated, and to make return thereof into the Department of Internal Affairs, for which this shall be your warrant.

In witness whereof, Thos. J. Stewart, Secretary of Internal Affairs, hath bereunto set his hand and caused the seal of the said Department to be affixed at Harrisburg, this third day of September, A. D. 1894.

(Seal.)

To Charles Davis, Esq., Surveyor for Allegheny county.

THOS. J. STEWART,
Secretary of Internal Affairs.

Subsequent to the issuance of the warrant and before a return of survey was made by the county surveyor of Allegheny county a caveat was filed by William Bragdon and others October 19, 1894. against the acceptance of survey or granting of patent in pursuance of the warrant issued. The following is a copy of the caveat:

Pittsburg, Pa., October 16, 1894.

To the Hon. William U. Hensel, Attorney General, Hon. William F. Harrity, Secretary of the Commonwealth, and Hon. Thos. J. Stewart, Secretary of Internal Affairs, constituting the Board of Property:

Sirs: You are hereby notified not to issue or grant a patent to D. J. Kyle, Alexander S. Hunter, G. M. Clapp and F. M. Love, or either or any of them, for the land situate in the townships of Stowe, Robinson and Neville, in the county of Allegheny, or any part thereof, applied for by them, and described and embraced in a warrant issued by the Hon. Thos. J. Stewart to Charles Davis, county engineer of Allegheny county, dated September 3, 1894, for survey. The following reasons, inter alia, are assigned for filing this caveat:

1st. The land as shown by the warrant being within the acknowledged channel of the Ohio river, a navigable stream, is not subject to appropriation and patent under the laws of this Commonwealth.

2nd. A large portion of the land included in the warrant is part of Montour or Neville island, which island has been heretofore legally appropriated and patented, and is now owned in fee simple by the parties whose names are signed hereto. The said land being improved and occupied by the owners thereof respectively.

3rd. That there is included in said warrant land not included in the patent for Montour or Neville island, lying between said island and the south shore of said Ohio river, which has heretofore been legally appropriated under warrants and patents lawfully issued.

4th. The granting of a patent to the applicants for the land described in the warrant would be prejudicial to the riparian rights of the parties whose names are subscribed hereto, the said parties being the owners in fee simple of all the property on said Montour or Neville Island abutting upon the back channel of the said Ohio river.

Respectfully,

William Bragdon, Bailey Estate, Evan Bragdon Estate, Samuel Bragdon Heirs, James Hamilton Heirs, David Dickson, James Dickson, Augustus Cole, Caroline Oustat Heirs, George Cole, Kirk and Hamilton, Robert Hamilton, Burns and Dean, Whitaker Heirs, Henry Eckert, Archie Hamilton Heirs, Smith's Heirs, Amelia Hamilton Heirs, John H. Hamilton, F. R. Pittock, Craig Estate, John Chaplain, A. L. Phillips, Beckert Bros., Jno. N. Walters, Wm. Walters, Wm. J. Phillips, R. A. Phillips, Mrs. Mercer, Knights Estate, E. Klineman, H. Klineman, Mrs. Hahn, Captain Crow, Jas. Gibson, Wm. A. Shanks, John Myers, John Von Stein, A. H. Kerr, W. A. Shank Estate, Peter Von Stein.

By ROBERT S. FRAZER, their Attorney.

Under the act of 1792 all further proceedings with reference to the acceptance of survey and granting of patent were stayed for a period of two years. No citation was taken out to bring the case before the Board of Property for its consideration within the two years, and had a survey been returned after the expiration of the two years, there would have been nothing to bar its acceptance or the granting of a patent thereon. Nothing, however, appears to have been done until the 3d of January, 1900, when a return of survey was filed purporting to have been made in pursuance of the warrant granted to D. J. Kyle and others for the back channel of the Ohio river. From the certificate of the county surveyor it appears that this warrant

was executed on the 16th of October, 1895. The papers do not disclose the cause for the delay of the county surveyor in making his return. The following is a copy of the survey:

During the session of the Legislature of 1897 a bill was introduced and passed, receiving the Executive approval July 15th of that year. (Pamphlet Laws, 301.) This act reads as follows:

AN ACT

In relation to patenting lands lying within or along navigable rivers.

Section 1. Be it enacted, &c., That unpatented lands lying within any parts or portion of any navigable river, and which parts or portion of such river, by reason of any obstruction or otherwise, shall be incapable of use for purposes of navigation, and all unpatented strips or pieces of land lying between the navigable part or portion of any river and other unpatented land or lands which may be patented, and which shall have heretofore fronted or abutted upon such river, shall be subject to warrant, survey and patent by the Commonwealth at the same rate per acre, and except as herein provided in like manner as other public lands: Provided, That such lands or strips or pieces thereof hereby made subject to warrant, survey and patent, shall not have been, for three years or more next prior to the application for the warrant for the survey thereof, within and part or portion of the bed of the river within or along which the same shall be situated, which shall have been used or which shall have been susceptible to use for the ordinary purposes of navigation: And provided further: That such lands or pieces or strips thereof shall not at the time of such application be within the navigable limits of such river, as the same shall be fixed or established in pursuance of any act of the General Assembly of this Commonwealth, or by or under the authority of the United States: And provided further, That every patentee of such lands or pieces thereof, and all persons claiming under any patent or patents which shall be issued therefor, shall take and hold the same under and subject to all riparian rights pertaining thereto heretofore granted by virtue of any law of this Commonwealth: And provided further, That no patentee of any such lands or strips or pieces thereof, nor any person or persons holding under any such patentee, shall have the right to do any act or thing thereon which shall interfere with or change the natural course or flow of such river, and that no person or persons shall permit any use to be made thereof or any improvements to be made thereon, which shall in any manner endanger or interfere with the free navigation of such river, or with any improvement made thereon, either by the United States or by or under the authority of this Commonwealth.

Section 2. Every applicant for a warrant to survey any such lands or pieces or strips thereof, shall file in the office of the Secretary of Internal Affairs a particular description of the land applied for, together with the affidavits of two disinterested free holders, to be made before some justice of the peace or alderman of the township, borough or city within which the same or the greater part thereof shall be situated, specifying whether such lands or strips or pieces thereof be improved or not, and if improved when the improvement thereon was made. And the applicant for such warrant shall also file in said office an affidavit, to be made by him in like manner, that he verily believes that no warrant or other office right has previously been issued therefor, or if one has been issued that the same has been abandoned, and stating fully the facts in relation thereto; and if at any time thereafter it shall appear that the person or persons having made such affidavits, or any of them, shall have

sworn or affirmed falsely, such person or persons shall be deemed guilty of perjury, and liable to all the pains and penalties incident thereto: And it is further provided, That if upon any tract or piece of land for which an application be made for a warrant for the survey thereof, no settlement has been made, and the land in whole or in part cleared and fenced, or otherwise improved by the settler, any person or persons owning land so situated that the lands for which such application shall be made adjoin and lie between the land of such owner or owners and the navigable portion of any river, shall have the first right to purchase the land so applied for and receive a patent therefor; such owner or owners shall receive written notice that letters patent have been applied for immediately upon the application therefor, if such owner or owners shall file notice of his or their intention to purchase such land and accept letter patent therefor with the Secretary of Internal Affairs within sixty days from the date of the publication of the notice of application for a warrant for such land, and pay into the office of the Secretary of Internal Affairs the amount of the purchase money and fees and costs of the proceeding, whereupon if any person or persons, other than such owner or owners, shall have made the application for such lands, such person or persons so applying shall have paid back to him or them all fees and costs paid by him or them in such proceeding, as well as the amount of the purchase money theretofore deposited. But if such owner or owners fail to exercise their first right to purchase the lands so applied for within the time and in the manner before provided, in such event a patent for such lands shall be issued to the person or persons having applied for the warrant thereon, as in other cases.

Approved—The 15th day of July, A. D. 1897.

DANIEL H. HASTINGS.

A reading of this act will show that it is a general act, but was evidently intended to apply specially, and would seem as if intended to apply to the back channel of the Ohio river, for which application had previously been made, as before indicated.

On the same day that the return of survey was received from the county surveyor a caveat was filed by W. T. Tredway against the acceptance of the survey or the granting of a patent to D. J. Kyle and others, claiming to represent abutting property owners along the back channel of the Ohio river who claimed to have secured to them under the above act the right to be the first applicants for the land in or along the beds of navigable rivers, providing they desire to acquire title to such lands. The caveat reads as follows:

Pittsburg, Pa., January 2, 1900.

Isaac B. Brown, Esq., Deputy Secretary Internal Affairs, Harrisburg, Pa.:

Dear Sir: I represent a large number of the property owners in the borough of Coraopolis and Neville township, also in the townships of Robinson and Stowe, abutting upon the back channel of the Ohio river, for which a warrant of survey No. 31, on an application for patent of said tract embracing four hundred acres of land in the townships of Neville, Stowe and Robinson and the borough of Coraopolis, was filed in your office, as we to-day learn, in 1894, by D. J. Kyle, Alex. S. Hunter, G. H. Clapp and F. M. Love, which said tract is more extensively described in the said warrant of survey, but may be briefly described as bounded on the east by the Davis island dam, on the north by the north shore of Davis island and the south shore of Neville island, on

the west by a line drawn at right angles with the last mentioned course from the foot of Neville island to the borough of Coraopolis, and on the south by lands of the borough of Coraopolis, Robinson and Stowe townships, all in the county of Allegheny.

Permit me to say that the people whom I represent are the owners of land abutting upon the said back channel, and that they have had absolutely no notice of the application for survey and patent, and that they believe no notice was given as required by law. Of course your Department understands that the owners of land abutting or fronting upon the said back channel have the first right to take the land applied for, and for which said warrant of survey was issued, and in their behalf, to wit, W. H. Bragdon, owning the upper end of Neville island; P. F. Von Stein, owning the lower extremity of Neville island, and John Von Stein, and other owners on Neville island, and in Coraopolis borough, I file this as a caveat against issuing of any patent for the land authorized by your said warrant to be surveyed by Charles Davis, county engineer of Allegheny county, approved December 30, 1899.

Permit me further to say that my clients desire a hearing in this matter at such time and place as your Department or the Board of Property may designate, and in the interim they stand ready and willing to deposit with the proper officer of the State the purchase money for the tract of land for which patent has been applied.

I learn that the amount of land exceeds four hundred acres, and upon your letting me know the amount of money necessary to deposit to cover the entire tract authorized to be surveyed, I shall promptly forward same in behalf of the owners of property abutting upon said back channel.

Respectfully yours,

W. T. TREDWAY,
Attorney for Abutting Property Owners.

On the 6th of January, 1900, Samuel D. Robison and Thomas J. Gillespie filed a caveat against the acceptance of survey or granting of patent to D. J. Kyle and others. The caveat reads as follows:

Pittsburg, Pa., January 2, 1900.

To Hon. James W. Latta, Secretary of Internal Affairs, Harrisburg, Pa.:

We, Samuel D. Robison and Thomas J. Gillespie, do hereby caveat and protest against the granting of any patent under Warrant No. 31, dated September 3, 1894, issued to D. J. Kyle, Alexander S. Hunter, G. H. Clapp and F. M. Love, to or for any portion of two pieces or tracts of land included by the description set forth in said warrant, which pieces are situate in Stowe township, Allegheny county, Pennsylvania, and are severally described as follows:

First. Beginning at a point on the southerly shore of the channel of the Ohio river lying south of Neville island (known as the back channel of the Ohio river), at a point where the northerly line of land of Samuel D. Robison and Thomas J. Gillespie intersects with the dividing line between Robinson and Stowe townships; thence up said river southeasterly by line of land of said Robison and Gillespie one hundred and forty-eight perches, more or less, to the line of lands of Theresa Grimes (formerly Edward Dunn); thence at right angles northeasterly eighteen perches, more or less, to the center of the back channel of the Ohio river aforesaid; thence down said river northwesterly by a line located in the center of the said back channel of the Ohio river one hundred and forty-eight perches, more or less, to a point located on a line starting at the beginning point aforesaid and extending northeasterly at right angles to

the first above mentioned line; and thence southwesterly eighteen perches, more or less, to the place of beginning.

Second. Beginning on the southerly shore of the back channel of the Ohio river aforesaid at a point where the northerly line of land of Samuel D. Robison intersects with the easterly line of land of Theresa Grimes (formerly Edward Dunn); thence up said river southeasterly along the line of lands of said Robison seventy-eight perches, more or less, to the line or lands of Kirk's heirs (formerly Dizard Cornelius); thence at right angles northeasterly eighteen perches, more or less, to the center of the back channel of the Ohio river aforesaid; thence down said river northwesterly by a line located in the center of the said back channel of the Ohio river seventy-eight perches, more or less, to a point located on a line starting at the beginning point aforesaid, and extending northeasterly at right angles to the first above mentioned line; and thence southwesterly eighteen perches, more or less, to the place of beginning. The said two described pieces of ground being so much of the channel of the Ohio river lying south of Neville island (known as the back channel of the Ohio river), as is embraced within said descriptions.

The land adjoining and abutting the said two described pieces of ground on the southerly side thereof are owned by us and we do hereby signify our intention to purchase and obtain patents for the said two described pieces of ground under the provisions of the act of Assembly of July 15, 1897.

SAMUEL D. ROBISON,
THOMAS J. GILLESPIE

On the 9th of January, 1900, the Lewis Foundry and Machine Company filed a caveat against the acceptance of survey or granting of patent to D. J. Kyle and others. The caveat reads as follows:

In the matter of the application of D. J. Kyle, Alex. S. Hunter, G. H. Ciapp and F. M. Love for patent for tract of land situated partly in the townships of Stowe and Robinson, and county of Allegheny, surveyed 16th October, 1895, in pursuance of a warrant granted 3d September, 1894.

To James W. Latta, Esq., Secretary of Internal Affairs:

The Lewis Foundry and Machine Company, a corporation existing and doing business under the laws of the State of Pennsylvania by H. C. Shaw, vice president, protests against the granting of the patent applied for in above matter and in support thereof assigns the following reasons:

First.

The said corporation is the owner of certain tracts or pieces of land situated partly in Robinson township and partly in the borough of Coraopolis and abutting the land included in the survey above mentioned and had no notice whatever of the said application or survey until this 4th day of January, A. D. 1900, that the land purchased by said corporation is bounded on the north by the back channel of the Ohio river, the bed of which constitutes the land for which a patent is applied for in above case and said land purchased by the Lewis Foundry and Machine Company was intended by it as a site for certain manufacturing establishments and the fact that said land was supplied with river frontage was one of the principal inducements leading to its selection for the purpose mentioned.

The granting of the patent applied for would render the land valueless to said corporation for the purpose aforesaid.

Second.

In the event of a patent issuing for said land the undersigned in behalf of the Lewis Foundry and Machine Company, claims the right as abutting land owner to have the patent for so much of said land as abuts the land owned by the Lewis Foundry and Machine Company, issued and granted to said company and hereby tenders the legal costs and expenses charged against that portion of said survey.

Third.

There is no warrant or authority of law for the granting of the patent applied for to the applicants under the warrant and survey aforesaid.

January 4, 1900.

H. C. SHAW,
Vice President Lewis Foundry and Machine Company.

Allegheny County, }
State of Pennsylvania, } ss:

H. C. Shaw being duly sworn, says that the facts set forth in the foregoing protest are true as he is informed, believes and expects to be able to prove on the hearing of this matter.

Sworn and subscribed this 6th day of January, 1900.

JAS. N. BEBOUT,
Notary Public.

On the same date a caveat was filed to the same import by Horace J. Thomas. The caveat reads as follows:

In the matter of the application of D. J. Kyle, Alex. S. Hunter, G. H. Clapp and F. M. Love for patent for a tract of land situated partly in the townships of Stowe and Robinson, and county of Allegheny, surveyed the 16th day of October, 1895, in pursuance of a warrant granted 3d September, 1894.

James W. Latta, Secretary of Internal Affairs:

Horace J. Thomas, owner of a tract of 46 acres of land abutting on the line of land surveyed in pursuance of the warrant issued in above matter and extending along the southerly side of same from the line between Robinson and Stowe townships, said county, on the westerly side of said tract of 46 acres, to a run on its easterly side a distance of 127 rods, more or less, protests against the granting of the patent applied for and in support thereof assigns the following reasons:

First.

The notice to be given by every applicant for a warrant to survey vacant land was not published by the applicants in above case, once a week for three successive weeks in one or more newspapers of the county in which the land is situated and nearest its location, as required by the act of Assembly in such case made and provided, and the undersigned had no notice whatever of said application or survey until on or about the 30th day of December, 1899.

Second.

The land surveyed under said application constitutes the bed of a public navigable river, which flows along the land owned by the undersigned and under the act of Assembly the undersigned claims the right to said warrant

as to such part thereof as lies adjoining the land owned by him and hereby tenders the full legal costs charged against the same.

Third.

The land as surveyed extends beyond low water mark on the banks of the said Ohio river and encroaches on land already owned and in the possession of the undersigned.

Fourth.

There is no warrant or authority of law for the granting of the patent applied for to the applicants under the warrant and survey aforesaid.

January 3, 1900.

HORACE J. THOMAS.

Allegheny County, }
Pennsylvania, } ss:

Horace J. Thomas being duly sworn, says that the facts set forth in the foregoing protest are true as he verily believes.

HORACE J. THOMAS.

Sworn and subscribed this 4th day of January, 1900.

GEO. A. LASHELL,
Notary Public.

(Seal.)

On the same date a caveat was filed by the borough of Coraopolis to the same import. The caveat reads as follows:

In the matter of the application of D. J. Kyle, Alex. S. Hunter, G. H. Clapp and F. M. Love for patent for tract of land situated partly in the townships of Stowe and Robinson, and county of Allegheny, surveyed the 16th day of October, 1895, in pursuance of a warrant granted 3d September, 1894.

To James W. Latta, Esq., Secretary of Internal Affairs:

The borough of Coraopolis (county of Allegheny, and State of Pennsylvania), protests against the granting of the patent applied for in above matter and in support thereof assigns the following reasons:

First.

The borough of Coraopolis never received any notice whatever of the application for a warrant to survey said land and no notice was ever published in the newspaper published in said borough, although it is the nearest the location of said land of any newspaper published in the county and was issued and published continuously since long prior to the said application until the present time.

Second.

The survey made in pursuance of said warrant extends along the bed of the back channel of the Ohio river, on which river the said borough has an extensive frontage and the granting of the patent applied for would deprive the borough of its only wharfage and harbor rights on said river and would result in driving from the community large manufacturing concerns about to locate along the banks of said river immediately adjacent to the said borough

Third.

The granting of the patent applied for would give to individuals property that is and of right ought to remain set apart for the use of the public at large as a common highway and would seriously interfere with the traffic and commerce of the said borough and result in constant troublesome and extensive litigation.

Fourth.

There is no warrant or authority of law for the granting of the patent applied for to the applicants under the warrant and survey aforesaid.

C. E. VOITLE,
President of Council.

Attest: E. HOWARD FERREE,
Clerk of Council.

(Seal.) January 3, 1900,

On the 12th day of January, 1900, R. A. Phillips filed an application under the act of 1897, above referred to, for 420 acres of land situate in the townships of Neville, Stowe and Robinson and the borough of Coraopolis, which appears to be the same land for which a warrant was granted to D. J. Kyle and others. The following is a copy of the application:

APPLICATION FOR UNIMPROVED LAND.

R. A. Phillips, of the township of Neville, and the county of Allegheny, and the State of Pennsylvania, hereby applies for a warrant to survey four hundred and twenty acres of land situate in the townships of Neville, Stowe and Robinson, and borough of Coraopolis, all in the county of Allegheny, and State of Pennsylvania, being the back channel of the Ohio river, in compliance with, and pursuant to the provisions of the act of Assembly of the Commonwealth of Pennsylvania, entitled "An act in relation to patenting lands lying within or along navigable rivers," approved July 15, A. D. 1897, P. L., 301, a particular description of which said land is as follows:

Beginning at a point in Stowe township, on the southerly shore of the Ohio river, where the Davis island dam intersects said shore; thence northwardly along the westerly line of said dam to a point on the southerly shore of Davis island; thence westwardly along the southerly shore of Davis island to a point at the lower extremity of said island; thence eastwardly along the northerly shore of said island to a point at the end of the main dam on the northerly shore of said Davis island; thence westwardly, and nearly parallel with the north shore of the Ohio river, to a point at the head of Neville island, where the said line touches the easterly line of the original patent on that portion of Neville island; thence westwardly and following the line of the land on Neville island, and along the southerly line or lines of the patents already issued for lands on said Neville island, and nearly parallel with the southerly bank of Neville island, which constitutes Neville township, to a point at the lower extremity of Neville island or township; thence by a straight line westwardly down the Ohio river to a point one hundred fifty feet from the original patent line of lands on the south bank of the Ohio river, and in a direct continuation of the westerly line of the borough of Coraopolis, prolonged northwardly; thence southwardly to the original patent

line of lands on the bank of the Ohio river, at the westerly boundary of the borough of Coraopolis; and thence eastwardly following the northerly patent line of the lands as heretofore patented, in the borough of Coraopolis, and the northerly patent lines of the lands as patented in the townships of Robinson and Stowe, being nearly parallel with the south bank of the Ohio river, to the place of beginning, containing four hundred and twenty acres, more or less, and known as the back channel of the Ohio river and abandoned for purposes of navigation by act of Congress of the United States of America.

I hereby certify that the land above described has not been for three years or more, next prior to this application, within any part or portion of the bed of the river, within or along which the same is situated, which has been used, or which was susceptible, during that period, to use for the ordinary purposes of navigation; and that said land is not now within the navigable limits of the Ohio river, as fixed or established in pursuance of any act of the General Assembly of this Commonwealth, or by or under the authority of the United States.

R. A. PHILLIPS.

To the Honorable James W. Latta, Secretary of Internal Affairs of the Commonwealth of Pennsylvania.

Commonwealth of Pennsylvania, }
County of Allegheny. } ss:

Before me, the subscriber, a justice of the peace in and for the township of Neville, and county aforesaid, personally came W. J. Dithrich and John B. Beggs, who being duly sworn according to law, depose and say that they are disinterested freeholders of the county of Allegheny, and that they have no interest whatever in the foregoing application for warrant to survey the land known as the back channel of the Ohio river, and that to their certain knowledge the land described in said application is unimproved.

W. J. DITHRICH,
JOHN B. BEGGS.

Sworn and subscribed before me this 11th day of January, A. D. 1900.

HENRY ECKERT,
Justice of the Peace.

Allegheny County, ss:

Before me, the subscriber, a justice of the peace in and for the township of Neville, and county aforesaid, personally came R. A. Phillips, the above named applicant, who being duly sworn according to law, did depose and say that he verily believes that no warrant or other office right has previously issued for the land above described, either in his own name or in the name or names of any person or persons under whom he claims the same, except the warrant to D. J. Kyle and others, against the granting of a caveat on which survey a caveat has been duly filed, and under which application of said Kyle, et al., said land is not lawfully patentable.

R. A. PHILLIPS.

Sworn to and subscribed January 11, 1900, before me.

HENRY ECKERT,
Justice of the Peace.

On the 9th day of February, 1900, a caveat was filed by W. P. Potter and W. T. Tredway, attorneys for R. A. Phillips and other

riparian owners, against the acceptance of survey or granting of patent to D. J. Kyle and others. The caveat reads as follows:

In the matter of the application of D. J. Kyle, A. S. Hunter, G. H. Clapp and F. M. Love, for letters patent on a tract of 400 acres, more or less, situate in the townships of Stowe, Neville and Robinson, in the county of Allegheny, Pennsylvania, known as the back channel of the Ohio river.

In the office of the Secretary of Internal Affairs of the Commonwealth of Pennsylvania, Harrisburg, Pa.:

To the Hon. James W. Latta, Secretary of Internal Affairs, Harrisburg, Pa.:

Sir: In compliance with the provisions of the act of Assembly in such case made and provided, we hereby supplement the caveat by us filed in your office on January 2, 1900, against the granting of a patent to above named applicants on the land for which they have applied for letters patent, by adding thereto the following:

1. The land for which applicants seek a patent is not patentable under the act of 1874, for the reason that this land is a part of what was formerly the bed of a navigable river, the act of April 14th, 1874, does not contemplate a patent for such land as once constituted a part or portion of the bed of a navigable river. Applicants could take no title under said act.

2. The tract of land embraced in the above application contains more than 400 acres, and is therefore, more than 100 acres for each applicant, and is more than could be embraced in one application at the time when above application was made.

3. Prior to the act of July 15, 1897, there was no law under which the land embraced in the above application was patentable.

4. The owners of the land abutting on the back channel of the Ohio river, under any application filed, have the first right to the land embraced in the above application; and are, therefore, entitled to the best title that the Commonwealth can give. This can only be given under the act of 1897, under which an application has been made, and is now proceeding in the name of R. A. Phillips, an abutting property holder in behalf of all holders of property abutting said back channel.

5. Caveators are informed, and believe, and expect to be able to prove upon a hearing of this matter before the Board of Property, that the said D. J. Kyle, A. S. Hunter, G. H. Clapp and F. M. Love are strangers without any interest whatever in any land abutting said back channel, and that their application is purely speculative, and if a patent were granted it would be used by them only as a cloud upon the title of caveators.

Pittsburg, February 7, 1900.

W. P. POTTER,

W. T. TREDWAY.

Attorneys for R. A. Phillips and other Riparian Owners.

On the 2d day of February, 1900, a caveat was filed by S. D. Robison and T. J. Gillespie against the granting of a patent on the application of R. A. Phillips, or any other person or persons under warrant No. 31, issued to D. J. Kyle and others. The following is a copy of the caveat:

435 Diamond Street, Pittsburg, Pa.,
January 31, 1900.

To Hon. James W. Latta, Secretary of Internal Affairs, Harrisburg, Pa.:

We, Samuel D. Robison and Thomas J. Gillespie, do hereby caveat and protest against the granting of any patent to R. A. Phillips or any other person or persons under warrant No. 31, dated September 3, 1894, issued to D. J. Kyle, Alexander S. Hunter, G. H. Clapp and F. M. Love, or under any other warrant, for any portion of a certain tract or piece of land included and covered by the description set forth in said warrant, which piece is situate in Stowe township, Allegheny county, Pennsylvania, and described as follows:

Beginning at a point on the southerly shore of the channel of the Ohio river lying south of Neville island (known as the back channel of the Ohio river), at a point where the northerly line of land of Samuel D. Robison and Thomas J. Gillespie intersects with the dividing line between Robinson and Stowe townships; thence up said river southeasterly by line of land of said Robison and Gillespie one hundred and forty-eight perches, more or less, to the line of lands of Theresa Grimes (formerly Edward Dunn); thence at right angles northeasterly eighteen perches, more or less, to the center of the back channel of the Ohio river aforesaid; thence down said river northwesterly by a line located in the center of the said back channel of the Ohio river one hundred and forty-eight perches, more or less, to a point located on a line starting at the beginning point aforesaid and extending northeasterly at right angles to the first above mentioned line; and thence southwesterly eighteen perches, more or less, to the place of beginning, containing sixteen and 65-100 acres.

The lands adjoining and abutting the said described tract or piece of land on the southerly side thereof are owned in fee by us, and we do hereby declare our intention to purchase and obtain a patent from the Commonwealth of Pennsylvania for the said described tract or piece of land, under and in pursuance of the act of Assembly of July 15, 1897; and for the purpose of obtaining said patent, we filed in the office of Secretary of Internal Affairs, on the day of January, 1900, our application for a warrant to survey the said tract or piece of ground, and since the filing of said application, we have paid the amount due the Commonwealth on said application.

SAMUEL D. ROBISON,
THOMAS J. GILLESPIE.

On the same date another caveat was filed by S. D. Robison and T. J. Gillespie against the granting of a patent on the application of R. A. Phillips, or any other person or persons, under warrant No. 31, issued to D. J. Kyle and others. It will be noticed that there is some difference in the description in these caveats. The second caveat reads as follows.

435 Diamond Street, Pittsburg, Pa.,
January 31, 1900.

To Hon. James W. Latta, Secretary of Internal Affairs, Harrisburg, Pa.:

We, Samuel D. Robison and Thomas J. Gillespie, do hereby caveat and protest against the granting of any patent to R. A. Phillips of any other person or persons, under warrant No. 31, dated September 3, 1894, issued to D. J. Kyle, Alexander S. Hunter, G. H. Clapp and F. M. Love, or under any other warrant for any portion of a certain tract or piece of land included and covered by the description set forth in said warrant, which piece is situate in Stowe township, Allegheny county, Pennsylvania, and described as follows: Beginning

on the southerly shore of the back channel of the Ohio river at a point where the northerly line of land of Samuel D. Robison intersects with the easterly line of land of Theresa Grimes (formerly Edward Dunn); thence up said river southeasterly along the line of lands of said Robison seventy-eight perches, more or less, to the line of lands of Kirk's heirs (formerly Dizard Cornelius); thence at right angles northeasterly eighteen perches, more or less, to the center of the back channel of the Ohio river aforesaid; thence down said river northwesterly by a line located in the center of the said back channel of the Ohio river seventy-eight perches, more or less, to a point located on a line starting at the beginning point aforesaid, and extending northeasterly at right angles to the first above mentioned line; and thence southwesterly eighteen perches, more or less, to the place of beginning. The said described piece of ground being so much of the channel of the Ohio river lying south of Neville island (known as the back channel of the Ohio river), as is embraced within said description, containing eight and 775-1000 acres.

The lands adjoining and abutting the said described tract or piece of land on the southerly side thereof are owned in fee by us, and we do hereby declare our intention to purchase and obtain a patent from the Commonwealth of Pennsylvania for the said described tract or piece of land, under and in pursuance of the act of Assembly of July 15, 1897; and for the purpose of obtaining said patent we filed in the office of the Secretary of Internal Affairs on the day of January, 1900, our application for a warrant to survey the said tract or piece of ground, and since the filing of said application we have paid the amount due the Commonwealth on said application.

SAMUEL D. ROBISON,
THOMAS J. GILLESPIE.

On March 5, 1900, a caveat was filed by Thomas McFadden, attorney for Ella C. McFadden, against the granting of a warrant to R. A. Phillips. The following is a copy of the caveat:

To the Honorable Secretary of Internal Affairs of the State of Pennsylvania,
Harrisburg, Pennsylvania:

Dear Sir: I, Ella C. McFadden, of the borough of Sewickley, county of Allegheny, State of Pennsylvania, do hereby declare by Thomas McFadden, Jr., my certain attorney in fact, that I am the owner of a certain tract of land abutting on the south bank of the south channel of the Ohio river, at the foot of Main street, in the borough of Coraopolis, county of Allegheny, Pa.

That I received on January 22, 1900, a notice that an application had been filed in the office of the Secretary of Internal Affairs (said to be filed by R. A. Phillips, of Neville island), for a warrant to survey a tract of unimproved land containing 420 acres, more or less, and known as the back channel of the Ohio river, under and pursuant to the act of Assembly of the Commonwealth of Pennsylvania, approved July 15, 1897.

Now I do hereby ask respectfully, that this my protest, shall be filed in your office, against the granting of such warrant of survey to said R. A. Phillips or to any other person or persons, making the said application, so far at least as it concerns the lines abutting on my land, as shown by the accompanying map marked "A", for the following reasons, viz: Under the said act of July 15th, 1897, it is provided that such lands (i. e. for which application has been made) have not been for three years nor at the time of application within a navigable river." So far as my land is concerned and indeed all west of the foot of Neville Island there is not a foot of land ever visible in the said back

channel, excepting "Hog Back Id." (patented) and the United States Government dike which lies 800 or 1,000 feet northwardly and parallel to our lands, there is therefore no land on which any improvement could be erected without interrupting navigation and interfering with steam boats, barges, &c. landing at our shore. And the said act provides "that no improvements shall be allowed which shall change the natural course of the river." The Ohio river in front of my land and all west of the foot of Neville island, is a navigable stream. Steamboats and other river craft use the said back channel and tie up to the large trees growing on the lower bank of my property near the low water line, where there is a stone wall over sixty years old. Also because the said act of July 15, 1897, provides "that original owners abutting on the river have the first right of purchase." I therefore hereby declare my intention to file an application for a warrant of survey to extend the lines of my land 250 feet northwardly as shown by the red lines on the accompanying map "A," and to purchase the land within the said extended lines and accept letters patent therefor and to pay the cost of purchase fees &c., to the Secretary of Internal Affairs, (i. e. for which application has been made) "Hog Back Id." (patented) and course, inserted before signing.

Coraopolis, Pa.,

Dated March 1, 1900.

Witness, F. R. NESBIT.

Signed.

THOS. McFADDEN, JR.,

Attorney in fact for Ella C. McFadden.

On the 9th of March, 1900, a caveat was filed by Ella J. Richardson against the application of R. A. Phillips. The following is a copy of the caveat:

Pittsburg, Pa., March 6, 1900.

Hon. James W. Latta, Secretary of Internal Affairs, Harrisburg, Pa.:

My Dear Sir: Mrs. Ella J. Richardson, of Coraopolis, Pennsylvania, files this her caveat against the issuing of a warrant of survey to R. A. Phillips, on his application to patent the back channel of the Ohio river in Allegheny county, Pennsylvania, for the following reasons:

1. That she owns land in Coraopolis, Allegheny county, Pa., fronting about 160 feet on the Ohio river therein, being part of the McKee patent issued in 1795, and by mesne conveyances vested in caveator.

2. That her lots are not in the back channel of the Ohio river, but are on the main channel nearly a mile below Neville island. The channel in front of her land has not been abandoned for purposes of navigation for three years or other period.

3. She denies "that her land has not been for three years next prior to said application of R. A. Phillips within any part or portion of the bed of the river within or along which the same is situate, which has been used which was susceptible during that period to use for the ordinary purposes of navigation, and that said land is not now within the navigable limits of the Ohio river as fixed and established by an act of the General Assembly of this Commonwealth or by or under the authority of the United States."

This averment of petitioner is not true as to affiant's lands and the river on its front. She claims as riparian owner of the land to the river.

4. On the contrary the navigable limits of the Ohio river are on the west side thereof upon which her land directly fronts.

5. That R. A. Phillips' description of the land he proposes to have a warrant and survey to cover is too indefinite under the act of 15th July, 1897 (P. L. 301), requiring a "particular description of the land."

6. That your caveator owns to low water mark of the Ohio river; is a riparian owner and such ownership carries her title to the river proper.

7. That the act of 15th July, 1897 (P. L. 301), is void and of no effect in that it seeks to appropriate the title to the bed of the river, which title the State holds in trust for the use of the public as a highway for commerce, but while denying that this land is patentable under this act or any other yet if she is in error she applies for a warrant of survey for herself and remits the money for same herewith.

ELLA J. RICHARDSON.

Allegheny County, ss:

Wilford Meanor being duly sworn according to law, says that the facts set out in the foregoing application are true, as he verily believes, he being the agent of the said Mrs. Ella J. Richardson, and knows the facts.

WILFORD E. MEANOR.

Sworn and subscribed to before me this 6th day of March, A. D. 1900.

(Seal.)

GEO. A. LASHELL,
Notary Public.

The patent to James McKee, recorded in Patent Book, Vol. 24, p. 450, runs to the Ohio river and this land, and fronts the river and is covered by said patent.

On the same date a caveat was filed by S. D. Jennings, M. D., against the application of R. A. Phillips. The caveat reads as follows:

Pittsburg, Pa., March 6, 1900.

Hon. James W. Latta, Secretary of Internal Affairs, Harrisburg, Pa.:

My Dear Sir: S. D. Jennings, M. D., of Sewickley, of Allegheny county, Pennsylvania, files this his caveat against the issue of a warrant of survey to R. A. Phillips, on his application to patent the back channel of the Ohio river, in Allegheny county, Pennsylvania, for the following reasons:

1. That he owns land in Coraopolis, Allegheny county, Pa., fronting about 100 feet on the Ohio river therein, being part of the New Purchase Application No. 145, in the name of Henry Montour, Moon township, and by mesne conveyances vested in caveator.

2. That his lots are not in the back channel of the Ohio river, but are on the main channel nearly a half mile below Neville island. The channel in front of his land has not been abandoned for the purposes of navigation for three years or other period, nor obstructed as alleged.

3. He denies "that his land has not been for three years next prior to said application of R. A. Phillips within any part of portion of the bed of the river within or along which the same is situate, which has been used, which was susceptible during that period to use for the ordinary purposes of navigation, and that said land is not now within the navigable limits of the Ohio river as fixed and established by any act of the General Assembly of this Commonwealth or by or under the authority of the United States." This averment of petitioner is not true as to affiant's lands and the river on its front. He claims as riparian owner of the land to the river.

4. On the contrary, the navigable limits of the Ohio river are on the west side thereof, on which his lands front, leaving no vacant strip.

5. That R. A. Phillips' description of the land he proposes to have a warrant of survey to cover is too indefinite under the act of 15th July, 1897 (P. L. 301), requiring a "particular description of the land." There should have been a plot as the result of a survey.

6. That your caveator owns to low water mark of the Ohio river; is a riparian owner and such ownership carries his title to the river proper.

7. That the act of 15th July, 1897 (P. L. 301), is void and of no effect in that it seeks to appropriate the title to the bed of the river, which title the State holds in trust for the use of the public as a highway for commerce, but while denying that this land is patentable under this act or any other, yet if he is in error he applies for a warrant of survey for himself and remits the money for same herewith.

S. D. JENNINGS.

Allegheny County, ss:

S. D. Jennings being duly sworn according to law, says that the facts set out in the foregoing application are true, as he verily believes.

S. D. JENNINGS.

Sworn and subscribed to before me this 6th day of March, A. D. 1900.

Description of patented land in mortgage of Alex. Breckenridge, No. 459, dated 25th August, 1826.

On the same date a caveat was filed by George W. Meanor against the application of R. A. Phillips. The caveat reads as follows:

Pittsburg, Pa., March 6, 1900.

Hon. James W. Latta, Secretary of Internal Affairs, Harrisburg, Pa.:

My Dear Sir: George W. Meanor, of Allegheny county, Pennsylvania, files this his caveat against the issuance of a warrant of survey to R. A. Phillips, on his application to patent the back channel of the Ohio river, in Allegheny county, Pennsylvania, for the following reasons:

1. That he owns land in Corapolis, Allegheny county, Pa., fronting about 160 feet on the Ohio river therein, being part of the McKee patent, issued in 1795, and by mesne conveyances vested in caveator.

2. That his lots are not in the back channel of the Ohio river, but are on the main channel, nearly a mile below Neville island. The channel in front of his land has not been abandoned for purposes of navigation for three years or other period.

3. He denies "that this land has not been for three years next prior to said application of R. A. Phillips within any part or portion of the bed of the river within or along which the same is situated, which has been used, which was susceptible during that period to use for the ordinary purposes of navigation, and that said land is not now within the navigable limits of the Ohio river as fixed and established by any act of the General Assembly of this Commonwealth, or by or under the authority of the United States." This averment of petitioner is not true as to affiant's lands and the river on its front. He claims as riparian owner of the land to the river.

4. On the contrary, the navigable limits of the Ohio river are on the west side thereof.

5. That R. A. Phillips' description of the land he proposes to have a warrant of survey to cover is too indefinite under the act of 15th July, 1897 (P. L. 301), requiring a "particular description of the land."

6. That your caveator owns to low water mark of the Ohio river; is a riparian owner and such ownership carries his title to the river proper.

7. That the act of 15th July, 1897 (P. L. 301), is void and of no effect in that it seeks to appropriate the title to the bed of the river, which title the State holds in trust for the use of the public as a highway for commerce, but while denying that this land is patentable under this act or any other, yet if he is in error he applies for a warrant of survey for himself and remits the money for same herewith.

GEORGE W. MEANOR.

Allegheny County, ss:

Winfred Meanor being duly sworn according to law, says that the facts set out in the foregoing application are true, as he verily believes.

GEO. A. LASHELL,

W. E. MEANOR,

Sworn and subscribed to before me this 6th day of March, A. D. 1900.

(Seal.)

WILFORD E. MEANOR.

Notary Public.

The patent to Jas. McKee, Patent Book, Vol. 24, page 450, covers Geo. W. Meanor's land to the Ohio river.

On the same date a caveat was filed by Robert B. Kendall against the application of R. A. Phillips. The caveat is as follows:

Pittsburg, Pa., March 6, 1900.

Hon. James W. Latta, Secretary of Internal Affairs, Harrisburg, Pa.:

My Dear Sir: Robert B. Kendall, of Coraopolis, in the county of Allegheny, and State of Pennsylvania, files this his caveat against the granting of any warrant of survey unto R. A. Phillips, or other person under his application, to your office therefor, received on the 12th day of January, A. D. 1900, for any portion of the back channel of the Ohio river, in the borough of Coraopolis, county and State aforesaid, and for any land described therein, for the following reasons:

1. That his land fronts on the west or southwest side of the Ohio river, in the borough of Coraopolis, county of Allegheny, and State of Pennsylvania, and it extends out into the Ohio river, the said land being part of the same which was patented to James McKee, May 9, 1795, and enrolled in Patent Book P, Vol. 24, page 450, on the 13th of May, 1795, and which by mesne conveyances has become duly vested in your caveator.

2. That the said Ohio river in front of his lots is not in the back channel of the Ohio river as set out in R. A. Phillips' said petition, but fronts on the main channel of the Ohio river and the channel has not been abandoned for purposes of navigation by any act of Congress or of the State of Pennsylvania.

3. It is not true as to the river in front of your petitioner's land in the borough of Coraopolis, county and State aforesaid, "that his land has not been for three years or more next prior to said application within any part or portion of the bed of the river within or along which the same is situated, which has been used or which was susceptible during that period to use for the ordinary purposes of navigation, and that said land is not now within the navigable limits of the Ohio river as fixed or established in pursuance of

any act of the General Assembly of this Commonwealth or by or under the authority of the United States." This averment of petitioner is not true as to affiant's lands and the river on its front.

4. On the contrary, the navigable limits of the Ohio river are bounded on the west side thereof by petitioner's lands to the distance of one hundred and sixty feet; that his lands are not in the back channel between Neville island and the main land, but fronts on the main channel of the Ohio river below the Neville island the distance of nearly a mile.

5. That the said description is not a compliance with the act of 15th July, 1897 (P. L. 301), in that it is not a "particular description of the land applied for."

6. That your petitioner is the owner in fee of the lots numbers three and four (3 and 4) in the plan of the village of Middletown, laid out by Adam Paterson, not recorded; that the said lots front on the main channel of the Ohio river and his riparian ownership thereof carries his title to the navigable channel of the same.

7. That the act of the 15th day of July, 1897 (P. L. 301), is void in that it seeks to appropriate to private ownership the title to the bed of the navigable parts of the Ohio river, which title it holds only in trust for the use of the public as a highway of commerce; that your petitioner owns in front of his lots to low water mark of the Ohio river and that beyond that point is the bed of the river proper, the title to which the State holds in trust for the public use of navigation.

R. B. Kendall's land to the Ohio river is covered by the McKee patent, Vol. 24, p. 450.

If vacant land R. B. claims right to patent and remits 1.25 in draft.

R. B. KENDALL.

Allegheny County, ss:

R. B. Kendall being duly sworn according to law, says that the facts set out in the foregoing caveat are true, as he believes.

R. B. KENDALL.

Sworn and subscribed to before me this 6th day of March, A. D. 1900.

GEO. A. LASHELL,
Notary Public.

On the same date a caveat was filed by John Watson against the application of R. A. Phillips. The caveat reads as follows:

Pittsburg, Pa., March 6, 1900.

Hon. James W. Latta, Secretary of Internal Affairs, Harrisburg, Pa.:

My Dear Sir: John Watson, of Coraopolis, Allegheny county, Pennsylvania, files this caveat against the granting of any warrant of survey to R. A. Phillips, or other person under his application, received in your office on the 12th day of January, 1900, for any portion of the so-called back channel of the Ohio river, in the borough of Coraopolis, county and State aforesaid, and for any land described therein, for the following reasons:

1. That his land fronts on the west of southwest side of the Ohio river in said borough and it extends in front to the Ohio river, said land being part of a tract patented to him by this Commonwealth and also by mesne conveyances of the original settler, so that title in fee is duly vested in your caveator.

2. That the said Ohio river in front of his lots is not in the back channel of the Ohio river as set out in R. A. Phillips' said petition, but fronts on the main channel of the Ohio river, and the channel has not been abandoned for purposes of navigation by any act of Congress or of the State of Pennsylvania.

3. It is not true as to the river in front of your petitioner's land in Corao-

polis borough, county and State aforesaid, "That his land has not been for three years or more next prior to said application within any part or portion of the bed of the river within or along which the same is situate, which has been used or which was susceptible during that period to use for the ordinary purposes of navigation and that said land is not now within the navigable limits of the Ohio river as fixed or established in pursuance of any act of the General Assembly of this Commonwealth or by or under the authority of the United States." This averment of petitioner is not true as to affiant's lands and the river on its front.

4. On the contrary, the navigable limits of the Ohio river are bounded on the west side thereof by petitioner's lands to the distance of two hundred feet (200 feet); that his lands are not in the back channel of the Ohio river between Neville island and the main land, but fronts on the main channel of the Ohio river below Neville island over half a mile.

5. That the description of this land by R. A. Phillips' application is not in full compliance with the act of July 15, 1897 (P. L. p. 301), in that it is not "a particular description of the land applied for."

6. That your caveator is the owner in fee of his frontage of the said river and runs out to the main channel of the Ohio river and his land is bounded on the south by lands of Mark M. Watson, and on the north side by the Coraopolis Water Works' land; that his riparian ownership carries his title to the main channel of the same.

7. That the act of 15th July, 1897 (P. L. 301), is void in that it seeks to appropriate to private ownership the title to the bed of the river, which title it holds only in trust for the use of the public as a highway of commerce, but while denying that this land is patentable under this act or any other, yet if he is in error he applies for a warrant of survey for himself and remits the money for same herewith.

Note.—John Watson and others paid the money secured by said mortgage by receipt of State Treasurer Allen and same is recorded in Recorder's Office of Allegheny County in Deed Book, Vol. 320, p. 10, October 15, 1873.

This land is part of the warrant to Henry Montour under his new purchase application 145, the purchase money of which was secured by mortgage of Alex. Breckenridge dated August 25, 1826.

his
JOHN x WATSON.
mark.

Attest:

ROBT. J. WATSON,
GEO. A. LASHELL.

(Seal.)

GEO. A. LASHELL,
Notary Public.

On the 16th day of March, 1900, a caveat was filed by Elizabeth M. Phillips against the application of R. A. Phillips. The caveat reads as follows:

Pittsburg, March 15, 1900.

Secretary of Internal Affairs, Harrisburg, Pa.:

Elizabeth M. Phillips, of Coraopolis, Allegheny county, Pa., files this her caveat against the granting of any warrant of survey to R. A. Phillips upon his application filed January 12, 1900, in your office. There is no vacant land included in said Phillips' application so far as can be ascertained from the indefinite boundaries given therein.

Mrs. Elizabeth M. Phillips owns about 500 feet fronting the Ohio river at the lower end of the Neville island on what may be called the back channel. It is a navigable channel, is actually such and is used as such and has not been abandoned by any legislation, State or national, as a navigable stream, and has been used within the last three years as a highway for navigable purposes and still is so used, and preparations are now in progress for more extensive use on account of the slack water of the Ohio river. Inclosed find one dollar for filing this as a caveat. Mrs. Phillips' land is part of the A. Breckenridge tract patented, and purchase money paid on mortgage in 1873, about same date John Watson paid purchase money on his mortgage.

M. W. SHAFER,

Attorney for Eliz. M. Phillips.

No notice has been served upon Mrs. Elizabeth M. Phillips by R. A. Phillips, as he is required to do under the act of 15th July, 1897. My clients will all apply for patents in case there appears any vacant land.

On the 17th day of March, 1900, S. J. and Mary J. Dugan filed a caveat against the application of R. A. Phillips. The caveat reads as follows:

Pittsburg, Pa., March 16, 1900.

To Secretary Internal Affairs, Harrisburg, Pa.:

S. J. and Mary J. Dugan own about 165 feet fronting on the Ohio river, in the borough of Coraopolis, Allegheny county, Pa., and it abuts on the part of the river which R. A. Phillips claims to be entitled to patent under the act of the General Assembly of the Commonwealth of Pennsylvania, approved the 15th July, 1897 (P. L. 301). The river in front of the said lot and which is proposed to be patented by R. A. Phillips aforesaid, is navigable and has been navigated within the last year and navigated by boats and other river craft; that your caveators have seen the Little Dick steamer go up and down to the Lake Erie railroad bridge over Montours run, just above this lot, and that the said channel has not been abandoned by any act, State or national. The said land proposed to be patented by said R. A. Phillips is now within the navigable parts of the Ohio river and the back channel thereof, and while denying the patentability of the land in his river front they claim that if they were in error as to that they have a right to apply for a patent therefor, being the contiguous owners thereof. Inclosed find one dollar for filing this as a caveat and this is to be followed up as soon as can be done by a plot showing the ground plan of the land of caveators with reference to the proposed vacant river bottom, and this suggestion applies to all of the applicants that I represent who are resisting the patenting of the back channel of the Ohio river.

Respectfully,

N. W. SHAFER,

Attorney for S. J. and Mary J. Dugan, Coraopolis, Pa.

On the 18th day of April, 1900, a caveat was filed by D. J. Kyle and others against the application of R. A. Phillips. The caveat reads as follows:

In the matter of the application of R. A. Phillips, of the township of Neville,

in the county of Allegheny, and State of Pennsylvania, for a warrant to survey four hundred and twenty acres of land situated in the townships of Neville, Stowe and Robinson, and borough of Coraopolis, all in the county of Allegheny, and State of Pennsylvania, known as the back channel.

Caveat filed on part of D. J. Kyle, F. M. Love, Alexander S. Hunter and G. H. Clapp, by their attorneys, D. F. Patterson and John G. MacConnell, to the granting of a warrant to survey to the said R. A. Phillips, as set forth in his said petition, for the following reasons, to wit:

First. The above named caveators heretofore, to wit, on the 24th day of August, 1894, filed their application for a warrant to survey the land described in the petition filed by R. A. Phillips, upon which application a warrant to survey was issued to Charles Davis, surveyor for Allegheny county, dated September 3, 1894, upon which warrant a survey was had and made and returned, accepted and filed by the Department of Internal Affairs.

Second. The said caveators as the first applicants for a warrant to survey and under the proceedings had thereunder and returns made are entitled to have a patent issued to them for the land in question.

Third. The said R. A. Phillips is not now, neither was he entitled at the time of the filing of his application for a warrant to survey said land, to have one issued; he is not entitled to receive the same; he is not, nor was he an abutter upon any part of the land described in the said petition and for which he prays for a warrant to survey the same.

Fourth. There is no act of Assembly authorizing the Department of Internal Affairs to issue a warrant to survey land of the description set forth in the petition of the said R. A. Phillips, nor can a warrant be issued upon such application, for the reasons set forth therein.

D. F. PATTERSON,
JNO. G. MACCONNELL,
Attorneys for Caveators.

March 24, 1900.

On the 30th of April, 1900, a caveat was filed by William Byrne and others against the application of R. A. Phillips. The caveat reads as follows:

April 23, 1900.

State of Pennsylvania, Department of Internal Affairs,

To the Honorable James W. Latta, Secretary:

Margaret Byrne, Eleanor Depp and William Byrne file this their caveat against issuing a warrant to one R. A. Phillips, or any other person to survey for a patent for a certain portion of four hundred and twenty acres of unimproved land, being part of what is known as the back channel of the Ohio river, in the county of Allegheny, along Neville island, under the provisions of the act of Assembly of July 15, 1897, of the Commonwealth of Pennsylvania, for the following reasons:

The caveators are the riparian owners of lands lying and immediately abutting upon the south side of said back channel in Robinson township, for a distance of one hundred and seventy-four perches, more or less.

Caveators except to the issuing of a warrant to survey for a patent for that portion of said back channel immediately abutting on the lands of caveators having a frontage of some one hundred and seventy-four perches in length and some two hundred feet in width to the center of said back channel, containing thirteen acres more or less.

Caveators except to the issuing of a warrant to survey for a patent for said 13 acres as applied for by said R. A. Phillips, for the reason that caveators intend and will make application for a warrant to survey for a patent for the same under the provision of the said act of Assembly of July 15, 1897, section 2d, which gives riparian owners the first right to purchase the lands immediately abutting upon their said lands.

This caveat is filed within sixty days from the time of service of notice given by said R. A. Phillips of his application, which service was had upon caveators March 3, 1900.

Attest:

JOHN M. GRAHAM,
A. L. LARGE,
CHARLES LARGE,

WILLIAM BYRNE,
MARGARET BYRNE,
ELEANOR DEPP.

On the 29th of January, 1900, two applications were filed by Samuel D. Robison and Thomas J. Gillespie for a portion of the back channel of the Ohio river, described in the application of D. J. Kyle and others and R. A. Phillips. These applications read as follows:

We, Samuel D. Robison and Thomas J. Gillespie, of the county of Allegheny, and State of Pennsylvania, do hereby apply for a warrant to survey and patent, in pursuance of the provisions of the act of Assembly of July 15, 1897, a certain tract or piece of land situate in Stowe township, in the county of Allegheny, and State of Pennsylvania, and being bounded and described as follows:

Beginning on the southerly shore of the back channel of the Ohio river aforesaid, at a point where the northerly line of land of Samuel D. Robison intersects with the easterly line of land of Theresa Grimes (formerly Edward Dunn); thence up said river southeasterly along the line of lands of said Robison seventy-eight perches, more or less, to the line of lands of Kirk's heirs (formerly Dizard Cornelius); thence at right angles northeasterly eighteen perches, more or less, to the center of the back channel of the Ohio river aforesaid; thence down said river northwesterly by a line located in the center of the said channel of the Ohio river seventy-eight perches, more or less, to a point located on a line starting at the beginning point aforesaid, and extending northeasterly at right angles to the first above mentioned line; and thence southwesterly eighteen perches, more or less, to the place of beginning. Containing eight and 775-1000 acres, more or less. The said two described pieces of ground being so much of the channel of the Ohio river lying south of Neville island (known as the back channel of the Ohio river) as is embraced within said descriptions.

The said described piece of ground has not been for three years or more within any portion of the bed of the said river used, or which has been susceptible to use, for the ordinary purposes of navigation, and is not within the navigable limits of the Ohio river as fixed by an act of Assembly of Pennsylvania, or under authority of the United States.

SAMUEL D. ROBISON,
THOMAS J. GILLESPIE.

To Hon. James W. Latta, Secretary of Internal Affairs.

State of Pennsylvania, }
Allegheny County, } ss:

Before me, the subscriber, a justice of the peace, in and for the township of Stowe, in the county of Allegheny, and State of Pennsylvania aforesaid, per-

sonally appeared R. E. Macoabrey and John R. Fisher, who being by me duly sworn doth depose and say: That they are freeholders of Allegheny county aforesaid; that they have no personal interest in the above application of Samuel D. Robison and Thomas J. Gillespie for a warrant to survey and patent the land described in said application; that they are personally acquainted with the tract or piece of land described in said application, and that the said piece of land is unimproved.

R. E. MACOABREY,
J. R. FISHER.

Sworn and subscribed before me this 20th day of January, A. D. 1900.

JAMES A. DICKSON, J. P.

State of Pennsylvania, }
Allegheny County. } ss:

Before me the subscriber, a justice of the peace, in and for the township of Stowe, in the county of Allegheny, and State of Pennsylvania aforesaid, personally appeared Samuel D. Robison and Thomas J. Gillespie, the applicants named in the above application for a warrant to survey and patent a certain piece or tract of land situate in Stowe township, in Allegheny county, aforesaid, described in said application, who, being by me duly sworn, doth depose and say: that they verily believe that no warrant or other office right affecting the piece or tract of land described in their said application has been granted, except a warrant No. 31, dated September 3, 1894, issued to D. J. Kyle, Alexander S. Hunter, G. H. Clapp and F. M. Love, the description set forth in which warrant embraces and includes the ground described in said application; that deponents are informed that from the date of said warrant until recently no steps were taken to survey the ground covered by the said warrant, but that the county engineer of Allegheny county has been recently instructed to make a survey of the ground covered by the description in said warrant. Deponents further say that they are the owners of the lands which lie and abut upon the southerly side of the piece or tract of land covered by their said application.

SAMUEL D. ROBISON,
THOMAS J. GILLESPIE.

Sworn and subscribed before me this 20th day of January, A. D. 1900.

JAMES A. DICKSON, J. P.

We, Samuel D. Robison and Thomas J. Gillespie, of the county of Allegheny, in the State of Pennsylvania, do hereby apply for a warrant to survey and patent, in pursuance of the provisions of the act of Assembly of July 15, 1897, a certain tract or piece of land situate in Stowe township, in the county of Allegheny, and State of Pennsylvania, and being bounded and described as follows:

Beginning at a point on the southerly shore of the channel of the Ohio river, lying south of Neville island (known as the back channel of the Ohio river), at a point where the northerly line of the land of Samuel D. Robison and Thomas J. Gillespie intersects with the dividing line between Robison and Stowe townships; thence up said river southeasterly by line of lands of said Robison and Gillespie one hundred and forty-eight perches, more or less, to the line of lands of Theresa Grimes (formerly Edward Dunn); thence at right angles northeasterly eighteen perches, more or less, to the center of the back channel of the Ohio river aforesaid; thence down said river northwesterly by a line located in the center of the said back channel of the Ohio river one hundred and forty-eight perches, more or less, to a point located on

a line starting at the beginning point aforesaid and extending northeasterly at right angles to the first above mentioned line; and thence southwesterly eighteen perches, more or less, to place of beginning. Containing sixteen and 65-100 acres, more or less.

The said described piece of ground has not been for three years, or more, within any portion of the bed of the said river used, or which has been susceptible to use, for the ordinary purposes of navigation; and is not within the navigable limits of the Ohio river as fixed by any act of Assembly of Pennsylvania, or under any authority of the United States.

SAMUEL D. ROBISON,
THOMAS J. GILLESPIE.

To Hon. James W. Latta, Secretary of Internal Affairs.

On the 3d day of March, 1900, proofs of publication were filed in the matter of the applications of Samuel D. Robison and Thomas J. Gillespie. The proofs read as follows.

State of Pennsylvania, }
Allegheny County. } ss:

F. C. Kennedy, of the Pittsburg Post, in said county, being duly sworn, doth depose and say, that he is the bookkeeper of the Pittsburg Post, a public newspaper, published in said county, and the notice of which the annexed is a copy, cut from said newspaper, was printed and published in the regular edition and issue of said newspaper on the following days, viz: On February 2-9-16, 1900.

F. C. KENNEDY

Subscribed and sworn before me this 1st day of March, 1900.

FRANCIS X. BARR,
Notary Public.

(Seal.)

William A. Sipe, Attorney-at-Law, 435 Diamond Street.

Notice is hereby given that the undersigned have made application to the Secretary of Internal Affairs of Pennsylvania for a warrant to survey and patent in pursuance of the act of Assembly of July 15, 1897, a certain piece of land, situate in Stowe township, Allegheny county, Pennsylvania, described as follows, to wit: Beginning on the southerly shore of the channel of the Ohio river, lying south of Neville island (known as the back channel of the Ohio river), at a point where the northerly line of land of Samuel D. Robison intersects with the easterly line of land Theresa Grimes (formerly Edward Dunn); thence up said river southeasterly along the line of lands of Samuel D. Robison, 78 perches, more or less, to the line of lands of Kirk's heirs (formerly Dizard Cornelius) thence at right angles northeasterly 18 perches, more or less, to the center of the back channel of the Ohio river aforesaid; thence down said river northwesterly by a line located in the center of said back channel of the Ohio river, 78 perches, more or less, to a point located on a line starting at the beginning point aforesaid and extending northeasterly at right angles to the first above mentioned line, and thence southwesterly 18 perches, more or less, to the place of beginning, containing 8 775-1000 acres, more or less. The said described piece of land being so much of the channel of the Ohio river lying south of Neville island (known as the back channel of the Ohio river) as is embraced within said description, and being bounded on the southerly side thereof by lands of said Robison and Gillespie.

SAMUEL D. ROBISON,
THOMAS J. GILLESPIE.

State of Pennsylvania, }

(Seal.)

William A. Sipe, Attorney-at-Law, 435 Diamond Street.

Notice is hereby given that the undersigned have made application to the Secretary of Internal Affairs of Pennsylvania for a warrant to survey and patent in pursuance of the act of Assembly of July 15, 1897, a certain piece of land situate in Stowe township, Allegheny county, Pennsylvania, described as follows, to wit: Beginning at a point on the southerly shore of the channel of the Ohio river, lying south of Neville island (known as the back channel of the Ohio river) at a point where the northerly line of land of Samuel D. Robison and Stowe townships, thence up said river southeasterly by line of Robison and Stowe townships, thence up said river southeasterly by line of land of said Robison and Gillespie 148 perches, more or less, to the line of lands of Theresa Grimes (formerly Edward Dunn), thence at right angles northeasterly 18 perches more or less, to the center of the back channel of the Ohio river aforesaid; thence down said river northwesterly by a line located in the center of said back channel of the Ohio river 148 perches, more or less, to a point located on a line starting at the beginning point aforesaid and extending northeasterly at right angles to the first above mentioned line, and thence southeasterly 18 perches, more or less, to the place of beginning, containing 16 65-100 acres, more or less. The said described piece of land being so much of the channel of the Ohio river lying south of Neville island (known as the back channel of the Ohio river) as is embraced within said description, and being bounded on the southerly side thereof by lands of said Robison and Gillespie.

SAMUEL D. ROBISON,
THOMAS J. GILLESPIE.

On the 18th day of April, 1900, a caveat was filed by D. J. Kyle and others against the application of Samuel D. Robison and Thomas J. Gillespie. The caveat reads as follows:

In the matter of the application of Thomas J. Gillespie and Samuel D. Robison, for a warrant to survey two tracts of land in _____ township, in the county of Allegheny, State of Pennsylvania, known as the back channel.

Caveat filed on part of D. J. Kyle, F. M. Love, Alexander S. Hunter and G. H. Clapp, by their attorneys, D. F. Patterson and John G. MacConnell, to the granting of a warrant to survey to the said Thomas J. Gillespie and Samuel D. Robison, for the following reasons, to wit:

First. The petition of said applicants does not contain the location or description of the property for which a warrant to survey is asked.

Second. The above named caveators heretofore, to wit, on the 24th day of August, 1894, filed their application for a warrant to survey certain lands claimed to be vacant and unimproved, situate in the townships of Neville, Stowe and Robinson, and borough of Coraopolis, all in the county of Allegheny, and State of Pennsylvania, and known as the back channel, upon which application a warrant to survey was issued to Charles Davis, surveyor for Allegheny county, dated September 3, 1894, upon which warrant a survey was had and made and returned, accepted and filed by the Department of Internal Affairs, and said caveators believe that the land applied for in application of the said Thomas J. Gillespie and Samuel D. Robison is included in the lands described in their application or petition, warrant to survey and return of same, and are therefore entitled to have a patent issued to them for the land in question, they being the first applicants therefor.

Third. The said Thomas J. Gillespie and Samuel D. Robison are not entitled to have a warrant to survey said land for which they pray for a warrant to survey issued.

Fourth. There is no act of Assembly authorizing the Department of Internal Affairs to issue a warrant to survey land of the description set forth in the petition of the said Thomas J. Gillespie and Samuel D. Robison, nor can a warrant be issued upon said application as in manner set forth in said petition.

D. F. PATTERSON,
JNO. G. MacCONNELL,
Attorneys for Caveators.

March 24, 1900.

On the 19th day of March an application was filed by Ella C. McFadden for two acres and one hundred and two perches of land situated in the back channel of the Ohio river, which appears to be a portion of the land embraced within the warrant of D. J. Kyle and others and the application of R. A. Phillips. The application reads as follows:

APPLICATION FOR UNIMPROVED LAND.

To the Secretary of Internal Affairs, Harrisburg, Pa.:

I, Ella C. McFadden, of the borough of Sewickley, Pa., make this application to the Secretary of Internal Affairs of the Commonwealth of Pennsylvania, by Thomas McFadden, Jr., my certain attorney in fact, for a certain tract of (two acres and one hundred and two perches) 2 acres 102 perches, of unimproved and vacant land, situated along and within the south or back channel of the Ohio river, in the borough of Coraopolis, county of Allegheny, State of Pennsylvania, bounded and described as follows, viz:

Beginning at the northwest corner of her land or property on the eastern side and at the foot of Main street, in the said borough of Coraopolis, Pa., and abutting upon the south channel of the Ohio river; thence northwardly two hundred and fifty feet (250 feet) straight with the easterly line of Main street; thence by a right angle east four hundred and sixty feet (460); thence by a right angle south two hundred and fifty feet (250) to the corner of land of the estate of T. S. Watson, deceased; thence by a right angle west, parallel with and along the Ohio river (460 feet) to the place of beginning. Containing two acres one hundred and two perches (2 acres and 102 perches).

This application is made for a warrant to survey the said described tract of land, under and pursuant to the provisions of the act of Assembly approved

July 15, 1897, which gives the original owners abutting on river the first right of purchase of strips of land along their river fronts, and it is intended to extend the northern line of the land of said Ella C. McFadden two hundred and fifty feet northwardly beyond the present front or river lines of her land, which she purchased from the estate of Sarah R. McFadden, deceased, the said Sarah R. McFadden having received from the State of Pennsylvania a deed or grant for the same tract October 13, 1873, as recorded in the recorder's office of Allegheny county, Pa., in Deed Book, Vol. 320, page 11, upon the payment of her share due the State of Pennsylvania upon the mortgage No. 459, of Alex. Breckenridge for patent recorded in Book H, Vol. 22, page 87. The accompanying map shows the property lines of the applicant, also in red ink the extended lines of the tract applied for.

THOS. McFADDEN, Jr.,
Attorney in fact for Ella C. McFadden.

To the Secretary of Internal Affairs of the Commonwealth of Pennsylvania,
Harrisburg, Pa.:

Allegheny county, ss:

Before me the subscriber, a justice of the peace in and for the borough of Coraopolis, and county of Allegheny aforesaid, personally came James R. Noss and Frank R. Nesbit, freeholders in said borough and disinterested witnesses, who being duly sworn according to law, did depose and say that to their certain knowledge that the land described in the above application is unimproved.

JAMES R. NOSS,
Witness.
FRANK R. NESBIT,
Witness.

Sworn and subscribed before me this 3d day of March, A. D. 1900.

ALEX. D. GUY,
Justice of the Peace.

Before me the subscriber, a justice of the peace in and for the borough of Coraopolis, and county of Allegheny, personally came Thomas McFadden, Jr., attorney in fact for Ella C. McFadden, the above named applicant, who being duly sworn according to law, did depose and say that he verily believes that no warrant or other office right has previously issued for the land above described, either in the name of the applicant above given, nor in the name or names of any other person or persons.

THOS. McFADDEN,
Attorney in fact for Ella C. McFadden.

Sworn and subscribed before me this 3d day of March, A. D. 1900.

ALEX. D. GUY,
Justice of the Peace.

On the 18th day of April, 1900, a caveat was filed by D. J. Kyle and others against the application of Ella C. McFadden. The caveat reads as follows:

In the matter of the application of Ella C. McFadden, by Thomas McFadden, Jr., her attorney in fact, for a warrant to survey two acres and one hundred and two perches of unimproved and vacant land situated along and within the south or back channel of the Ohio river, in the borough of Coraopolis, in the county of Allegheny, and State of Pennsylvania.

Caveat filed on part of D. J. Kyle, F. M. Love, Alexander S. Hunter and G. A. Clapp, by their attorneys, D. F. Patterson and John G. McConnell, to the granting of a warrant to survey to the said Ella C. MacFadden, as set forth in her said petition, for the following reasons, to wit:

First. The above named caveators heretofore, to wit, on the 24th day of August, 1894, filed their application to survey a certain tract of land, including therein the land described in the petition of the said Ella C. McFadden, upon which application a warrant to survey was issued to Charles Davis, surveyor of Allegheny county, dated September 3, 1894, upon which warrant a survey was had and made and returned, accepted and filed by the Department of Internal Affairs.

Second. The said caveators as the first applicants for a warrant to survey said land, and under the proceedings had thereunto, and returns made, are entitled to have a patent issued to them for the land in question.

Third. The said Ella C. McFadden is not entitled to receive a warrant to survey said land described in her said petition and for which she prays for a warrant to survey the same.

Fourth. There is no act of Assembly authorizing the Department of Internal Affairs to issue a warrant to survey land of the description set forth in the petition of the said Ella C. McFadden, nor can a warrant be issued upon such application as in manner prayed for in said petition.

D. F. PATTERSON,
JNO. G. MacCONNELL,
Attorney for Caveators.

March 24, 1900.

Several hearings were had before the Board of Property growing out of the applications referred to, on the caveats filed against the application of D. J. Kyle and others. The caveat filed by William Brady and others expired by limitation under the act of 1792. Citations were issued in the cases of the caveats of W. T. Tredway and others, W. P. Potter and W. T. Tredway, attorneys for R. A. Phillips, and Samuel D. Robison and Thomas J. Gillespie, by which these cases were brought to the consideration of the Board of Property and were finally disposed of at the meeting of the Board held December 4, 1900. In the case of the caveats of the Lewis Foundry and Machine Company, Horace J. Thomas and the borough of Coraopolis, no citations were ever issued, and the cases were therefore not brought to the consideration of the Board. They practically fall, however, for the reason that at the meeting of the Board of Property held December 4th, the Board decided that the act of 1874, under which D. J. Kyle and others were granted a warrant, did not give the Secretary of Internal Affairs authority to issue such warrants. This decision of the Board practically annulled the Kyle warrant, unless the warrantees shall within the six months specified in the act of 1792 bring an action of ejectment to test the validity of their warrant in the courts of the Commonwealth. In the matter of the application of R. A. Phillips, considered by the Board by agreement of counsel at the same time the Board passed upon the cases against Kyle and others, citations were issued on but two of the

caveats. These citations brought to the consideration of the Board the relative rights of Samuel D. Robison and Thomas J. Gillespie against the applications of R. A. Phillips. By agreement of counsel, without the issuance of a citation, the case of D. J. Kyle and others against the application of R. A. Phillips was also considered and disposed of finally at the meeting on the 4th of December. The other caveats against the application of R. A. Phillips, hereinbefore referred to, were disposed of as follows: In the case of the caveat of Ella C. McFadden, a disclaimer was filed by R. A. Phillips relative to the land to which the said Ella C. McFadden asserted a claim for office rights. The following is a copy of the disclaimer:

I, R. A. Phillips, do hereby disclaim as to the land immediately in front of the land of Ella C. McFadden.

R. A. PHILLIPS.

The caveat of the said Ella C. McFadden was then withdrawn, as appears by the following notice:

I, Thomas McFadden, Jr., do hereby withdraw the caveat filed by me as attorney in fact for Ella C. McFadden vs. application of R. A. Phillips.

THOS. McFADDEN, Jr.,

Attorney in fact for Ella C. McFadden.

May 19, 1900.

In the case of the caveat of Ella J. Richardson a disclaimer was filed by the applicant, R. A. Phillips, as to any intention to include in his warrant the land claimed by the said Ella J. Richardson. The disclaimer reads as follows:

I, R. A. Phillips, applicant for letters patent upon a certain tract of land situate in the county of Allegheny, and State of Pennsylvania, known as the back channel of the Ohio river, having made said application in the interest of, and as trustee for, all of the property holders owning land abutting lands applied for, in consideration of the withdrawal of the caveat filed by N. W. Shafer, Esq., attorney for Ella J. Richardson, of the borough of Coraopolis, do hereby disclaim any right to the issuance of a warrant, or of the granting of letters patent upon the land immediately in front of the property of the said Ella J. Richardson and do hereby agree that the land immediately in front of the land of the said Ella J. Richardson shall be excepted from and out of the lands described in the said application, to the end that no warrant of survey or patent pursuant thereto shall be issued to me either individually, or as trustee for the said Ella J. Richardson; and that the said land may remain in the same state as if my said application as aforesaid had not been made.

In witness whereof I have hereunto set my hand and seal this 10th day of May, A. D. 1900.

R. A. PHILLIPS. (Seal.)

Allegheny County, ss:

Before me, a notary public in and for said county, personally came R. A. Phillips, and in due form of law, acknowledged the foregoing disclaimer to be his act and deed, and desired the same to be recorded as such.

Witness my hand and notarial seal this 10th day of May, 1900.

W. T. TREDWAY, (Seal.)

Notary Public.

In the case of the caveat of Dr. S. D. Jennings a disclaimer was filed by the applicant, R. A. Phillips, as to any intention to include in his warrant the land claimed by the said Dr. S. D. Jennings. The disclaimer reads as follows:

I, R. A. Phillips, applicant for letters patent upon a certain tract of land situate in the county of Allegheny, and State of Pennsylvania, known as the back channel of the Ohio river, having made said application in the interest of, and as trustee for, all of the property holders owning land abutting lands applied for, in consideration of the withdrawal of the caveat filed by N. W. Shafer, Esq., attorney for Dr. S. D. Jennings, of the borough of Coraopolis, do hereby disclaim any right to the issuance of a warrant, or of the granting of letters patent upon the land immediately in front of the property of said Dr. S. D. Jennings, and do hereby agree that the land immediately in front of the land of the said Dr. S. D. Jennings, shall be excepted from and out of the lands described in the said application, to the end that no warrant of survey, or patent pursuant thereto, shall be issued to me either individually, or as a trustee for the said Dr. S. D. Jennings; and that the said land may remain in the same state as if my said application as aforesaid had not been made.

In witness whereof I have hereunto set my hand and seal this 10th day of May, A. D. 1900.

R. A. PHILLIPS. (Seal.)

Allegheny County, ss:

Before me, a notary public in and for the said county, personally came R. A. Phillips, and in due form of law, acknowledged the foregoing disclaimer to be his act and deed, and desired the same to be recorded as such.

Witness my hand and notarial seal this 10th day of May, 1900.

W. T. TREDWAY, (Seal.)

Notary Public.

In the case of the caveat of George W. Meanor, a disclaimer was filed by the applicant, R. A. Phillips, as to any intention to include in his warrant the land claimed by the said George W. Meanor. The disclaimer reads as follows:

I, R. A. Phillips, applicant for letters patent upon a certain tract of land situate in the county of Allegheny, and State of Pennsylvania, known as the back channel of the Ohio river, having made said application in the interest of, and as trustee for, all of the property holders owning land abutting lands applied for, in consideration of the withdrawal of the caveat filed by N. W. Shafer, Esq., attorney for George W. Meanor, of the borough of Coraopolis, do hereby disclaim any right to the issuance of a warrant, or of the granting of letters patent upon the land immediately in front of the property of said George W. Meanor, and do hereby agree that the land immediately in front of the land of the said George W. Meanor shall be excepted from and out of the lands described in the said application, to the end that no warrant of survey, or patent pursuant thereto, shall be issued to me either individually, or as a trustee for the said George Meanor; and that the said land may

remain in the same state as if my said application as aforesaid had not been made.

In witness whereof I have hereunto set my hand and seal this 10th day of May, A. D. 1900.

R. A. PHILLIPS. (Seal.)

Allegheny County, ss:

Before me, a notary public in and for said county, personally came R. A. Phillips, and in due form of law, acknowledged the foregoing disclaimer to be his act and deed, and desired the same to be recorded as such.

Witness my hand and notarial seal this 10th day of May, 1900.

W. T. TREDWAY, (Seal.)
Notary Public.

In the case of the caveat of R. B. Kendall, a disclaimer was filed by the applicant, R. A. Phillips, as to any intention to include in his warrant the land claimed by the said R. B. Kendall. The disclaimer reads as follows:

I, R. A. Phillips, applicant for letters patent upon a certain tract of land situate in the county of Allegheny, and State of Pennsylvania, known as the back channel of the Ohio river, having made said application in the interest of, and as trustee for, all of the property holders owning land abutting lands applied for, in consideration of the withdrawal of the caveat filed by N. W. Shafer, Esq., attorney for R. B. Kendall, of the borough of Coraopolis, do hereby disclaim any right to the issuance of a warrant, or of the granting of letters patent upon the land immediately in front of the property of said R. B. Kendall, and do hereby agree that the land immediately in front of the land of the said R. B. Kendall shall be excepted from and out of the lands described in the said application, to the end that no warrant of survey, or patent pursuant thereto, shall be issued to me either individually, or as a trustee for the said R. B. Kendall; and that the said land may remain in the same state as if my said application as aforesaid had not been made.

In witness whereof I have hereunto set my hand and seal this 10th day of May, A. D. 1900.

R. A. PHILLIPS. (Seal.)

Allegheny County, ss:

Before me, a notary public in and for said county, personally came R. A. Phillips, and in due form of law, acknowledged the foregoing disclaimer to be his act and deed, and desired the same to be recorded as such.

Witness my hand and notarial seal this 10th day of May, 1900.

W. T. TREDWAY, (Seal.)
Notary Public.

In the case of the caveat of John Watson, a disclaimer was filed by the applicant, R. A. Phillips, as to any intention to include in his warrant the land claimed by the said John Watson. The disclaimer reads as follows:

I, R. A. Phillips, applicant for letters patent upon a certain tract of land situate in the county of Allegheny, and State of Pennsylvania, known as the back channel of the Ohio river, having made said application in the interest

of, and as trustee for, all of the property holders owning land abutting lands applied for, in consideration of the withdrawal of the caveat filed by N. W. Shafer, Esq., attorney for John Watson, of the Borough of Corapolis, do hereby disclaim any right to the issuance of a warrant, or of the granting of letters patent upon the land immediately in front of the property of said John Watson, and do hereby agree that the land immediately in front of the land of the said John Watson shall be excepted from and out of the lands described in the said application, to the end that no warrant of survey, or patent pursuant thereto, shall be issued to me either individually, or as a trustee for the said John Watson; and that said land may remain in the same state as if my said application as aforesaid had not been made.

In witness whereof I have hereunto set my hand and seal this 10th day of May, A. D. 1900.

R. A. PHILLIPS. (Seal.)

Allegheny County, ss:

Before me, a notary public in and for said county, personally came R. A. Phillips, and in due form of law, acknowledged the foregoing disclaimer to be his act and deed, and desired the same to be recorded as such.

Witness my hand and notarial seal this 10th day of May, 1900.

W. T. TREDWAY, (Seal.)

Notary Public.

In the case of the caveat of Elizabeth M. Phillips, a disclaimer was filed by the applicant, R. A. Phillips, as to any intention to include in his warrant the land claimed by the said Elizabeth M. Phillips. The disclaimer reads as follows:

I, R. A. Phillips, applicant for letters patent upon a certain tract of land situate in the county of Allegheny, and State of Pennsylvania, known as the back channel of the Ohio river, having made said application in the interest of, and as trustee for, all of the property holders owning land abutting lands applied for, in consideration of the withdrawal of the caveat filed by N. W. Shafer, Esq., attorney for Elizabeth M. Phillips, of the borough of Corapolis, do hereby disclaim any right in the issuance of a warrant, or of the granting of letters patent upon the land immediately in front of the property of said Elizabeth M. Phillips, and do hereby agree that the land immediately in front of the land of said Elizabeth M. Phillips shall be excepted from and out of the lands described in the said application, to the end that no warrant of survey, or patent pursuant thereto, shall be issued to me either individually, or as a trustee for the said Elizabeth M. Phillips; and that the said land may remain in the same state as if my said application as aforesaid had not been made.

In witness whereof I have hereunto set my hand and seal this 10th day of May, A. D. 1900.

R. A. PHILLIPS. (Seal.)

Allegheny County, ss:

Before me, a notary public in and for the said county, personally came R. A. Phillips, and in due form of law, acknowledged the foregoing disclaimer to be his act and deed, and desired the same to be recorded as such.

Witness my hand and notarial seal this 10th day of May, 1900.

W. T. TREDWAY, (Seal.)

Notary Public.

In the case of the caveat of S. J. and Mary J. Dugan, a disclaimer was filed by the applicant, R. A. Phillips, as to any intention to include in his warrant the land claimed by the said S. J. and Mary J. Dugan. The disclaimer reads as follows:

I, R. A. Phillips, applicant for letters patent upon a certain tract of land situate in the county of Allegheny, and State of Pennsylvania, known as the back channel of the Ohio river, having made said application in the interest of, and as trustee for, all of the property holders owning land abutting lands applied for, in consideration of the withdrawal of the caveat filed by N. W. Shafer, Esq., attorney for S. J. and Mary J. Dugan, of the borough of Coraopolis, do hereby disclaim any right to the issuance of a warrant, or of the granting of letter patent upon the land immediately in front of the property of said S. J. and Mary J. Dugan, and do hereby agree that the land immediately in front of the land of the said S. J. and Mary J. Dugan shall be excepted from and out of the lands described in the said application, to the end that no warrant of survey or patent pursuant thereto, shall be issued to me either individually, or as a trustee for the said S. J. and Mary J. Dugan; and that said land may remain in the same state as if my said application as aforesaid had not been made.

In witness whereof I have hereunto set my hand and seal this 10th day of May, A. D. 1900.

R. A. PHILLIPS. (Seal.)

Allegheny County, ss:

Before me, a notary public in and for said county, personally came R. A. Phillips, and in due form of law, acknowledged the foregoing disclaimer to be his act and deed, and desired the same to be recorded as such.

Witness my hand and notarial seal this 10th day of May, 1900.

W. T. TREDWAY, (Seal.)

Notary Public.

In the case of the caveat of William Byrne and others, a disclaimer was filed by the applicant, R. A. Phillips, as to any intention to include in his warrant the land claimed by the said William Byrne and others. This disclaimer was not filed, however, until after the consideration of these cases by the Board of Property December 4, 1900. The date of filing was January 15, 1901. It reads as follows:

To the Honorable James W. Latta, Secretary of Internal Affairs, Harrisburg, Penna.:

Whereas, On January 11, 1900, R. A. Phillips signed and forwarded to your Department his application, now on file therein, for a warrant to survey a certain tract of land, therein more fully described, containing four hundred and twenty acres (420), more or less, situate in the county of Allegheny, State of Pennsylvania, and known as the back channel of the Ohio river; and

Whereas, Contemporaneous therewith, he made and executed a declaration of trust on behalf of all the riparian owners owning property abutting the land applied for; and

Whereas, Margaret Byrne, Eleanor Depp and William Byrne, of Robinson township, county of Allegheny, and State of Pennsylvania, subsequent thereto, to wit, on or about the twenty-fifth day of April, 1900, filed in your said

office a caveat against the granting of a warrant to survey or a patent upon that portion of said back channel of the Ohio river fronting and abutting along the properties of Margaret Byrne, Eleanor Depp and William Byrne, in said Robinson township, and bounded and described as follows:

Beginning at the south side of said back channel of said Ohio river, at low water mark on the division line between* the Robert Phillips', formerly David Gibson property, and property of Margaret Byrne; thence along said low water mark north fifty-six (56) degrees west; thirty-three and fifty hundredths (33.50) perches to a point; thence along said low water mark north sixty-one (61) degrees west, fifty-seven (57) perches to land of Eleanor Depp; thence along said low water mark north sixty-two (62) degrees and thirty (30) minutes west, forty-five and eighty hundredths (45.80) perches to land of William Byrne; thence along said low water mark north sixty-six (66) degrees west, thirty-seven (37) perches to a point; thence extending out into said channel north twenty-seven (27) degrees and thirty (30) minutes east, two hundred (200) feet, more or less, to the center of said back channel thence southeastwardly by lines parallel with the said low water mark of the southern shore of said channel, a distance of one hundred and seventy-four (174) perches, more or less, to the Verner line aforesaid, extended thence south thirty-three (33) degrees west, along said Verner line extended, two hundred (200) feet, more or less, to the place of beginning, containing thirteen (13) acres, more or less.

They being at that time and still riparian owners, who preferred to take out their own separate patent upon the above described tract of land;

Now, therefore, In consideration of the premises, as well as the sum of one dollar (\$1.00), to me in hand paid, the receipt of which is hereby acknowledged, I, R. A. Phillips, do hereby disclaim any right or interest, either individually or as trustee as aforesaid, in the above described land covered by and sought to be protected by the caveat of the said Margaret Byrne, Eleanor Depp and William Byrne, as therein and hereinbefore described, to the end that in the warrant of survey, as well as in the patent to be issued to me under my said application, the land so described in the said caveat, and as hereinbefore described, shall be excepted therefrom the same as if they had not been included in my said application and the same as if they had been excepted from the original application by me made.

In witness whereof I have hereunto set my hand and seal this seventh (7) day of January, A. D. 1901.

R. A. PHILLIPS. (Seal.)

Attest:

W. T. TREDWAY.

N. W. Shaffer, attorney at law, Pittsburg, also filed a paper as representing George W. Meanor, Elizabeth J. Richardson, S. J. and Mary J. Dugan, Elizabeth M. Phillips, S. D. Jennings, R. B. Kendall and John Watson, withdrawing the caveats filed by his clients in consideration of the filing by R. A. Phillips of the disclaimers above referred to. The paper filed by Mr. Shaffer reads as follows:

I, N. W. Shafer, attorney for Joseph Waters, of the township of Neville, and for George N. Meanor, Ella J. Richardson, S. J. and Mary J. Dugan, Elizabeth N. Phillips, Dr. S. D. Jennings, R. B. Kendall and John Watson, all owners of property in the borough of Coraopolis, county of Allegheny, and State of Pennsylvania, in consideration of the disclaimers this day executed

by R. A. Phillips, applicant for a warrant to survey, and letters patent pursuant thereto, upon a certain tract of land, situate in the county of Allegheny, in the said State of Pennsylvania, and known as the back channel of the Ohio river, do in consideration of the said disclaimers to the lands immediately in front of the property owned by my said clients, as therein described, hereby withdraw all caveats by me heretofore filed against the said application of R. A. Phillips, to the end that the said warrant to survey, and the patent pursuant thereto, may be issued to the said R. A. Phillips, with like effect as if none of said caveats had been filed by me, or my clients, against the granting of the said warrant to survey and the patent pursuant thereto, with the understanding that the lands in front of lands of my said clients be excepted out of said warrant and patent as by said disclaimers provided.

N. W. SHAFER.

Pittsburg, May 10, 1900.

The application of S. D. Robinson and T. J. Gillespie against which caveats were filed by D. J. Kyle and others, as hereinbefore appears, were disposed of by the Board of Property on the 4th of December, 1900, without the issuance of citations, on the agreement of counsel.

Several notices were filed in the Department by abutting property owners along the back channel of the Ohio river, giving notice under the act of 1897, of their intention to avail themselves of the rights secured to them under said act. On the 7th day of March, 1900, a notice of this kind was filed by Robert H. Hamilton. The notice reads as follows:

In re-application of R. A. Phillips for warrant to survey a tract of unimproved land in Allegheny county, Pa., containing 420 acres, more or less, known as the back channel of the Ohio river, under and pursuant to the provisions of the act of Assembly of Assembly of the Commonwealth of Pennsylvania, approved July 15, 1897.

To Hon. James W. Latta, Secretary of Internal Affairs, Harrisburg, Pa.:

Notice is hereby given that the undersigned, Robert H. Hamilton, is the owner in fee of all that certain lot or tract of land situate in Neville township, Allegheny county, and State of Pennsylvania, and bounded and described as follows, to wit:

Beginning at low water mark on the front of main channel of the Ohio river at line of school house lot; thence by line of said lot and lands of Rev. James Kirk south $27\frac{1}{4}$ degrees west eighty-eight and 88-100 (88.88 p.) perches to the back river (or south channel); thence north $63\frac{3}{4}$ degrees west eighteen (18) perches to line of lands (now or formerly) of Josiah Cornelius; thence north $27\frac{1}{4}$ degrees, east eighty-eight and 88-100 (88.88 p.) perches to low water mark on front or main channel of the Ohio river; and thence along said low water mark south $62\frac{3}{4}$ degrees, east eight (18) perches to the place of beginning. Containing ten (10) acres.

Being the same, the title to which became vested in the undersigned, Robert H. Hamilton, by two several deeds as recorded in the recorder's office of Allegheny county, Pa., in Deed Book, Vol. 412, page 345, and Vol. 451, page 679, respectively.

That said above described tract of land is so situated that the lands for which said R. A. Phillips has filed his application for a warrant, adjoin and lie between the tract above described, of which the undersigned is owner, and the navigable portion of the back or south channel of the Ohio river.

That the undersigned, Robert H. Hamilton, intends to exercise his first right to purchase the portion of land lying between his said land and the navigable portion of said back channel of the Ohio river, and accept letters patent therefor and pay into the office of the Secretary of Internal Affairs the amount of the purchase money therefor, as also the fees and costs of such proceedings in accordance with the provisions of the act of Assembly of the Commonwealth of Pennsylvania, approved the 15th day of July, A. D. 1897.

The portion of land for which the undersigned, Robert H. Hamilton, hereby gives notice of his intention to accept letters patent is included in the 420 acres, more or less, for which R. A. Phillips has applied and adjoins the southerly end of the above described tract belonging to the undersigned, and extends from the patent line of land heretofore patented southwardly of the uniform width of eighteen (18) perches, more or less, between the easterly and westerly boundary lines of the above described tract extended so as to reach from said old patent line at or near the southerly end of said Hamilton's land, to the navigable portion of the said back or south channel of the Ohio river.

This notice is given in pursuance of and to comply with the act of Assembly so as aforesaid approved the 15th day of July, A. D. 1897.

ROBERT H. HAMILTON.

March 6, 1900.

On the 12th day of March, 1900, a similar notice was filed by Mary Hamilton, widow and relict of Abraham Hamilton, and others. The notice reads as follows:

In re-application of R. A. Phillips }
for warrant to survey a tract of unim- }
proved land in Allegheny county, Pa., }
containing 420 acres, more or less, }
known as the back channel of the Ohio }
river, under and pursuant to the pro- }
visions of the act of Assembly of the }
Commonwealth of Pennsylvania, ap- }
proved July 15, 1897. }

To James W. Latta, Esq., Secretary of Internal Affairs, Harrisburg, Pa.:

Notice is hereby given that we, the undersigned, Mary Hamilton (widow and relict of Archibald Hamilton, deceased), H. T. Hamilton, Matthew M. Hamilton, Robert H. Hamilton, Nancy Hamilton (widow of David Hamilton, deceased), Burt Hamilton, William H. McGary, Ada McGary, Sallie McGary and Eugene McGary, are the owners in fee and in unequal and undivided interests of all that certain tract of land situate on Neville island, in Neville township, Allegheny county, Pennsylvania, containing fifty acres, more or less, extending from the north or main channel of the Ohio river on the north side to the south or back channel of the Ohio river on the south, and bounded on the east by lands of Henry Eckert and on the west by lands of Smith's heirs.

Being the same the title to which became vested in the undersigned by the following:

1st. By will of Archibald Hamilton as recorded in the register's office of Allegheny county, Pa., in Will Book, Vol., 15, page 1, wherein and whereby testator devised and bequeathed said land to his sons Harry Hamilton, H. T. Hamilton, John S. Hamilton and M. M. Hamilton.

2nd. The said Harry Hamilton died in his minority about the year 1873, unmarried, intestate and without issue, leaving as his heirs at law brothers, H. T. Hamilton, David Hamilton, M. M. Hamilton, Robert H. Hamilton and John S. Hamilton, and a sister, Nancy McGary.

3rd. The said John S. Hamilton died about the year 1881 unmarried, intestate, and without issue, leaving as his heirs at law brothers, H. T. Hamilton, David Hamilton, M. M. Hamilton and R. H. Hamilton, and a sister, Nancy McGary.

4th. The said Nancy McGary died about the year 1885, intestate, leaving as her heirs at law a husband, Wm. H. McGary, and children, Ada, Sallie and Eugene.

5th. The said David Hamilton died about the year 1886, intestate, leaving as his heirs at law a widow, Nancy Hamilton, and one child, a son, Burt Hamilton.

That said above described tract of land is so situated that the lands for which said R. A. Phillips has filed his application for a warrant, adjoin and lie between the tract above described of which the undersigned are owners and the navigable portion of the back or south channel of the Ohio river.

That the undersigned, Mary Hamilton, H. T. Hamilton, Matthew M. Hamilton, Robert H. Hamilton, Nancy Hamilton, Burt Hamilton William H. McGary, Ada McGary, Sallie McGary and Eugene McGary intend to exercise their first right according to their respective interests, to purchase the portion of land lying between their said land and the navigable portion of the said back channel of the Ohio river, and accept letters patent therefor and pay into the office of the Secretary of Internal Affairs the amount of the purchase money therefor, as also the fees and costs of such proceeding in accordance with the provisions of the act of Assembly of the Commonwealth of Pennsylvania approved the 15th day of July, A. D. 1897.

The portion of land for which the undersigned give notice of their intention to accept letters patent is included in the 420 acres, more or less, for which R. A. Phillips has applied and adjoins the southerly end of the above described tract belonging to the undersigned, and extends from the patent line of land heretofore patented southwardly, between the easterly and westerly boundary lines of the above described tract extended so as to reach from said old patent line, at or near the southerly end of said tract to the navigable portion of the said back or south channel of the Ohio river.

This notice is given in pursuance of and to comply with the act of assembly so as aforesaid approved the 15th day of July, A. D. 1897.

MARY HAMILTON,
H. T. HAMILTON,
MATTHEW M. HAMILTON,
ROBERT H. HAMILTON,
NANCY HAMILTON,
BURT HAMILTON,
WM. H. MCGARY,
ADA MCGARY,
SALLIE MCGARY,
EUGENE MCGARY,

By Donaldson Bros., and W. H. McGary, their Attorneys,

On the 15th day of January, 1901, after the determination of the contentions between Samuel D. Robison, Thomas Gillespie, R. A. Phillips, D. J. Kyle and others, a paper was filed withdrawing the notice of the parties named in the foregoing paper to avail themselves of the right to acquire title from the Commonwealth under the act of 1897. The paper reads as follows:

Pittsburg, December 27, 1900.

Hon. James W. Latta, Secretary of Internal Affairs, Harrisburg, Pa.:

Dear Sir: Whereas, on March , 1900, we, as counsel for Mary Hamilton, widow and relict of Archibald Hamilton, and Matthew M. Hamilton, Robert H. Hamilton, Nancy Hamilton, Burt Hamilton, William McGary, Ada McGary, Sallie McGary and Eugene McGary, heirs at law of said Archibald Hamilton, filed in your office a notice on their behalf of an election to take that part of the back channel of the Ohio river, embraced in the application of R. A. Phillips, lying in front of their fifty acres of land, situate in the township of Neville, county of Allegheny, and State of Pennsylvania, and

Whereas, At the time of filing of said notice we and our clients were in ignorance of the fact that R. A. Phillips had made and executed a declaration of trust in behalf of all of the abutting property holders on said back channel of the Ohio river, agreeing to convey to each and all his proper proportion of the land embraced in the said back channel upon payment to him of his proper expenses in procuring a patent thereon.

Now, therefore, in consideration of the said agreement to convey, a copy of which will be filed in the Department of Internal Affairs of the State of Pennsylvania herewith, and in consideration of the premises, we do hereby revoke and withdraw the said notice to the end that the warrant to survey and the patent pursuant thereto may issue to the said R. A. Phillips for the land covered by said notice along with the other land in the back channel of the Ohio river, the same as if such notice had not been given.

Yours respectfully,

Donaldson Bros. and Wm. H. McGary, Attorneys for
MARY HAMILTON,
H. T. HAMILTON,
MATTHEW M. HAMILTON,
ROBERT H. HAMILTON,
NANCY HAMILTON,
BURT HAMILTON,
WM. H. MCGARY,
ADA MCGARY,
SALLIE MCGARY,
EUGENE MCGARY.

On the 12th day of March, 1900, a notice was filed by Elizabeth Whitaker, who claimed to be an abutting land owner along the back channel of the Ohio river, and who claimed her right under the act of 1897 to receive title from the Commonwealth for the land

opposite the land already owned by her on the said back channel of the Ohio river. The notice reads as follows:

In re-application of R. A. Phillips for warrant to survey a tract of unimproved land in Allegheny county, Pa., containing 420 acres, more or less, known as the back channel of the Ohio river, under and pursuant to the provisions of the act of Assembly of the Commonwealth of Pennsylvania, approved July 15, 1897.

To James W. Latta, Esq., Secretary of Internal Affairs, Harrisburg, Pa.:

Notice is hereby given that the undersigned, Elizabeth Whitaker, is the owner in fee, of all that certain piece of ground situate in the township of Neville, Allegheny county, Pennsylvania, described as follows, viz:

Beginning at the Ohio river at the corner of land of E. Whitaker, thence south $62\frac{1}{2}$ degrees east, eight and 51-100 perches up the river to a point; thence along the line of land of (now or formerly) Josiah Cornelius, south $25\frac{1}{2}$ degrees, west ninety-four perches to the back river; thence down the back river north $62\frac{1}{2}$ degrees, west eight and 51-100 perches to a point in the corner of lands of H. Eckert; thence north $25\frac{1}{2}$ degrees, east ninety-four perches to the Ohio river, the place of beginning; the said piece of ground in shape a parallelogram and containing five acres. Being the same the title to which became vested in the undersigned Elizabeth Whitaker be deed as recorded in the recorder's office in and for the county of Allegheny, in Deed Book, Vol. 249, page 355.

That said above described tract of land is so situated that the lands for which said R. A. Phillips has filed his application for a warrant, adjoin and lie between the tract above described, of which the undersigned is owner, and the navigable portion of the back or south channel of the Ohio river.

That the undersigned, Elizabeth Whitaker, intends to exercise her first right to purchase the portion of land lying between her said land and the navigable portion of said back channel of the Ohio river, and accept letters patent for and pay into the office of the Secretary of Internal Affairs the amount of the purchase money therefor, as also the fees and costs of such proceeding in accordance with the provisions of the act of Assembly of the Commonwealth of Pennsylvania approved the 15th day of July, A. D. 1897.

The portions of land for which the undersigned, Elizabeth Whitaker, hereby gives notice of her intention to accept letters patent is included in the 420 acres, more or less, for which R. A. Phillips has applied and adjoins the southerly end of the above described tract belonging to the undersigned, and extends from the patent line of land heretofore patented southwardly between the easterly and westerly boundary lines of the above described tract extended so as to reach from said old patent line at or near the southerly end of said tract to the navigable portion of the said back or south channel of the Ohio river.

This notice is given in pursuance of and to comply with the act of Assembly so as aforesaid approved the 15th day of July, A. D. 1897.

ELIZABETH WHITAKER.

By Donaldson Bros., her Attorneys.

On the 15th of January, 1901, a paper was filed by Elizabeth Whitaker withdrawing notice of her intention to apply for the land referred to in the last notice. The following is a copy of the paper:

Pittsburg, December 27, 1900.

Hon. James W. Latta, Secretary of Internal Affairs, Harrisburg, Pa.:

Dear Sir: Whereas, On March , 1900, we, as counsel for Elizabeth Whitaker, filed in your office a notice in her behalf, electing to take that part of the back channel of the Ohio river immediately in front of Elizabeth Whitaker's five acres of land, situate in the township of Neville, county of Allegheny, and State of Pennsylvania, embraced in the application of R. A. Phillips, and

Whereas, Since said date said Elizabeth Whitaker has conveyed all her frontage on said back channel to the American Land Company, who, by an agreement with R. A. Phillips, is to take title through the said R. A. Phillips for the land in front of the said Whitaker tract.

Now, therefore, in consideration of the premises, we do hereby revoke and withdraw the notice so given to the end that the land in front of the land formerly owned by Elizabeth Whitaker as aforesaid, embraced in the said application of said R. A. Phillips, may issue to the said R. A. Phillips the same as if such notice had not been given.

Yours respectfully,

DONALDSON BROS.,
Attorneys for Elizabeth Whitaker.

On the 12th of March, 1900, a paper was filed by Henry Eckert, giving notice of his intention to avail himself of the right secured under the act of 1897, to apply to the Commonwealth and receive title for the land in the back channel of the Ohio river opposite the land already owned by him. The paper reads as follows:

In re-application of R. A. Phillips for
warrant to survey a tract of unim-
proved land in Allegheny county, Pa.,
containing 420 acres, more or less,
known as back channel of the Ohio
river, under and pursuant to the pro-
visions of the act of Assembly of
the Commonwealth of Pennsylvania,
approved July 15, 1897.

To James W. Latta, Esq., Secretary of Internal Affairs, Harrisburg, Pa.:

Notice is hereby given that the undersigned, Henry Eckert, is the owner in fee of all that certain tract of land situate, lying and being in Neville township, county of Allegheny, and State of Pennsylvania, bounded and described as follows, to wit:

Beginning on the south part or back of Montours (or Neville) island, at a pin on the southern branch of the Ohio river as it flows around said island; thence along the said river north $64\frac{1}{2}$ degrees, west forty-one and 7-10 perches to a pin; thence north 23 degrees, east one hundred perches to the north branch of said Ohio river; thence south $56\frac{3}{4}$ degrees, east thirty-five and 3-10 perches to a pin along the back of said river; thence south $24\frac{1}{2}$ degrees, west sixty-nine perches to a pin; thence south $24\frac{1}{2}$ degrees, east ten and 2-10 perches

to a pin; thence south $24\frac{1}{2}$ degrees, west twenty-seven and 5-10 perches to a pin on the back of the south branch of said Ohio river at the place of beginning; containing twenty-one acres and thirty-four perches, strict measure. Being the same the title to which became vested in the undersigned Henry Eckert by deed as recorded in the recorder's office in and for the county of Allegheny, in Deed Book, Vol. 132, page 235.

That said above described tract is so situated that the lands for which said R. A. Phillips has filed his application for a warrant, adjoin and lie between the tract above described, of which the undersigned is owner, and the navigable portion of the back or south channel of the Ohio river.

That the undersigned, Henry Eckert, intends to exercise his first right to purchase the portion of land lying between his said land and the navigable portion of said back channel of the Ohio river, and accept letters patent therefor and pay into the office of the Secretary of Internal Affairs the amount of the purchase money therefor, as also the fees and costs of such proceeding in accordance with the provisions of the act of Assembly of the Commonwealth of Pennsylvania approved the 15th day of July, A. D. 1897.

The portion of land for which the undersigned, Henry Eckert, hereby gives notice of his intention to accept letters patent is included in the 420 acres, more or less, for which R. A. Phillips has applied, and adjoins the southerly end of the above described tract belonging to the undersigned, and extends from the patent line of land heretofore patented southwardly between the easterly and westerly boundary lines of the above described tract extended so as to reach from said old patent line, at or near the southerly end of said tract, to the navigable portion of the said back or south channel of the Ohio river.

This notice is given in pursuance of and to comply with the act of Assembly so as aforesaid approved the 15th day of July, A. D. 1897.

HENRY ECKERT,
By Donaldson Bros., his Attorneys.

On the 15th of January, 1901, a paper was filed by Henry Eckert, withdrawing his notice in which he declared his purpose of acquiring title from the Commonwealth under the act of 1897. The paper reads as follows:

Pittsburg, December 27, 1900.

Hon. James W. Latta, Secretary of Internal Affairs, Harrisburg, Pa.:

Dear Sir: Whereas, On March , 1900, we, as counsel for Henry Eckert, filed in your office a notice to take the land embraced in the application of R. A. Phillips for the back channel of the Ohio river, lying in front of the twenty acres of land of Henry Eckert, situate in the township of Neville, county of Allegheny, and State of Pennsylvania, for and on behalf of the said Henry Eckert and abutting property holders upon said back channel, and

Whereas, At that time it was unknown to us or our clients that R. A. Phillips had executed a declaration of trust in behalf of all of the abutting property holders to convey upon the abutting property holders' paying their proportionate share of the expense of procuring patent upon their respective shares of the back channel.

Now therefore, in consideration of the premises, and of said Phillips' agreement to convey as aforesaid, a copy of the declaration of trust for which is to be filed herewith in your Department, we do hereby revoke and withdraw any and all notices by us so given for or on behalf of the said Henry Eckert to the end that the warrant for survey and patent pursuant thereto may

issue to the said R. A. Phillips the same as if such notice had not been given, so as to embrace the land in front of the land of said Henry Eckert in the warrant to survey and in the patent issued to R. A. Phillips along with that of other abutting property holders on said back channel.

Yours respectfully,

DONALDSON BROS.,
Attorneys for Henry Eckert.

At the time of the hearing before the Board of Property the attorneys for R. A. Phillips gave notice that should a warrant be granted in pursuance of the application of the said R. A. Phillips, it would be understood to be in trust for the abutting property owners along the back channel of the Ohio river, and that in case a warrant was granted, the said R. A. Phillips would convey by deed to each property holder owning land abutting on said back channel his proportionate share of the land included in said application. On the 15th day of January, 1900, a formal declaration of trust was filed. The declaration reads as follows:

KNOW ALL MEN BY THESE PRESENTS.

That whereas, I, R. A. Phillips, of the township of Neville, county of Allegheny, and State of Pennsylvania, did on the eleventh day of January, A. D. 1900, sign and forward to the Secretary of Internal Affairs of the Commonwealth of Pennsylvania, an application pursuant to the act of Assembly of July 15, 1897, for letters patent upon certain tract of land containing four hundred and twenty (420) acres, more or less, known as the back channel of the Ohio river, and

Whereas, Upon the said date, I did make, execute and deliver to my counsel, W. P. Potter, Esq., and W. T. Tredway, Esq., both members of the bar of Allegheny county, Pa., a declaration of trust to convey, in accordance with the said declaration of trust and its terms, to each property holder owning land abutting on said back channel, his proportionate share of the land included in the said application, measured by the lines of his property on the east and west of him, produced to the center line of the said back channel, and extending from the old patent line of said back channel, to the said center line of the said back channel of the Ohio river, and

Whereas, Pursuant to the said application, I paid to the Commonwealth of Pennsylvania, the purchase money for said 420 acres of land, and paid the caveat fees, patent fee and took all other steps necessary to be taken pursuant to the said act of Assembly, precedent to the issuance of a warrant to survey the said land, including a personal notice to each abutting property holder, and published notice as required by the act of Assembly aforesaid, proofs of each and all of which are on file in the Department of Internal Affairs at Harrisburg, and

Whereas, After a hearing upon the said application, and caveats filed thereto by Kyle et al., former applicants for said lands under the act of 1874, and after hearing upon the application of Kyle et al. upon the caveats filed by me, through my said counsel, W. P. Potter and W. T. Tredway, all held May 17, 1900, and argument then duly had before the Board of Property, and

Whereas, After the said arguments, the matter was held under advisement by the Board of Property and time given to file additional briefs, when the matter finally came on for hearing at the regular meeting of the Board of Prop-

erty on the day of November, 1900, when owing to the illness of D. F. Patterson, the matter was again continued to Tuesday, December 4, 1900, for final argument and determination, and

Whereas, After full argument and hearing in the matter, the Board of Property decided in favor of the said application of R. A. Phillips, individually as to such property as he owned upon the said back channel, and as trustee, for the interests of all other abutting property holders upon said back channel, included in the said application of R. A. Phillips for which a warrant to survey may properly issue to the said R. A. Phillips.

Now therefore, In consideration of the premises, and in consideration of the payments to me by each abutting property holder upon the said back channel, of his proportionate share of the fees, costs and expenses of myself and counsel in the said proceeding, in accordance with the said act of Assembly, and the declaration of trust so executed, January 11, 1900, and in the possession of my counsel, as aforesaid, for exhibition to the said abutting property holders, I, R. A. Phillips, do hereby acknowledge and declare that in the said application of survey, the warrant for survey to be issued pursuant thereto, as well as in the patent that may, or shall be issued to me for said lands, I am acting for myself as to that portion of the land applied for immediately in front of the land owned by me in the township of Neville, abutting said back channel, and that as to all other property I am acting and shall hold the land as trustee for the abutting property holders, and hereby agree to convey to each and every of the said abutting property holders, his executors, administrators or assigns, his proportionate share of the lands for which said warrant shall issue and patent be granted to me, upon his payment to me of his proportionate share of the fees, costs and expenses, in accordance with the said declaration of trust, by deed of special warranty.

In testimony whereof I have hereunto set my hand and seal this 19th day of December, A. D. 1900.

R. A. PHILLIPS. (Seal.)

Attest:

ALBERT P. MEYER.

Commonwealth of Pennsylvania, } ss:
County of Allegheny. }

Before me, a notary public in and for said county and State, personally appeared R. A. Phillips, and in due form of law, acknowledged the foregoing declaration of trust to be his act and deed for the purposes therein set forth and desired the same to be recorded as such.

Witness my hand and notarial seal this 20th day of December, A. D. 1900.

ALBERT P. MEYER,
Notary Public.

Under the act of 1897 (Pamphlet Laws, page 301) provision is made for giving notice to abutting property owners that they may signify their intention to apply for warrants and patents, if they so desire. The applicant, R. A. Phillips, filed proofs of such notice February 28, 1900. The proofs read as follows:

Notice is hereby given that an application has been filed in the office of the Secretary of Internal Affairs of the State of Pennsylvania, under and pursuant to the provisions of the act of Assembly of the Commonwealth of Pennsylvania, approved July 15, 1897, for a warrant to survey a tract of unimproved land containing 420 acres, more or less, known as the back channel

of the Ohio river, a particular description of which is as follows: Beginning at a point in Stowe township on the southerly shore of the Ohio river, where the Davis island dam intersects said shore; thence northwardly along the westerly line of said dam to a point on the southerly shore of Davis island; thence westwardly along the southerly shore of Davis island to a point at the lower extremity of said island; thence eastwardly along the northerly shore of said island to a point at the end of the main dam on the northerly shore of said Davis island; thence westwardly, and nearly parallel with the north shore of the Ohio river, to a point at the head of Neville island, where the said line touches the easterly line of the original patent on that portion of Neville island; thence westwardly, and following the line of the land on Neville island, and along the southerly line, or lines, of the patents already issued for lands on said Neville island, and nearly parallel with the southerly bank of said Neville island, which constitutes Neville township, to a point at the lower extremity of Neville island or township; thence by a straight line westwardly down the Ohio river to a point one hundred and fifty feet from the original patent line of lands on the south bank of the Ohio river, and in direct continuation of the westerly line of the borough of Coraopolis, prolonged northwardly; thence southwardly to the original patent line of lands on the bank of the Ohio river, at the westerly boundary of the borough of Coraopolis; and thence eastwardly, following the northwardly patent line of the lands, as heretofore patented, in the borough of Corapolis, and the northerly patent lines of the lands, as patented in the townships of Robison and Stowe, being nearly parallel with the south bank of the Ohio river, to the place of beginning.

R. A. Phillips being by me duly sworn according to law, deposes and says that he is the applicant for letters patent upon the tract of land mentioned and described in the notice hereto attached, and made a part hereof. That he served or caused to be served, upon all owners of land touching the land mentioned in said application, in the townships of Stowe, Robinson and Neville, and in the borough of Coraopolis, in said county of Allegheny, written notice in the form, a copy of which is hereto attached and made a part hereof, between the 15th day of January and the 1st day of February, A. D. 1900, in accordance with the act of Assembly under which this application is made.

R. A. PHILLIPS.

Sworn and subscribed before me this 27th day of February, A. D. 1900.

ALBERT P. MEYER,

Notice is hereby given that an application has been filed in the office of the Secretary of Internal Affairs of the State of Pennsylvania, under and pursuant to the provisions of the act of Assembly of the Commonwealth of Pennsylvania approved July 15, 1897, for a warrant to survey a tract of unimproved land containing 420 acres, more or less, known as the back channel of the Ohio river, a particular description of which is as follows:

Beginning at a point in Stowe township on the southerly shore of the Ohio river, where the Davis island dam intersects said shore; thence northwardly along the westerly line of said dam to a point of the southerly shore of Davis island; thence westwardly along the southerly shore of Davis island to a point at the lower extremity of said island; thence eastwardly along the northerly shore of said Davis island, to a point at the end of the main dam on the northerly shore of said Davis island; thence westwardly, and nearly parallel with the north shore of the Ohio river, to a point at the head of Neville island, where the said line touches the easterly line of the original patent on that portion of Neville island; thence westwardly and following the line of the land on Neville island, and along the southerly line, or lines, of the patents already issued for lands on said Neville island and nearly parallel with the southerly bank of said Neville island, which constitutes Neville township, to a point at the lower extremity of Neville island or township; thence by a straight line westwardly down the Ohio river to a point one hundred and fifty feet from the original patent line of lands on the south bank of the Ohio river, and in direct continuation of the westerly line of the borough of Coraopolis, prolonged northwardly; thence southwardly to the original patent line of lands on the bank of the Ohio river, at the westerly boundary of the borough of Coraopolis; and thence eastwardly, following the northwardly patent line of the lands as heretofore patented, in the borough of Coraopolis, and the northerly patent lines of the lands, as patented in the townships of Robinson and Stowe, being nearly parallel with the south bank of the Ohio river, to the place of beginning.

R. A. PHILLIPS,
Coraopolis, Pa.

January 15, 1900.

In addition to the oral arguments made by the different parties to the contention before the Board of Property, printed briefs were submitted by counsel representing D. J. Kyle and others, R. A. Phillips and Samuel D. Robison and Thomas J. Gillespie. The briefs read as follows:

IN THE

Department of Internal Affairs

OF THE COMMONWEALTH OF PENNSYLVANIA.

In the matter of the application of D. J. Kyle, A. S. Hunter, G. H. Clapp and F. M. Love for letters patent on a tract of 400 acres, more or less, situate in the townships of Stowe, Neville and Robinson, in the county of Allegheny, in the State of Pennsylvania, known as the back channel of the Ohio river.

BEFORE THE BOARD OF PROPERTY.

Argument in Favor of Application.

I. In maintaining the right of Kyle, et al., to receive a patent on the lands in controversy, we shall proceed, in the first place, upon the theory that said lands were not made subject to warrant, survey and patent by any legislation prior to the act 156. July, 1897: P. L. 301.

1. That act make two kinds or descriptions of lands "subject to warrant, survey and patent by the Commonwealth at the same rate per acre, and, except as herein provided, in like manner as other public lands." The first consists of "unpatented lands lying within any part or portion of any navigable river, and which parts or portion of said river, by reason of any obstruction or otherwise, shall be incapable of use for purposes of navigation." This precisely describes the lands in dispute, which constitute the bed of the back channel between Neville island and the southerly shore of the Ohio river. All parties agree that, for more than three years prior to any of the applications involved in this controversy, the said channel was, and now is "incapable of use for purposes of navigation."

The second kind of lands made patentable by the act of 1897, consists of "unpatented strips or pieces of land lying between the navigable part or portion of any river and other unpatented lands, or lands which may be patented, and which shall have heretofore fronted or abutted upon such river." This was no doubt intended

to cover strips or pieces formed by accretions gathered along the shore, and which have the effect of pushing out the navigable channel further from the shore than it was before such firm strips were formed. Such accretions, when formed along such parts of the shore as have been patented, belong to the owners of such parts of the shore; so that, it is only such strips as have gathered along unpatented parts of the shore that were subject to patent under former laws, that are made patentable by the act of 1897 under the description of "strips or pieces." The accretions forming such strips simply become additions to shore lands that might have been patented under former laws, but which had never been patented. Nobody concerned in this controversy claims that the lands in dispute come within the meaning of the "strips or pieces of land" referred to in the act of 1897. So much with respect to the kind or character of lands made subject to warrant, survey and patent by the provisions of said act.

2. Such lands are made patentable "in like manner as other public lands," except in so far as the act of 1897 provides otherwise. Comparing the provisions of this act relating to the manner of patenting such lands as are therein described, with the provisions of previously existing laws relating to the manner of patenting "other public lands," it will be seen that substantially the only provision it contains, different from the provisions of the former laws, has relation to the notice the applicant is required to give to such owners of neighboring lands as are entitled to a preference under the act of 1897. The only notice of an application required by the act 14 April, 1874, and its supplement of 28 April, 1899 (See Br. Pur. Dig. 1197-98), is thirty days' notice by publication in a newspaper, while the act of 1897 requires written notice of any application for lands made patentable by its provisions, to be given to certain classes who are given a preference in the patenting of such lands. With this single exception the manner of patenting lands made patentable by the act of 1897, is the same as the manner of patenting "other public lands" as previously provided by law.

3. Who are entitled to receive the written notice provided by the act of 1897? Or who are given a preference in the patenting of lands made patentable by this act? This is a very important question in this case; and it is plainly and unmistakably answered by the express language of the act. They are not designated in the act as "abutting owners," either upon the channel that remains navigable, or on the channel that is "incapable of use for purposes of navigation." How are they described? They consist of "persons owning lands so situated that the lands for which such application shall be made adjoin and lie between the land of such owner or owners

and the navigable portion of any river." It seems too plain for rational disputation that "the navigable portion of any river," herein referred to, means the portion that continues to be navigable after another portion or channel has become "incapable of use for purposes of navigation;" and it is an undisputed fact that the existing navigable portion or channel of the Ohio river, in the neighborhood of the lands in dispute, is altogether on the northerly side of Neville island, while the back channel is wholly on the southerly side of said island. It is plain, therefore, that not a rood of the lands covered by the application of Kyle, et al., is so situated as to adjoin and lie between any of the land composing Neville island and the existing navigable portion or channel of the Ohio river; on the contrary, the island lies between the navigable portion of the river and the land in controversy. It is clear, therefore, that the owners of land on the island are outside the class preferred by the act of 1897.

How about the owners of lands on the southerly shore abutting on the back channel that is incapable of use for navigation? The land in dispute does lie between their lands and the existing navigable portion of the river, in the sense that Harrisburg lies between Philadelphia and Pittsburg, but it does not "lie between" in the sense of the act of 1897. The whole of Neville island, which constitutes an entire township, lies between their lands and the existing navigable portion of the river; so that in going from their lands toward the river, it is necessary to first cross the back channel, being the land in dispute, and then proceed clear across the township or island of Neville before reaching the shore of the existing navigable channel.

It was suggested at the oral argument that the purpose of the preference given by the act of 1897 was to prevent a shore owner from being deprived of his river frontage; but it is manifest that if patents were granted to these shore owners for so much of the back channel as their respective lands abut upon, they would have no river frontage, because Neville island would still intervene between their lands and the navigable portion of the river.

From the foregoing considerations, it is apparent that no party to this controversy is entitled to consideration as a preferred claimant under the act of 1897. No owner of land on the island, nor any owner of land abutting on the southerly boundary of the back channel, is an owner whose land is so situated that the back channel adjoins it and at the same time lies between it and the navigable portion of the river. This narrows the controversy to the application of Kyle et al., made before, and the application of Phillips, made after the passage of the act of 1897.

4. The application of Kyle et al., was made in conformity with the act of 1874 and its supplement of 1889, relating to the patenting

of vacant lands. It furnishes a minute description of the land applied for, and declares that it is "known as the back channel of the Ohio river." It was duly advertised, and was accompanied with the required amount of purchase money. The money was received by the proper authority, and the application was accepted and filed July 17, 1894. A warrant was issued September 3, 1894, directed to Charles Davis, Esq., surveyor for Allegheny county. A survey was made upon the ground in 1895 by McCully, but it was not until December, 1899, that the county surveyor, Davis, went upon the ground and verified McCulley's survey, which he officially approved December 30, 1899.

Assuming that everything done pursuant to the application of Kyle et al., was done without lawful authority, and that they took nothing by virtue of the warrant issued on their application, on the ground that the back channel was not patentable under the general land laws as vacant land, it does not follow that what was done pursuant to said application goes for nothing. It is settled law that, in the absence of fraud, that which is done without authority is not a nullity, if subsequently authorized before intervening rights attach. Let it be granted that the State authorities exceeded their powers in granting a warrant on an application for lands not then subject by law to warrant, survey and patent, yet it so happened that, prior to the execution of the warrant, the act of 1897 gave the very power that had been previously exercised without authority. It had the virtue of a curative act. It was wholly unnecessary for Kyle et al., to renew their application, as they might have done, after the act of 1897 was passed. That act required them to do nothing that they had not already done, for we have shown that there were no adjoining owners answering the description of owners entitled to personal written notice. Their application and the proceedings pursuant thereto were the same as they would have been if made and done after the passage of the act of 1897; and it would be a vain thing, which the law never exacts, to require all that had been done to be done over again.

The warrant that had been issued without authority on September 3, 1894, remained outstanding until and after the act of 1897 gave full authority to execute it, and it was executed after the act of 1897 by the county surveyor's verification of the survey upon the ground, his approval of the survey which was necessary to its completion, and his return of it to the office of the Secretary of Internal Affairs. All this was done, and so done as to conform with the provisions of the act of 1897, before any other party or person made claim to any portion of the back channel, either as an adjoining owner or otherwise; for it was not until the survey had been received at the proper office that any one appeared to dispute the right of Kyle et al., to a patent.

Consider the legal effect of this survey. It furnished the Department with exact information respecting the land that had been appropriated, and the title of the applicants began with its return to the office. *Hughes vs. Stevens*, 43 Pa. 197, and *McGowan vs. Ahl*, 53 Pa. 84, including the citations made by Judge Strong in the former and by Chief Justice Woodward in the latter, sufficiently settle the law that a survey, lawfully authorized when made and returned, takes precedence of any application filed after its return. The return of the survey, made pursuant to a warrant issued in good faith, fully informed the Commonwealth that certain lands then subject to warrant, survey and patent had been appropriated by Kyle et al., prior to any application therefor by any other claimant; and if, as already shown, there were no adjoining owners entitled to preference by virtue of the situation of their lands, Kyle et al., must be treated as first applicants as against the application of any person filed after the return of their survey.

It was settled at an early date that, under the land laws of this Commonwealth, a survey and payment of purchase money give a legal right of entry without the issuing of a patent.

Sims vs. Irvine, 4 Dallas 457;

Copley vs. Riddle, 2 Wash. C. C. 354;

Penn vs. Klyne, 1 Wash. C. C. 307.

In the last case, Washington, J., said that "by the common law of this State, a warrant and survey, if the consideration be paid, gives a legal title against the proprietaries; as much so as if a patent had been granted." In the first case, Ellsworth, C. J., states the settled law of this State to be that payment, or passing of the consideration (which was not money in that case) "and a survey, though unaccompanied by a patent, give a legal right of entry, which is sufficient in ejectment." This early settled principle of the land laws of our Commonwealth has never been disturbed by subsequent decisions or legislation; and if the survey of Kyle et al., was authorized by law at the time it was completed and returned, it gives to them a right of entry which must prevail in the absence of any preferred claim or intervening right.

In the administration of the land laws of this Commonwealth the survey as actually made upon the ground has always been given much greater and higher consideration than the warrant by which it was authorized. It has not been an uncommon practice to shift the location described in the warrant, and make the survey of totally different lands; and the practice of including more land in the survey than the quantity specified in the warrant has not been less common. In such cases the title of the patentee does not relate back to the date of the warrant, for the reason that the survey gives the Com-

monwealth its first information of the specific land appropriated thereby.

In this case the warrant was the same in every respect as it would have been if the act of 1897 had been passed before issued, for that act provides that the lands to which it applies "shall be subject to warrant, survey and patent by the Commonwealth at the same rate per acre, and, except as herein provided, in like manner as other public lands," and it provides no new manner or method of issuing the warrant or making the survey or granting the patent, which differs in any way from the previously existing laws relating to other public lands. Grant that the warrant was unauthorized at the date of its issue, the controlling fact remains that before it was executed by a completed actual survey on the ground and return to the office from which it issued, the act of 1897 gave authority to issue precisely such warrant as it is. It was to all intents and purposes the case of a principal subsequently adopting the previously unauthorized act of his agent.

5. In 1 Sugden on Vendors (8th Am. Ed.) 533, the settled principle of law is stated as follows, to wit: "If a man sell an estate to which he has no title, and after the conveyance acquire the title, he will be compelled to convey it to the purchaser."

The Supreme Court of Massachusetts, in *Trask vs. Vinson*, 20 Pick. 105, says: "We know of no rule of law or principle of sound policy which prohibits a person from agreeing or covenanting to convey an estate not his own."

In England it is recognized as "an undeniable proposition that when a party enters into a contract without the power of performing that contract and subsequently acquires the power of performing that contract, he is bound to do so." *Crane vs. Mitchell*, 10 Jur. 909.

In *Steiner vs. Baughman*, 12 Pa. 106, Gibson, C. J., says: "Had the vendor subsequently purchased the part of it in question, a chancellor would have compelled him to convey it over again, in order to make good his former deed; and this, on an equity from the fact that he had received value for it."

There is no sound reason why the same rule should not apply where the State issues a warrant for the appropriation of lands not then but afterwards subject to warrant, survey and patent. In the interpretation of our land laws our courts have uniformly treated the State as subject to the settled principles governing contracts between individuals; and, in *Weiser vs. Moody*, 2 Yeates, 127, the settled doctrine respecting after acquired title by the vendor is recognized as applicable to the Commonwealth. In that case a warrant was issued in 1755 "for 4,000 acres in any part of the new purchase lately made of the Indians." A survey of lands outside of the "new purchase" was made and returned; but "nothing appeared

on the face of the survey, or any of the papers produced by the plaintiff, which could have denoted that the lands in controversy lay out of the then Indian purchase, which was admitted to be the case."

The law laid down to the jury was that if the proprietaries, or their officers, know that the lands so surveyed lay out of the then Indian purchases, and granted the patent therefor under full knowledge thereof, the patent would inure for the benefit of the grantee, when the lands came afterwards to be purchased from the Indians, and the proprietaries could not lawfully pass title for the same lands to a stranger, as they had done in 1769 to the defendant in that case; and it was said: "It might be compared to a person's selling lands without title, and afterwards obtaining a right thereto, where the vendor would hold in trust for the vendee;" in which case, as the authorities already cited show, the trustee would be compelled by a chancellor to execute a conveyance to his vendee. This was qualified by the proviso that no fraud, or willful suppression of the facts, had been practiced upon the proprietaries in procuring the patent.

That case differs from this in some of the facts, but we submit that it does not differ in any essential principle. The fact that the grant was by the proprietaries instead of the Commonwealth makes no difference, because, as said by Justice Washington, in *Penns. vs. Klyne*, ante, the proprietaries were "the sole owners and proprietaries, not only of the government, but of the soil of Pennsylvania, not in a political but in their private capacities, not as trustees for the people as to the whole or any part of the soil but in absolute fee simple for their individual uses," and being such owners, and it being "their interest to encourage the population and settlement of the province, they erected an office, and laid down certain rules for its government, and the government of those who might desire to acquire rights to the unappropriated lands within the province, reserving to themselves a right to appropriate one-tenth of the whole to themselves for their private individual use," so that "all persons complying with the terms thus held out acquired a right to the portion of the land thus appropriated, not only against other individuals who might thereafter attempt to appropriate the same tract, but even against the proprietaries themselves," and "as a necessary consequence of this principle, whenever such was their intention, it was made known by a warrant of appropriation and a survey to mark out and locate the ground thus withdrawn." So that the rights of the proprietaries preceded and exceeded the rights of the Commonwealth, and the legal principle applied to the former in *Weiser vs. Moody*, ante, with respect to after acquired title, would necessarily apply to the latter.

In the case of *Weiser vs. Moody*, ante, the plaintiff failed to recover because of his utter failure to show by the survey, or other-

wise, that the proprietaries had knowledge that the land covered by their patent to Weiser lay outside of the then "new purchase lately made of the Indians." The lands patented to Weiser were not patentable at the time his patent was granted; in fact, they belonged to the Indians at that date, and the proprietaries had no title to them. In this case, the application of Kyle et al., plainly informed the proper Department of the Commonwealth that the land applied for is "known as the back channel of the Ohio river," and the land described undoubtedly belonged to the State. The Department representing the Commonwealth in the matter of granting warrants for the survey of its patentable lands was bound to take judicial notice of the fact that the Ohio river is a navigable river. There was no attempt made by the applicants to conceal the character or location of the land applied for; but, on the contrary, plain notice was given in writing on the face of the application that the land constituted a channel of a navigable river, "known as the back channel of the Ohio river." Then the survey, completed and returned after the land in controversy was made subject to survey and patent, brought home further knowledge to the Department that the land appropriated thereby is within the boundaries of the lands made subject to appropriation by the act of 1897. Authority to grant a patent for the kind of land embraced in the survey existed at the time the survey was returned, and, at that time, Kyle et al., were the only persons who had taken any steps to appropriate it. Marking the survey as it was marked after it was returned to the Department, has no greater effect than a caveat: *Hughes vs. Stevens*, 43 Pa., page 205.

The warrant granted to Weiser was legal, because it limited its execution to lands then patentable; but it was located and the survey made upon lands outside of the patentable boundaries, and for the lands so surveyed his patent was granted before such lands were patentable. His survey and patent were both unauthorized. The warrant granted to Kyle et al., was unauthorized at the time it was granted; but, before it was executed by survey and return, it was legalized by the act of 1897, before any adverse rights had intervened. The survey was completed and returned after the act of 1897, and it is in conformity with the provisions of that act, and it would be intolerable to hold that it is a nullity because it was made pursuant to a warrant issued under a former act. It should not be overlooked that, under the unshaken authorities hereinbefore cited, it is the survey (not the warrant) which, together with payment of the purchase money, creates a right of entry sufficient to support ejectment, which right Kyle et al., now possess without a patent.

Under such circumstances, why should their title not be perfected and made marketable by granting them a patent? They have paid the purchase money and have made and returned a survey which

was authorized by law at the time it was completed and returned. It furnishes a full description of the land appropriated. All that can be said against the survey is that it was made pursuant to a warrant that was not authorized by law at the date of its issue. It was applied for and issued in good faith, without deception or fraud, and, before it was executed, a new law authorized the issue of such warrant. The warrant does not differ in any way from a warrant for the survey of "other public lands." It simply authorized and required the county surveyor to survey unto D. Kyle et al., the quantity of acres by them applied for, "at the place aforesaid," and make return thereof to the Department of Internal Affairs. It contained a description of the land by the courses bounding it, and expressly stated that it is "known as the back channel of the Ohio river." It would have served no good purpose to have returned the warrant unexecuted, when the act of 1897 was passed, and to have procured an alias warrant precisely like it; although that might have been done. There is no such fatal irregularity or defect as should in equity, or in law, deprive Kyle et al., of the rights incident to the payment of the purchase money and return of survey. They have a right of entry sufficient to support an ejectment against any person who may enter upon possession of the lands without a better right.

6. This brings us to consider the application of R. A. Phillips, filed January 12, 1900. It is not based upon any claim of Phillips as an adjoining owner, and it must be treated like the application of any other outside party. His claim must stand or fall upon his legal right as an applicant, and should not be affected by the allegation made at the oral hearing that he has declared a trust in favor of the adjoining owners. That is merely a make-weight that should be disregarded. It is extremely doubtful, to say the least, whether any such trust could be enforced against him; but, be that as it may, he applies as an individual, and must stand upon his personal rights, unaided by any such trust. His application describes the land by substantially the same courses of boundary that are mentioned in the application of Kyle et al., and designates it as "being the back channel of the Ohio river," and as "known as the back channel of the Ohio river, and abandoned for purposes of navigation by act of Congress." It also states that it is founded on the act 15 July, 1897. What merit can be found in this application that should entitle it to prevail against the survey of Kyle et al., which precedes it in time? The most that can be said of it is that it is the first application made after the act of 1897 was passed, and it is made expressly under that act; but it was not made until after the survey of Kyle et al., had been made and returned to the Department. To give Phillips a preference over Kyle et al., necessarily involves an adjudication that everything done pursuant to the application of the latter is abso-

lutely null and void; and we have endeavored to show that such proceedings were in substantial compliance with the act of 1897. If a warrant should be granted Phillips, what would or could he do materially different from what Kyle et al., had already done before he entered the field as an applicant? Under these circumstances we claim with confidence that Phillips has done nothing and can do nothing, and that he has no equity or merit or any kind that entitles his application to precedence over the survey regularly made and returned by Kyle et al.

II. We have argued thus far upon the assumption that there was no authority to patent the lands in controversy prior to the act 15 July, 1897; but it is by no means clear that any such concession should be made. It is true that the islands and beds of navigable rivers are not patentable under the general laws regulating the appropriation of the vacant lands of the State. This doctrine is sufficiently settled by the cases of *Poor vs. McClure*, 77 Pa. 214, and *Allegheny City vs. Moorhead*, 80 Pa. 118. In the former case, Chief Justice Agnew said: "This rule grew out of the interests of the State in preserving the navigation of her great rivers;" and such navigation is controlled by the Federal Government. Like all rules its operation should cease when the reason for it ceases.

By an act of Congress approved June 12, 1876, it was enacted "That the residents and property owners of Neville township, county of Allegheny, and State of Pennsylvania, be and they are hereby authorized and empowered to close the channel of the Ohio river on the south side of Neville island, in said township, by the construction of an embankment or causeway from the head of said island to the southern shore of said river." Nobody questions the fact that the channel thereby authorized to be closed is the identical channel "known as the back channel of the Ohio river;" so that this act of Congress constitutes an open declaration to the world, by the supreme power which controls the navigation of the Ohio river, that the Commonwealth of Pennsylvania need no longer interest herself "in preserving the navigation" of the channel of that great river on the south side of Neville island. From the moment the authority conferred by that act of Congress was exercised, the channel south of Neville island ceased to be a portion of a navigable stream, and became vacant land belonging to the Commonwealth, subject to warrant, survey and patent under the provisions of the general land laws then existing.

At first blush this may seem to be at variance with *Poor vs. McClure*, ante, which involved the closing of a channel of a navigable river; but when we come to carefully consider that case, it does not appear to be in conflict with the above statement. It will be more easily understood when considered in connection with *Wainwright*

vs. McCollough, 63 Pa. 66, relating to the same subject matter, in which the bed of an old channel of the Allegheny river between Wainwright's island and the southerly shore, which had become obstructed and partially filled so as to prevent its navigation, was claimed by an adjacent shore owner as an accretion to his shore lands. His claim was disallowed, and in disposing of it Agnew, J., said: "From what has been said of the Allegheny as a river naturally navigable, recognized by statute law and judicial decisions, it is clear that the ownership of its bed between islands and the shore, as well as its main channel, belongs to the State. A wrongful diversion of its waters from its bed does not extinguish the title of the State, or add to that of individuals;" and he cites *Allegheny City vs. Reed*, 24 Pa. 39, as analagous. The same channel was subsequently patented by Poor, whose title was held invalid in the case of *Poor vs. McClure*, ante, on the ground that it was not within the class of vacant lands subject to patent under our general land laws.

The channel involved in those cases was obstructed first by a dam erected by McCullough about 1845 for use of his saw mill on the main shore, for which he was prosecuted and convicted on the charge of maintaining a nuisance, and, second, by the extension of a street of the then borough of Lawrenceville across said channel, whereby a fill was made for the roadway, which was done under authority of a special act 12 April, 1867, P. L. 1204. The act 16 April, 1858, P. L. 326, had previously authorized the appointment of a commission to establish high water and low water lines of the Allegheny and other rivers near the city of Pittsburg; and such lines had been established accordingly. The case of *Wainwright vs. McCollough* was ruled against the plaintiff in the court below solely upon the supposed bearing of the latter act; but, on appeal, it was held that the establishment of high and low water lines pursuant to said act had no bearing whatever upon the case, although the judgment of the court below was affirmed on the ground that plaintiff's title, covering shore lands, did not include the bed of the channel as an accretion.

The same channel bed was afterward patented to Poor under the general land laws, and he instituted an action of ejectment therefor, with the result already stated, to wit, his title was held invalid because founded upon a patent for the bed of a river channel that was not patentable under said laws. It will be observed that in both of the aforesaid cases relating to that channel, its obstruction by McCollough's dam was treated as a nuisance, while, in neither case, is there any treatment of the effect of the act of 1867 authorizing the obstruction of the channel by the construction of a street across it, nor how that act may be affected by the paramount authority of the Federal Government "to regulate commerce with foreign nations, and among the several states, and with the Indian tribes."

The powers conferred upon the general government, by the Constitution, and the rights thereby reserved to the States, as far as they apply to this subject, are sufficiently explained in the case of *Pound vs. Turck*, 95 U. S. 459, following *Gilman vs. Philadelphia*, 3 Wallace 713, which followed *Wilson vs. The Blackbird Creek March Co.*, 2 Peters 250. The first of the above-cited cases, being the latest of the three in date, was an action for damages to a raft of lumber caused by a dam erected by defendant, under authority of a law of the state of Wisconsin, granting the right, with certain limitations, to the defendant to dam the Chippewa river, a navigable tributary of the Mississippi, being entirely within the state; and the case turned upon the power of the state to authorize the obstruction of a navigable river within its boundaries by the erection of the dam.

Gilman vs. Philadelphia was a bill in equity to restrain the city from erecting a bridge across the Schuylkill river at Chestnut street, pursuant to authority granted by a special law of the State passed in 1857. The plaintiff owned a wharf above the proposed location of the bridge, and it was conceded that the bridge would damage him by obstructing the passage of vessels engaged in navigation to and from his wharf. In the opinion of Mr. Justice Swayne, the nature of the case of *Wilson vs. The Blackbird Creek March Co.*, is sufficiently explained. Blackbird creek was a navigable tributary of the Delaware river, being entirely within the state of Delaware, and the state authorized the company to erect a dam for purpose of facilitating the reclaiming of swamps which were alleged to be a menace to the public health. The defendant, being the owner of a sloop regularly enrolled and licensed under the laws of the United States, broke and injured the dam, and the company sued him to recover damages for trespass.

All of these cases involved the power of a state to authorize by its laws the obstruction of a navigable river wholly within its own boundaries; and, in each case, the obstruction was a great public benefit although detrimental to the exercise of the right of navigation. In each case the authority of the State was upheld, but as stated by Mr. Justice Miller in the latter case, "on the express ground that in the absence of legislation by Congress the" acts of the several Legislatures were "not repugnant to the commerce clause of the Constitution." Referring to such obstructions, he further said: "To the Legislature of the State may be most appropriately confided the authority to authorize these structures where their use will do more good than harm, and to impose such regulations and limitations in their construction and use as will best reconcile and accommodate the interest of all concerned in the matter. And since the doctrine we have deduced from the cases recognizes the right of Congress to interfere and control the matter whenever it may

deem it necessary to do so, the exercise of this limited power may all the more safely be confided to the local Legislatures."

In *Gilman vs. Philadelphia*, Mr. Justice Swayne said: "It must not be forgotten that bridges, which are connecting parts of turnpikes, streets and railroads, are means of commercial transportation, as well as navigable waters, and that the commerce which passes over a bridge may be much greater than would ever be transported on the water it obstructs. It is for the municipal power to weigh the considerations which belong to the subject, and to decide which shall be preferred, and how far either shall be made subservient to the other. The states have always exercised this power, and from the nature and objects of the two systems of government they must always continue to exercise it, subject, however, in all cases, to the paramount authority of Congress, whenever the power of the states shall be exerted within the sphere of the commercial power which belongs to the nation."

All of the authorities are in entire harmony in upholding the doctrine that "the commercial power which belongs to the nation" or the power to control and regulate navigation in all navigable waters within the boundaries of the United States, is paramount in the Federal Government, and that the authority exercised by the several states, in that respect, is such as may be permitted, or acquiesced in, by the government, and never such as may be exercised as matter of paramount right against the consent or acquiescence of the Federal Government.

It follows logically from this well-settled principle of our laws that there was no occasion, in the cases of *Wainwright vs. McCullough* and *Poor vs. McClure*, to treat of the effect of the act of 1867, in allowing the municipality of Lawrenceville to extend its streets across the channel between Wainwright's island and the main shore, in such manner as to wholly obstruct that channel for purposes of navigation. And it is perfectly plain, that, in the absence of an abandonment of that channel for purposes of navigation by the surrender of the paramount authority of the United States to control navigation through it, the bed of that channel did not become vacant land belonging absolutely to the State, for which it could grant a patent in absolute fee under the general system of our land laws. Any grant of the bed of the river by the State would of necessity be subject to the right of the United States to declare it open for use for purposes of navigation.

The lands in controversy in this case stand upon an entirely different footing. The Federal Government, by the act of Congress hereinabove quoted, has declared in express terms that the back channel may be closed, and has thereby completely relinquished its right to the control or use of that channel as a navigable portion

of the Ohio river; so that, with respect to that channel, the State has unrestricted power to dispose of its bed in absolute fee simple, the same as its other public lands. This was done long before the act of 1897 was passed, which carefully provides that "no patentee of any such lands or strips or pieces thereof, nor any person or persons holding under any such patentee, shall have the right to do any act or thing thereon which shall interfere with or change the natural course or flow of such river, and that no person or persons shall permit any use to be made thereof, or any improvements to be made thereon, which shall in any manner endanger or interfere with the free navigation of such river, or with any improvement made thereon, either by the United States or by or under the authority of this Commonwealth." Under the authorities herein cited, that act applies to all lands or strips or pieces thereof, of the character such as mentioned in the act, provided the Federal Government had taken no action in reference thereto; but we submit that it has no application to the lands in dispute, being the bed of "the channel of the Ohio river on the south side of Neville island," because the government having authorized the closing of that channel, and thereby forever relinquished its control over it for the purpose of navigation, the bed of that channel thereby ceased to be a part or portion of a navigable river, which may be patented subject to the above quoted proviso of the act of 1897, and became simply vacant land belonging absolutely to the State, subject to patent as such precisely as if it had never been the bed of any portion of a navigable stream. So far as we know, the government has not relinquished its paramount right over any other channel of a navigable river; but so far as this particular channel is concerned, the government has wholly withdrawn all of its interest and authority with respect thereto, leaving the State in absolute ownership and unrestricted control, as completely as if it had never been overflowed by the channel of a navigable river. The State, being in complete control and ownership, could dispose of the bed of this channel under its general land laws, in like manner as other public lands; and Kyle et al. have complied with every requirement of the law.

---	---	--

SAMUEL D. ROBISON AND T. J. GILLESPIE, vs. R. A. PHILLIPS.	}	No. 380. Before the Board of Property of Commonwealth of Pennsylvania.
---	---	--

HISTORY OF THE CASE.

The southerly channel, or what is commonly known as the back channel of the Ohio river, which is the subject of controversy before the Property Board, lies within Allegheny county, and is about seven (7) miles in length by one-fourth mile in width between high water lines. It is separated from the northerly, or main channel of the river, by Neville island, which is of an average width of about one-third mile, and extends from a point three (3) miles distant below Pittsburg to a point below Coraopolis (formerly Middletown) where the two channels unite.

In October, 1885, the United States government completed a dam across the northerly or main channel at Davis island, one-half mile above the head of Neville island, and another dam across the back channel near the head of Neville island, the

purposes of these dams being to increase the depth of the water in the main channel and thereby facilitate navigation and remove the danger to navigation arising from riffles or gravel bars above the dam. At low stages of water there is a small stream of water in the back channel varying in width from twenty (20) to fifty (50) feet, which can be crossed at many places by stepping on stones. This stream is formed by the overflow of water from the dam mentioned, and by numerous streams which empty into the back channel on the southerly bank. At the highest stages of water, the channel fills from bank to bank and the water rises to a height from six (6) to ten (10) feet, and prior to the erection of the government dam, could be and was occasionally navigated by medium sized vessels, but the government dam at the head of Neville island since its erection has been a complete barrier to navigation.

At low stages of water all the ground embraced in the bed of the back channel, except the ground covered by the small stream already mentioned, is dry land made up of sand and gravel and no part susceptible to cultivation.

On September 3, 1894, D. J. Kyle, Alexander S. Hunter, George H. Clapp and F. M. Love obtained a warrant from the Secretary of Internal Affairs to survey and patent all the ground comprising the back channel, under which a survey was made, and the warrant has been returned to the Secretary of Internal Affairs. Some time in the month of January, 1899, two applications were made under the act of July 15, 1897; the one by R. A. Phillips for a warrant to survey and patent all the ground embraced in the back channel, and the other by S. D. Robison and Thomas J. Gillespie for a warrant to survey and patent two pieces of ground, extending from the southerly shore to the center of the river bed; one piece containing eight and eight hundred seventy-five thousandths (8.875) acres and the other containing sixteen and sixty-five hundredth (16.65) acres. Neither Kyle, Hunter, Clapp nor Love, at any time before or since the granting of the warrant above mentioned, owned any land abutting on the said back channel; R. A. Phillips, it appears, represents certain property holders abutting on the back channel, and he has filed a stipulation or declaration of trust, under which he obligates himself to make conveyances upon certain conditions as to payment of expenses, etc., to the property holders abutting the channel for so much of the ground covered by his application as they may respectively be entitled to receive; Robison and Gillespie own in fee the ground which abuts of fronts on the ground covered by their application.

The case comes before the Property Board on caveat, filed by Robison and Gillespie against the granting of a patent to Kyle et al., under the warrant granted to them, and against the granting

of a warrant to Phillips under his application for any portion of the ground embraced in the application of Robison and Gillespie.

ARGUMENT.

At the hearing before the Board of Property, in May last, all the applicants were represented by counsel, when counsel for Kyle et al., admitted that there was no law prior to the act of July 15, 1897, P. L. 301, authorizing a patent to issue for ground comprising the channel or bed of a navigable stream, but it was contended, because a warrant had been issued to Kyle et al., on September 3, 1894, although without authority of law, that they should have priority under the act of July 15, 1897, over the applications filed by Phillips, and by Robison and Gillespie, and the Board of Property was asked to treat the warrant issued to Kyle et al., as if it had been issued under the act of July 15, 1897, but no authority whatever was cited in support of such contention. It was also substantially admitted at the May hearing by counsel for Phillips that Robison and Gillespie, because of their being the owners of the ground abutting upon the ground covered by their applications, had priority over Phillips under the act of July 15, 1897.

Counsel for Robison and Gillespie contend that the warrant which was issued to Kyle et al., on September 3, 1894, was issued without any authority of law and therefore void, and the parties named therein can derive no benefit whatever under the act of July 15, 1897, by reason of the granting of such warrant, or the application upon which such warrant was issued more than three years prior to the act of 1897; and, further, that Robison and Gillespie have priority over all others in obtaining a patent for the ground upon which their land fronts, as described in their application.

Three questions are presented for the Board of Property, which will be discussed in the following order:

First. Is the ground comprising the bed of the back channel of the river the subject of warrant, survey and patent under the act of July 15, 1897?

Second. Who are entitled to the priority mentioned in said act?

Third. What is required or necessary to be done on the part of the applicant to obtain warrant, survey and patent?

Section one of the act of July 15, 1897, defines the kind of land which may be patented under two heads: First, unpatented lands, lying within any part or portion of any navigable river and which part or portion of said river by reason of any obstruction or otherwise, shall be incapable of use for purposes of navigation; second, all unpatented strips or pieces of land lying between the navigable part or portion of any river and other unpatented land or lands, and which shall have heretofore fronted or abutted upon such river.

In the limitations contained in the first section of the act on the granting of patents, and the use of the lands by the patentee, the words, "Such lands or pieces of land" are used and repeated, clearly indicating that more than one kind of property or land was kept in view by the drawer of the act.

Under the first head is embraced the ground within the navigable portion of the stream which has become incapable of navigation by obstruction or otherwise. It is not entirely clear what kind of land is meant or intended under the second head, but it would apply to such strips or portions of ground as are to be found in some of the rivers of Pennsylvania, located within the river bed, between the navigable portion of the stream and the banks or shores subject to overflow at high stages of water, separated from each other and from the navigable portion of the stream and from the banks, by small rivulets or channels filled with water. Under the first clause, ground in the navigable portion of the stream may be patented only when the stream has become incapable of navigation, but there is no limitation placed on the granting of patent for ground covered by the second clause. The clear intention, however, gathered from the entire act, was to make all the ground embraced within the river bed, between the banks on either side, the subject of warrant, survey and patent, except the navigable portion susceptible of navigation without limitation or restriction; also, to make the ground within the navigable portion of the stream subject to warrant, survey and patent, when incapable of navigation.

At the highest stages of water, the depth of the water in the back channel varies but little between the banks, and there were no strips or pieces of ground rising above the bottom of the channel to confine navigation, prior to the erection of the government dam, to any particular portion of the stream, and at low stages of water, both before and since the erection of the dam, the entire channel between the banks, except the small stream above mentioned, from twenty (20) to fifty (50) feet in width was and is dry land, composed of sand and gravel. Since the completion of the government dam, in 1885, the back channel has not been susceptible of navigation, and no part of the channel has been within the navigable limits of the Ohio river, as established by any act of Assembly or any authority of the United States, and the first kind of property mentioned in the act of July 15, 1897, clearly covers the land comprising the back channel of the river.

This brings us to the second question, Who are entitled to the priority mentioned in the act of July 15, 1897?

It is provided in clause two that, "If upon the ground covered by the application no settlement has been made, and the land in whole

or in part, cleared and fenced, or otherwise improved by the settler, any person or persons owning land so situated that the lands for which such application shall be made adjoin and lie between the land of such owner or owners and the navigable portion of any river, shall have the first right to purchase the land so applied for and receive a patent therefor." Under this clause, preference or priority of right is first given to the settler or improver, if there be one; and second, to a property owner whose land is so situated that the land covered by an application for a warrant, etc., lies between such owner and the navigable portion of the stream. In the case of the back channel of the Ohio river, as already stated, there is no land improved, and consequently there is no settler or improver as referred to in the act. As stated in the history of the case, the width of the back channel of the river between banks is about one-fourth mile, and all the land lying on either side of the small stream of twenty (20) to fifty (50) feet in width at low stages of water is dry land. The land of Robison and Gillespie extends to highwater line on the southerly shore of the back river; their application for warrant covers all the ground lying between their property line at high water mark and the center line in the river bed or channel, and includes the piece of ground or strip which at low water is dry land, lying between the small stream twenty (20) to fifty (50) feet in width, and the southerly bank of the channel upon which the ground of Robison and Gillespie fronts. The test of the question as to who are owners entitled to priority under the act is not whether the navigable portion of the river be defined and so located as to leave pieces and strips of ground on either side between the banks, but is, does their land front or abut upon the ground covered by the application for warrant, etc.

The act must receive a reasonable construction, and any construction that would deny to the owner of land abutting on the stream the priority mentioned in the act to purchase and patent the ground in the channel of the stream, upon which the land of such owner abuts or fronts, would certainly be in conflict with the intention and spirit of the act.

Under the facts in the case, Robison and Gillespie clearly are such owners as under the second clause of the act have priority of right to purchase and patent the ground covered by their application over all other persons.

As to the third question, What is required or necessary to be done on the part of the applicant to obtain a warrant, etc.

Section 1 of the act of July 15, 1897, provides that the ground covered by the act shall be subject to warrant, survey and patent by the Commonwealth at the same rate per acre, and, except as otherwise provided in the act, in like manner as other public lands.

The mode of obtaining patent for public lands in Pennsylvania, at the time of the passage of the act of July 15, 1897, was embodied and set forth in the act of April 23, 1889, P. L., 46, in which all previous acts appear to have been condensed.

In order to obtain a patent for ground covered by the act of July 15, 1897, the applicant must comply with the requirements of that act, and also of the act of April 23, 1889.

These requirements are as follows:

Under the Act of July 15, 1897.

(a) Filing of application with Secretary of Internal Affairs, giving a full description of the land.

(b) Affidavits of two free-holders containing the information mentioned in section 2.

(c) Affidavit of the applicant containing the information required in section 2.

(d) Personal notice that letters patent have been applied for to be given to the property owner*abutting or fronting on the lands covered by the application.

(e) Purchase money to be paid to Secretary of Internal Affairs.

Under the Act of April 23, 1889.

(f) Notice to be given at least thirty days of the filing of application, by publication once a week for three successive weeks, in one or more newspapers of the county, containing a full description of the land covered by the application, and proof that such notice has been given to be filed with the Secretary of Internal Affairs.

All the requirements mentioned have been fully complied with by Robison and Gillespie. The requirements as to the act of July 15, 1897, respecting personal notice to the land owners is one of the most important provisions in the act, the purpose of such notice being to warn the abutting property holders of the action of strangers to acquire ownership of the land in the river bed covered by the act upon which their lands front. This very important provision as to notice to be given the abutting property holders by the applicant was not required prior to the act of July 15, 1897, and the owners of the land fronting upon the river, now owned by Robison and Gillespie, had no information or notice of the warrant which had been granted to Kyle et al., in 1894, until in the month of December, 1899.

The decisions of the courts, applicable to and which should govern this case, are to be found in the cases arising under the acts of Assembly, relating to the granting of patents in the early history of Pennsylvania, and also in the cases arising under the acts of Congress.

The beds of navigable rivers in Pennsylvania belong to the Commonwealth.

Carson vs. Blazer, 2 Binney, 475.

Johnson vs. Davison, 16 Pa. St., 522.

The State had the right to impose such conditions as she saw fit in the granting of patents for public lands. The applicant for a patent is not entitled to it as a matter of right; it is a gratuity on the part of the State.

McAfee vs. Kern, 7 Smed. & M., (Miss.), 780, 45 Amer. Dec. 331.

The officers of the land office have no discretionary powers, but must adhere strictly to the law.

Blair vs. McKee, 6 W. & S., 193.

Hunter vs. Howard, 10 S. & R., 243.

Wilson vs. Horner, 59 Pa. St., 162.

The duties and powers of the officers of the land office are well defined, and any acts which transcend these defined powers are a nullity.

Bard vs. Seabold, 6 S. & R., 137.

The granting of a warrant to Kyle et al., in 1894, without authority of law, was a nullity, and conferred no benefits or advantages whatever.

Shipley vs. Cowan, 91 (U. S.), 330.

Cunningham vs. Ashley, 14 Howard, 377.

Lytle vs. Arkansas, 9 Howard (U. S.), 314.

U. S. vs. Stone, 2 Wallace (U. S.), 525.

All the decisions relating to the granting of patents hold that the requirement of the law are conditions precedent and must be strictly complied with by the applicant for patent.

It was provided by the act of Assembly, April 22, 1794, 3 Sm. Laws, 184, no warrant should issue for certain described lands in the new purchase (the purchases made from the Indians in 1784 and 1785), except in favor of persons claiming the same by virtue of some settlement and improvement to be made. It was held that under this act, mere improvement was not sufficient to establish claim to title, actual settlement was also necessary and must be proved.

Bixler vs. Boker, 4 Binney, 213.

See also:

Hughs vs. Dougherty, 1 Yates, 497.

The act of Assembly of April 8, 1785, sec. 15, 2 Smith Laws, 317, provided that deputy surveyor should not go out of his proper district to make survey.

It was held that a survey made of land covered by the act, by a deputy surveyor outside of his district, was void.

Prout vs. Bard, 10 Watts, 375.

Harris vs. Monks, 2 S. & R., 557.

Creek vs. Moon, 7 S. & R., 330.

Under the acts of Congress, the right of pre-emption, although a

gratuity, constitutes as valid a right in the settler as if it were based on a valuable consideration, and creates an equity in favor of the settler, which excludes the right of all others to purchase the land from the United States for the time allowed by law to the settler to make his proof and entry, and this right can only be lost by a failure by the settler to complete his purchase within the time allowed.

McAfee vs. Kern, 7 Sued. & M., (Miss.), 780, 45 Amer. Dec. 331.

Applying the principles of the decision just quoted, relating to the priority given by acts of Congress to actual settlers of public lands, to the act of Assembly of July 15, 1897, the priority given by the act of Assembly created an equity in Robison and Gillespie as land owners abutting on the ground covered by their application, which excludes all other persons from obtaining a warrant for the time allowed them to obtain a warrant.

In conclusion, counsel for Robison and Gillespie contends that, under the facts in the case and the decisions cited, the warrant granted to Kyle et al., in 1894, was a nullity, and neither the warrant nor the application upon which the warrant was granted can, in any aspect of the case, confer any right whatever upon them to obtain a patent under the act of July 15, 1897.

That the requirements relating to the granting of patent for lands covered by the act of July 15, 1897, are a condition precedent, and must be strictly complied with on part of the applicant.

If this contention be correct, it follows that Kyle et al., have no standing before the Board of Property to contest the right of other applicants until they shall have filed a new application in accordance with the act of July 15, 1897.

As to the application of Phillips, which includes the ground covered by the application of Robison and Gillespie, the filing by Phillips, a stipulation or declaration of trust, obligating himself to make conveyance to the property holders abutting on the back channel, upon payment of proper fees, etc., to him, the land to which such property holders are respectively entitled, recognizes the equity created and given to the abutting property holders by the act of July 15, 1897. If Robison and Gillespie, as abutting property holders, have the right to demand a conveyance from Phillips, because of the equity created in their favor and given them by the act of July 15, 1897, they clearly have priority over the application of Phillips, to obtain a patent for themselves, independent of Phillips, since the granting of a patent to Robison and Gillespie for the ground for which they would be entitled to a conveyance from Phillips, in case such land was patented to Phillips, cannot injure him.

Respectfully submitted,

WILLIAM A. SIPE,

Attorney for Robison and Gillespie.

D. J. KYLE, et al.,
vs.
R. A. PHILLIPS.

} By Agreement. Before Board
of Property.

At regular meeting, Thursday, May 17, 1900.

Brief of W. P. Potter and W. T. Tredway, Attorneys for Plaintiffs.

As between the parties to the above proceeding, it has been agreed between the respective counsel, that none of the defendants, D. J. Kyle, Alexander S. Hunter, G. S. Clapp and F. M. Love, who have made an application for a tract of land containing 400 acres, more or less, known as the back channel of the Ohio river (under the act of Assembly approved April 14, 1874, P. L., 59), own any property abutting the land applied for in said application, and that none of the said applicants are owners of property abutting the land covered by the said application.

R. A. Phillips, the caveator, is the applicant under application filed January 12, 1900, for a tract of 400 acres, more or less, known

as the back channel of the Ohio river, and is an abutting property holder, and makes his application in his own right first to the property immediately in front of his land, and as to all other land embraced in the application, as trustee, for the abutting property holders. So that aside from the legal question arising from the two applications, R. A. Phillips, and other abutting property holders, are equitably, and in all common fairness in dealing between man and man, entitled to take the land applied for.

The legal questions involved in this proceeding, before the Board of Property, are clearly raised by the reasons set forth in the caveat filed by W. P. Potter and W. T. Tredway, attorneys for the abutting property holders, the first reason being as follows: "The land for which applicants seek a patent is not patentable under the act of 1874, for the reason that this land is a part of what was formerly the bed of a navigable river. The act of April 14, 1874, does not contemplate a patent for such land as once constituted a part or portion of a bed of a navigable river. Applicants could not take title under said act."

By an examination of the acts of Assembly, authorizing and regulating the patenting of lands by the Commonwealth of Pennsylvania, as well as the common and statute law in said Commonwealth, and the decisions of the Supreme Court construing the acts, it will be clearly seen that the first reason assigned in the caveat states the exact law in the case. The act passed April 3, 1792, 4 Smith, page 133, is entitled, "An act for the sale of the vacant lands within this Commonwealth," and the act of April 14, 1874, P. L. 58, is an act, entitled "An act relative to the issuing of warrants to survey vacant lands."

We need not now stop to inquire how much of the act of 1792 is repealed or supplied by the act of 1874, but one thing is plain, and that is, that the act of 1874, referring to "vacant lands," gives that term no broader scope, meaning, or extent than the act of 1792.

But the act of 1792, and in fact all laws enacted up to January 5, 1874, gave no authority to the land office to issue patents upon any part or portion of the bed of a navigable river. And all decisions, as well as the acts of Assembly, and the common law, point clearly to the one fact, that the bed of a navigable river is the property of the State of Pennsylvania, for use as one of its common or public highways for the purposes of navigation; and in all cases where an attempt has been made to grant any rights in the bed of a navigable river, either in the patenting of the islands or in granting certain rights to take minerals from beneath the bed of a navigable river, it has always been by acts of Assembly, separate and distinct, from the acts authorizing the patenting of vacant lands within the Commonwealth of Pennsylvania.

And as further set forth among the reasons why a patent should not issue, or the survey issued to defendants be accepted, it is clearly manifest, that aside from the acts authorizing the taking of minerals, and the patenting of islands in the beds of navigable rivers, no authority was ever given to the land office to issue patents on any part or portion of the bed of navigable rivers, until the passage of the act approved July 15, 1897, P. L. 301, entitled "An act in relation to patenting lands lying within, or along navigable rivers."

It is well established law that the title of an owner of lands on the banks of an unnavigable stream, extends to the middle thread of the stream. This is the law of the State of Pennsylvania as well as the law in every state in the Union. It is equally well settled that the bed of all navigable rivers in the State of Pennsylvania belongs to the State, except islands, or such parts or portions of the river bed as have been patented to private individuals under special acts of Assembly.

Monongahela Bridge Co. vs. Kirk, 46 Pa. St., 127.

Wood vs. Appal, 67 Pa. St., 210.

The defendants in this action must stand upon the theory that the title to the land applied for, known as the back channel of the Ohio river, is in the State of Pennsylvania.

The Legislature and State authorities in Pennsylvania have always been very jealous of granting to private individuals rights in its public streams; and as a consequence of this Pennsylvania doctrine, islands in them belong to the State, and have always been considered as excepted from the general laws for the sale and settlement of vacant lands of the Commonwealth. They have always been granted under laws of special application to islands.

Stover vs. Jack, 60 Pa. St. 343.

The same is true as to river beds. It has been held that the wrongful diversion of a navigable stream from its bed does not extinguish the right of the State to the soil, or add to that of a private person.

Wainwright vs. McCullough, 63 Pa. St. 66.

The back channel of the Ohio river is a part of the bed of the river once navigable, and therefore, the title to the said back channel is in the State, or else it must be held that the said back channel was a separate stream from the main channel of the river on the north, in which event, and if regarded as a non-navigable stream, the title of the riparian owners upon the back channel would extend to the middle of the stream.

Covert vs. O'Connor, 8 Watts, 470.

Ball vs. Slack, 2 Wharton, 538.

Barkley R. R. Co. vs. Ingam, 36 Pa. St., 194.

When an unnavigable stream is declared by law to be navigable,

and therefore a public highway, the rule of law is that the title of the abutting property holders to the middle of the stream, is not interfered with; the title having, once vested, cannot be divested without proper proceedings.

Whether or not the back channel of the Ohio river was in point of law considered a navigable stream, or portion of the Ohio river, in such a way as to preclude the right of the abutting property holders to claim title to the middle thread of the back channel, is immaterial so far as the application of R. A. Phillips is concerned, because his application is for the purpose of quieting title and paying the Commonwealth the sum required by the act of 1897, the same as if no title existed, in the abutting property holders. So that so far as the application of R. A. Phillips is concerned, it is immaterial whether in time gone by, the back channel of the Ohio river was considered as a portion of the river bed or not.

It must be conceded also by the parties in this proceeding that the back channel of the Ohio river has been abandoned at the present time for the purpose of navigation; or that it was obstructed by the construction of the Davis island dam, under the authority of the United States and the State of Pennsylvania, and that such other obstructions have been placed therein, as to preclude the possibility of using it for the purpose of navigation, and that it has been in such state for the past five years.

The jealousy with which the State of Pennsylvania has guarded its river beds, is well shown and the question as to whether or not the back channel of the Ohio river, assuming that it is a part of the bed of the Ohio river, may be patented as vacant land under the act of 1874, is clearly discussed in the opinion of Chief Justice Agnew, delivered in the case of *Poor vs. McClure*, reported in

77 Pa. St., 214; it gives such a complete history of the organization of the land office, and the granting of warrants for vacant lands, that we quote liberally as follows: "The bed, bars and shoals of the Allegheny are governed, therefore, by the laws relating to the beds, &c., of navigable streams. This brings us to the question as to the validity of the warrant from the Commonwealth to John W. Dunn and William G. Poor, for fifteen acres of unimproved land dated 16th of March, 1868, and the survey thereupon. The land taken up under the old warrant is admitted to be the old channel of the Allegheny river between Wainwright's island and the main shore on the southeastern side of the river, lying also between the patent to Conrad Widebiddle dated December 31, 1787, and the patent to George Wallace, July 22, 1806, surveyed on an order of April 7, 1798, for the island then known as Cork's island, three miles above Pittsburg. A special verdict for the plaintiff was rendered, subject to the reserved questions whether any title passed under

the patent to Dunn and Poor. * * * The beds, gravel and sand bars of the navigable rivers of this State are not subject to private appropriation under the ordinary system of land laws: *Allegheny City vs. Reed*, 12 Harris, 39; *City of Allegheny vs. Nelson*, 1 Casey 332; *Brandt vs. McKeever*, 6 Harris, 70. This rule grew out of the interests of the State in preserving the navigation of her great rivers, and as a consequence it has always been held that the surveys on navigable streams do not extend the title of the riparian owner beyond the ordinary low water line, and between it and the ordinary high water line the ownership of the land is subject to the public right of navigation. These lines were considered and their extent defined in *Stover vs. Jack*, 10 P. F. Smith 340; see also *Wood vs. Appal*, 13 P. F. Smith 210; *Grant vs. White*, Id. 271. These positions bring us to the precise question before us, to wit, whether a warrant can be taken out in the ordinary forms of the Land Office to appropriate land made in the channel by filling up, caused by damming up the water in one place and making a street across it in another, raised by embankment under authority of an act of Assembly. No precedent for such an appropriation has been shown or is known to us, while it is contrary to the practice of the Land Office since the extinction of the rights of the proprietaries of the province by the act of 27th November, 1779, 1 Sm. Laws 479. The sixth section of that act subjected the "said soil and lands" to such disposal, alienation and appropriation as the Legislature then or thereafter should deem meet and expedient. The first act establishing a land office under the Commonwealth, was passed April 9, 1781, 1 Sm. Laws 529. The twelfth section provided that no grant, warrant or location after the 4th of July, 1776, should be valid for lands or lots within ten miles of Philadelphia, within three miles of a county town, or for a greater quantity than five hundred acres, or any lands or lots not granted in the usual forms of the Land Office, or lands not within the Indian purchase." The next general act for opening the Land Office for granting and disposing of the unappropriated lands within the State, passed April 1, 1784, 2 Sm. Laws, 102. The second section confined the acts of the offices of the Land Office, as to locations, warrants, patents, etc., to doing and performing these functions, "agreeable to the former customs and usages of the said offices." The sixth section directed that when the Indians should be satisfied for the unpurchased lands within the State, the surveyor-general should appoint district-surveyors, "for laying out all such lands within the said purchase as shall be found fit for the purpose of cultivation," etc. This was followed by the act of 3d April, 1792, granting the lands north and west of the Ohio and Allegheny rivers and Conewango creek, to settlers and to warrant holders. The ninth section provides that the holders of warrants shall cause them to be

settled and improved within two years after the date of the warrant. Two years later came the act of 22d April, 1794, forbidding application for unimproved lands in the new purchase. It was followed by the act of 22d September, 1794, prohibiting application for lands, except for such as had been or should be settled, grain raised and a person residing thereon. This current of legislation shows that the lands within the ordinary jurisdiction of the Land Office, were those granted upon application according to the usual forms of the office, and such as were fit for settlement and cultivation, and were not within the navigable streams. This is evidenced also by the exception of islands in the Susquehanna, Ohio, Allegheny and Delaware, in the 13th section of the act of 8th April, 1795, 2 Sm. Laws, 317, and by the description in the act of 3d April, 1792; the first section of which describes the land for appropriation as lying east of the Allegheny river, and the second section describes the land as lying west of the Allegheny river; in both instances excluding the river itself. In all this legislation we discover a fixed intent to open to general appropriation ordinary land outside of the navigable streams, and as a consequence no surveys were made across these streams. As to the smaller streams, it was different, the surveys often crossing them, and when laid along the margin, the law extended the title *ad flum aquae*: *Coovert vs. O'Connor*, 8 Watts, 470.

The case before us, therefore, does not fall within the ordinary jurisdiction of the Land Office, the land being within the acknowledged channel of the river, and the filling up arising from artificial means, and not by the slow process of natural deposit. The case is exceptional, and therefore requires a particular or special authority of law to open it to general or particular appropriation. No provision is made for such a case. The legal presumption from the *licus in quo* is that the land is still a part of the bed of the river, until some legal proceeding shall have established the contrary, and a law shall open it to private appropriation. Without this, the land officers who are ignorant of the peculiar circumstances of the case, may be betrayed into a grant of the river bed prejudicial to the rights of the public. To assume that the land is fast land and not subject to overflow at ordinary high water, might be to make a grant against the fact of the case. Such a case is not to be governed by the ordinary rule of appropriation, but like an escheat, or a forfeiture accruing to the Commonwealth, must be provided for by a law specially applicable to it.

Bagley vs. Wallace, 16 S. & R., 245.

Blain's Lessee vs. Crawford, 1 Yeates, 287.

Freytag vs. Powell, 1 Wharton, 536.

The land in question was, therefore, not subject to be taken up

under the warrant to Dunn and Poor, and the judgment must be affirmed.

In addition to the foregoing quotation, it will be noticed that the act of the 6th of March, 1793, provided for the taking out of patents on the islands in the Susquehanna river, or any of its branches, so far as such branches have been declared public highways, and provided a special proceeding aside from the ordinary practice of the Land Office, so far as taking up vacant lands was concerned, and placed a higher price upon the islands.

3 Smith, 94.

In the act of April 2, 1822, 7 Smith, 549, it was provided that no application should be received in the Land Office for any island in the river Susquehanna unless the same be at least four feet high above common low water, containing at least 40 perches of ground, exclusive of rocks.

Section 2 of the said act provided that any sand, gravel bars or accumulation of mud, in the river Susquehanna, which shall not come under the description of an island, as described the proceeding section, shall be construed as a public highway.

Then there was the act of January 27, 1806, 4 Smith, 268, authorizing the Land Office upon application to them made for a warrant of survey, to issue patents for any unappropriated islands in the rivers Delaware, Ohio or Allegheny, and any of their branches which are by law declared public highways.

The act of April 11, 1848, P. L. 533, provided for the granting of a warrant, or warrants for, not exceeding in quantity, 100 acres, to any one person who may apply for the same, for a patent upon the bed of any of the public navigable rivers of the Commonwealth, beginning at a point designated in the application at low water mark on the bank, or side of the river, and passing along the said at low water mark as far as designated, then at right angles across the river to low water mark; thence along the shore of said river at low water mark to a point opposite the place of beginning, and thence across the river to the place of beginning, authorizing the applicant, or warrantee to dig, and mine for iron, coal, limestone, sand and gravel, fire clay and other minerals, provided, that he, or they shall so exercise said right, as not in any way to interfere with free navigation of said river, or with the rights of any person or persons holding property on the banks thereof. Provided also, that nothing contained in the act should authorize any person to undermine the bed of the river, and providing that the act should not be so construed so as to affect any rights then vested under existing laws, and provided also that the Commonwealth might revoke said right at the end of twenty years. Following this on March 24, 1849, an act was passed, P. L., 225, supplementing the act of 1848, providing

that the said act should not be so construed as to grant any right or privilege whatsoever to the surface of the bed of any river, and providing that any rights acquired under said act shall be confined exclusively to sinking shafts, and mining beneath the beds of said rivers.

So that, as stated in the beginning of this brief, no authority ever existed in the Land Office for the granting of warrants to survey, or patents pursuant thereto, upon any part or parcel of the bed of a navigable river, prior to the passage of the act of July 15, 1897.

On the contrary, every decision of the courts was against the authority to issue such patents, and in almost every act of Assembly authorizing the patenting of vacant or unimproved lands within the Commonwealth of Pennsylvania, appears earmarks showing conclusively that the river bed below low water mark on a navigable river is not embraced within such act.

Even the act of 1874, under which defendants here claim, plainly indicates that such lands are excluded, for the reason that section 2 provides that no warrant shall issue for any tract or piece of land on which settlement is made, or which may be either in whole or part, cleared or fenced, or otherwise improved, used or occupied, and held by defined boundaries, unless such person or persons respectively should have made the settlement, clearing, fencing or improvement, their legal representatives or assigns upon the proof of ownership of such settlement or improved right; and if any warrant shall issue otherwise than as aforesaid, it shall be void.

The act of April 23, 1889, amending the act just quoted, provides further, that caveats presented by those who claim to have acquired title by virtue of a settlement and improved rights, shall not by reason of such, etc.; and also provides that settlement and improved rights shall only be acquired and recognized as such by an actual entry upon vacant land of the Commonwealth, with the manifest intention of making it a place of abode, together with the actual improvement of the land by clearing, and tilling the soil for the purpose of gaining a support thereby.

So that these quotations from the very act on which the defendant's application is based, and pursuant to which it is made, show conclusively that the river bed, or land embraced within the bed of the back channel of the Ohio river, is not vacant land within the sense or within the purview of the act of 1874, or its supplement, the act of 1889. But the act of 1897, entitled "An act in relation to patenting of lands lying within or along navigable rivers," clearly covers and authorizes the patenting of the back channel. The first section reads:

"That unpatented lands lying within any part or portion of any navigable river, and which part or portion of such river, by reason

of any obstruction, or otherwise, shall be incapable of use for purposes of navigation, and all unpatented strips or pieces of land lying between the navigable part or portion of any river, and other unpatented lands, or lands which may be patented, and which shall have heretofore fronted or abutted upon such river, shall be subject to warrant, survey and patent by the Commonwealth, at the same rate per acre, and except as herein provided, in like manner as any other public lands."

This clearly covers and describes the lands known as the back channel of the Ohio river. Prior to the passage of this act, no authority in law existed for the patenting of such land. It is conceded by the defendants that the land applied for has not, for three years or more prior to the application of Mr. Phillips for the survey thereof, been within any part or portion of the river, within or along which the same shall be situated, which shall have been used, or which shall have been susceptible to use for the ordinary purposes of navigation, and that said lands known as the back channel of the Ohio river, at the time of Mr. Phillips' application, were not within the navigable limits of the Ohio river, as the same has been fixed by act of General Assembly of the Commonwealth, or under authority of the United States.

As said at the beginning of this brief, the abutting property holders are not only equitably, but legally entitled to take the land through the application of Mr. Phillips.

Respectfully submitted,

D. J. KYLE, et al.,
vs.
R. A. PHILLIPS.

By Agreement.
Before Board of Property.

At regular meeting Thursday, November 22, 1900.
Supplemental Brief for R. A. Phillips' Application and in Reply to
that for D. J. Kyle et al.

Counsel for D. J. Kyle et al. have divided their argument into two
general heads, and we shall, in addition to the brief already sub-
mitted, answer them in their order.

1. It seems to us that the land applied for and in controversy in
this proceeding comes clearly within both descriptions and classes
of property mentioned in the act of 1897. As stated by counsel for
Kyle et al., it is clearly "unpatented land lying within a part of por-
tion of a navigable river, which part or portion of said river by reason
of obstruction or otherwise, shall be incapable of use for the pur-

poses of navigation." It is not only obstructed by two low bridges, but the residents and property owners of Neville township (Neville island), county of Allegheny, and State of Pennsylvania, were, by act of Congress, approved June 12, 1876 (Chapter 123 U. S. Statutes at Large, Vol. 19, page 58), authorized and empowered to close the channel on the south side of Neville island, "provided that the United States government should not be liable for any expenses incurred in the performance of said work or by reason thereof." Even Congress recognized the rights of the riparian owners in the back channel, and gave them alone the right to close it.

Counsel for Kyle et al., have framed a very ingenious argument against the riparian owners, but it is like the unsuccessful proof of an alibi. It does not break in the middle, but portions of the strip, if not all of the strip, lie between other patented land, belonging to riparian owners, and the navigable portion of the stream. The land applied for reaches the main channel at each end. It would do no more violence to the construction of the act of 1897 to say that the strip applied for lies between the land of every riparian owner on the back channel and the main channel at the ends of the strip, than the strained construction contended for by counsel for Kyle et al. Doubtless it was the purpose of the act of 1897 "to prevent the shore owner from being deprived of his river frontage" or right to reach the navigable portion of the stream from his land "which shall heretofore have fronted or abutted upon such river." To this end the act provided, "That every patentee of such lands or strips, or pieces thereof (covering all lands patentable under act of 1897), and all claiming under any patent or patents which shall be issued therefor, shall take and hold the same under and subject to all riparian rights pertaining thereto heretofore granted by virtue of any law of this Commonwealth."

No law of Pennsylvania is clearer than that which gives the riparian owner a right of way over the channels of any of its rivers, and though separate patents were applied for by each abutting owner on the back channel and patents granted to each, none could ever prevent his neighbor from access to the "navigable portion" of the Ohio river via the back channel, whether it be at the east or the west part of the back channel, where it strikes the "navigable portion."

But however little the act of 1897 may require as to notice to the abutting property owners on the back channel, it is clear that those owners abutting at the end of the land applied for come within the act, i. e., those at the foot of Neville island; those at the head of Neville island; those on the east shore of Davis island, and those in Coraopolis borough opposite the foot of Neville island. Their lands heretofore fronted or abutted on the Ohio river. (as did also those that now abut on the back channel), and the land applied for lies

between their lands and the respective navigable portions of the Ohio river which the lands in controversy touch.

To show that this is true, we quote the description in their application as follows:

“Beginning at a point in Stowe township on the southerly shore of the Ohio river where the dam from Davis island shore intersects said southerly shore of said river; thence northerly with the westerly line of said dam to a point on the southerly shore of Davis island; thence westerly with the southerly shore of Davis island to a point at the lower extremity of said island; thence eastwardly with the northerly shore of said island to a point at the end of the main dam on the northerly shore of said Davis island; thence westerly and nearly parallel with the north shore of the Ohio river to a point at the head of Neville island; thence westwardly and following the line of lands formerly the river bank of said channel on the southerly side of Neville island, which constitutes Neville township, to a point at the lower extremity of said Neville island or township; thence southwardly by a line at right angles with the last mentioned line of Neville township to a point in borough of Coraopolis on the southerly shore of the Ohio river; thence eastwardly following northerly line of the land of the townships of Robinson and Stowe, being the former river bank of said channel to the beginning, containing 400 acres, more or less.

No one can read that application in connection with the act of 1897, and with a survey of the property before him without recognizing at once the right at least of six owners to written notice of any application to take up the land described in the application.

The act of 1897 is not a curative act nor in the nature of a curative act.

The application of Kyle et al., standing alone, made under the act of 1874, and its supplement of 1889, was different from that under the act of 1897, in all of the following particulars, any one of which is absolutely essential to the issuance of a valid warrant:

1. It is accompanied by the affidavit of one disinterested witness, instead of that of “two disinterested freeholders.”

2. It does not certify as it should that the lands applied for, at date of application, “have not been for three years or more within any part or portion of the bed of the (Ohio) river within or along which the same is situate, which has been used or susceptible of use for the ordinary purposes of navigation.

3. It does not certify that the land applied for was not at the time of the application within the navigable limit of the Ohio river, as fixed by an act of the General Assembly of this Commonwealth or by or under the authority of the United States.

4. No written notice was given to those "owning lands so situated that the lands for which such application shall be made adjoin and lie between the land of such owner or owners and the navigable portion of any river."

These are all conditions precedent to the issuance of a valid warrant under the act of 1897. It is preposterous to ask the Board of Property to issue a patent under the act of 1897 upon the application filed by Kyle et al., under the act of 1874. Such freaks or mongrel titles have occasionally been issued in the administration of the laws of the Commonwealth, authorizing the patenting of land, through inadvertance or over-sight by the Board of Property, or when they were imposed upon, but none such have ever stood the test when the sun light of judicial decision was turned upon them. No principles of law are better settled than these:

1st. That the Board of Property are public agents with limited authority, and if they exceed the power given them by the act of Assembly in granting lands, their acts are void.

2d. That when lands are made patentable under certain prescribed forms and regulations, those forms and regulations must be strictly followed in order to vest title by patent.

3d. That a Board of Property is not a judicial tribunal, and are not bound to take judicial notice of the character of land applied for or the manner in which a patent shall issue, but if issued irregularly or without all conditions precedent having been complied with, their patent confers no title.

4th. That every applicant is bound to take notice of the law and all its requirements.

5th. That the State is not estopped by the Board of Property in issuing a warrant, accepting a return of the survey pursuant thereto, accepting the purchase money, and the issue of a patent. when any step required to be taken precedent to or in issuance of the warrant, acceptance of survey or patent, has been overlooked or neglected.

In support of this proposition, we quote liberally from the judicial decisions in these matters, all of which decisions are later in date than those cited as to titles by counsel for Kyle et al., and clearly overrule the principles contended for in the Brief for Kyle et al.

In *Hunter vs. Howard*, 10 S. & R. 243 (1823), where A sought to maintain title to an island where the law required an appraisement of the island to be made by three men before the issue of a warrant, B had made a previous application and had an appraisement made, but had neglected to complete his title and lost it. In A's application B's appraisement was used as the basis of a warrant to A.

Justice Duncan, delivering the opinion of the court in this case, among other things, says:

"The court are clearly of the opinion that the Land Office had no

authority to issue the warrant; that it vests no title in the warrantee, and that the occupants the defendants below could set up this defect. They could set it up if a patent had issued, much more could they do so where the legal title still remains in the State."

This Board possesses no judicial power; they are bare agents; their acts where they exceed their authority, void, like the acts of all other agents.

In *Bixler vs. Baker*, 4 Binn 213, even where title had been consummated by patent, it was decided, that every citizen interested in the land thus acquired, may contest the validity of the grant. The chief justice in that decision, observed, that the officers of the Land Office were public agents, with the power of granting lands in the name of the Commonwealth, not absolutely, but under the condition provided by law, of which condition every man was bound to take notice. And Mr. Justice Yeates, that the land officers had no authority to dispense with the provisions of a positive law, and whether the error sprung from ignorance, inadvertance, or misinformation it cannot conclude. The acts of Assembly give these officers all the authority they possess. They are public agents with a limited, not a general authority, and every one acquiring land, is bound to look to the power which grants it."

The applicant, before he is entitled to a warrant, must obtain the valuation of three men, appointed by the officers of the Land Office; this is a condition precedent.

To the same effect is *Bixler vs. Baker*, 4 Binney 213.

In this case Geo. Baker, the plaintiff, in the court of common pleas claimed under a warrant to Joseph Sellers, dated September 7, 1796, for 100 acres of land, including his improvement. On March 3, 1797, Sellers conveyed his right to Andrew Dixon, who on April 10, 1805, conveyed to Geo. Baker, to whom a patent was issued August 8, 1806. Jacob Bixler, the defendant, entered on the land and made a settlement prior to the issuing of Baker's patent, and defended himself under his possession and title by settlement. It became a question on the trial whether Joseph Sellers had made a settlement and resided on the land at the time of the obtaining his warrant.

The court below gave their opinion that the warrant, survey and patent given in evidence by the plaintiff were sufficient to vest in him a good and legal title without proof of any actual residence on the ground at the time of taking out said warrant.

To this opinion counsel for defendant excepted, and on appeal the decision was reversed, the court holding "that the officers of the Land Office are public agents entrusted with the power of granting lands in the name of the Commonwealth, not absolutely, but under the conditions prescribed by law, of which conditions every man was bound to take notice."

"He (Baker) was bound to know that if the warrant was obtained by fraud and imposition on the Commonwealth's officers, and that fraud should be discovered, the Board of Property had a right to refuse a patent." "It is true a patent was afterwards issued; but previous to it, Bixler had entered with a view of making a settlement, and he thereby acquired a right in case the warrant of Sellers was illegally issued."

It will be observed that in both of the last quoted cases, titles failed by reason of the fact that the acts authorizing the patenting of the land had not been followed, and a condition precedent to the issue of the patent or warrant had not been complied with, which rendered the warrant and the patent, both, absolutely void, and that the moment other applications were properly made and followed up, rights intervened which it was the duty of the Commonwealth to protect. In all cases in the reports, it is observed, where patents have been taken irregularly and a contest has ensued as between the title so proposed to be conferred and one regularly issued along every particular, pursuant to law, that the latter has been sustained, the former rejected. So, in the present case before the Board of Property, the application of Kyle et al. was filed July 17, 1894, and a warrant was issued September 3, 1894, directed to Charles Davis, Esq., surveyor for Allegheny county, which was never acted upon by the county engineer for upwards of five years. But the act of April 4, 1805, 4 S. L. 254, section 1, provides, "It shall be the duty of all persons now holding, or that may hereafter hold, unexecuted land warrants to file and enter them with the surveyors of the proper district within two years after the date of such warrants respectively, and on failure thereof, such warrant or warrants shall not have any force or effect against a warrant of later date nor against an actual settler on the lands called for in such unexecuted warrant."

The warrant to Kyle et al. may have been filed with the county engineer within two years; but certain it is that applicants were guilty of gross laches in the handling of their warrant. Before it had been returned to the office of the Secretary of Internal Affairs, a caveat was filed against its acceptance on the ground that it had been improvidently issued, and that the land applied for was not susceptible of patent under the act of 1874. These caveats were filed in December, 1899. It is now conceded by all interested in this controversy that the application and the issue of the warrant for a part of the river bed, under the act of 1874, were void.

On January 12, 1900, R. A. Phillips filed his application, under and pursuant to the act of 1897, authorizing the patenting of lands within and along the bed of navigable rivers. He paid the warrant fee, the patent fee, and the purchase money to the State. He gave notice of his application by publication, as required by law, accom-

panied it with an affidavit of two disinterested freeholders, as required by the act certified, as a part of his application, that the land applied for was not within the navigable limits of the Ohio river as fixed or established by any act of this Commonwealth or by the government of the United States, and that the land applied for had not been susceptible of use for the ordinary purposes of navigation within three years prior to the date of his application. He, also, pursuant to said act, served written notice on all holders of property abutting the land applied for, and has made and returned to the proper office of the State proof of publication of notice and of the service of his notice upon abutting property holders.

Certainly, in the light of the decisions already cited, his rights have intervened, unless the application of Kyle et al. was valid. We have already shown a number of reasons why that application was absolutely void, and we believe that we need not further pursue that branch of the argument.

In Wolfe vs. Reynolds, 80 Pa. 204, the same principle is enunciated by the court below and affirmed by the Supreme Court. The reasoning is so clear and the opinion so cogently put, both in the court below and as affirmed by the Supreme Court, and is so rich with citations, that we quote it. Judge Meyer, in his charge to the jury said:

“The defendant claims that, as at the time the title of the Benjamin Betterton was held by the Commonwealth and before the sale of it to Wm. McCoy, the Commonwealth had granted her warrant to Joseph Foresman, accepted the survey made in pursuance of said warrant, had issued her patent, both she and her grantees are estopped from setting up the title acquired under said sale. We do not assent to this proposition. The laws providing for the acquisition of title from the Commonwealth, by warrant, survey and patent, have reference to unappropriated land, and the officers charged with the execution of them have no authority whatever to grant titles to lands of any other description. As was said by Sharswood, J., in Wilson vs. Horner, 9 P. F. Smith 162: ‘The officers of the Land Office are public agents intrusted with the power of granting lands in the name of the Commonwealth, not absolutely, but under the conditions prescribed by law, which conditions every man is bound to take notice.’

“Per Tilghman, C. J., Bixler vs. Baker, 2 Binn. 219: ‘The officers of the Land Office are not proprietors of the land granted by them, that they can grant them without regard to quantity or price. The lands belongs to the State, and the Land Officers act only as the agents of the State in disposing of them, and are limited in their action by the authority granted to them in this behalf, so that if they grant lands belonging to the State in a manner not authorized

by law the grant must be considered void: *Kelly vs. Graham*, 9 Watts, 117. 'And where the State has made special provisions for the sale of land peculiarly situated either in respect to location or mode of acquisition, these special provisions must be pursued, and the general laws for the sale of unappropriated lands have no application:' *Straub vs. Dimm*, 3 Casey 37.

In *Skeen vs. Pearce*, 7 S. & R. 304, Duncan, J., says: "But lands which have been granted by the State, and which escheat and fall back to the State for want of heirs, alienage or forfeiture for treason, or any other cause, are not open for settlement or grant, as the common unappropriated land of the State.' *Blaine vs. Crawford*, 1 Yeates 290. For, as was truly observed by the court, the same law which vested the property in the State, qualified the sale of it, by the instrumentality of certain persons authorized for the specific purpose. Lands vested by forfeiture for treason, could not therefore be disposed of in the common term of vacant lands. Where the law prescribes the mode and manner in which rights to land accruing to the State, by reason of any default in the grantee, shall issue, that mode and no other must be pursued. In *Straub vs. Dimm*, Lewis, C. J., says: 'It follows that where the Commonwealth acquires title to land by alienage, by forfeiture upon an attain, by alienation in mortmain, or by escheat, her interest must be disposed of in the manner prescribed by the statutes relating to such estate, and cannot be acquired by warrant and survey in the ordinary mode.' Applying these principles to the title acquired under the Joseph Foresman warrant, and it is clear that it cannot prevail against the title acquired by William McCoy under his purchase of the Betterton tract of land. Section 5 of the act of Assembly of 10th March, 1807, after providing how the Commonwealth may acquire the title to the Nicholson lands, prescribes in what manner they shall be disposed of; 'and the land so purchased shall be disposed of in such manner as shall be hereafter directed by law.' And the act of the 28th of March, 1814, having prescribed the manner in which these lands were to be disposed of, and that mode having been pursued in the sale made to McCoy, the acts of the officers of the land office in granting a warrant to Joseph Foresman were in excess of their authority, were void, and conferred no title, for the reason that the land covered by the Foresman warrant had been previously appropriated by the Betterton warrant, and for the additional reason that the acts of Assembly in regard to the Nicholson lands had prescribed a specific mode of selling said lands and that mode must be pursued. * * * We instruct the jury to find a verdict for the plaintiffs."

The Per Curiam, by the Supreme Court, February 7, 1876, is as follows:

"The land in question was patented to John Nicholson in the year 1794. Hence it was no longer open to warrant and survey as unappropriated land under the laws and usages of the Land Office. When it was bought by the State under her claim against John Nicholson, it stood in a new relation as her property, and was subject to sale only under the laws providing for the sale of the lands of Nicholson. Instead of a patent in the ordinary form, the conveyance was required by the act of 1814, to be made by the Secretary of the Commonwealth, after the proceedings provided for in the act. Hence the warrant and survey to Foresman, and patent under which defendant claimed, were unauthorized and void. The Commonwealth was not estopped by them, for the title of Foresman was obtained by misrepresentations; that is to say, upon an application for unappropriated land. Had the officers of the Land Office been informed that the land had been John Nicholson's, and bought in by the State, no warrant would have been issued. Lands returning to the State by escheat, forfeiture or other proceeding investing her with title, are not governed in their disposition by the ordinary laws and usages regulating the Land Office. In addition to the cases cited on this point by the learned judge, the same question was decided recently in the case of Poor vs. McClure (27 P. F. Smith, 214), in which a warrant and survey had been laid upon a part of the bed of the Allegheny river. The charge of the court below appears to be free from error.

Judgment affirmed."

It will be observed that the case last cited was decided by the Supreme Court February 7, 1876, long after the passage of the act of 1874, and yet in this case the Supreme Court again reiterates the doctrine laid down in a long line of decisions that the bed of a navigable river cannot be appropriated or patented under the ordinary laws of the State for the patenting of vacant lands.

It is conceded by all that the land in controversy in this case was made patentable by the act of 1897, and that very act plainly indicates that it was in the mind of the Legislature that such land was not, prior to the passage of that act, subject to patent, for it says in so many words:

"Unpatented lands lying within any part or portion of any navigable river, etc., * * * shall be subject to warrant, survey and patent by the Commonwealth at the same rate per acre, and except as herein provided, in like manner as other public lands: Provided, that such lands or strips, or pieces thereof, hereby made subject to warrant, survey and patent, shall not have been, etc."

This language is so plain that one who runs may read, and is a complete answer to the elaborate argument put forth by counsel for Kyle et al. to the effect that after the passage of the act of Congress authorizing the inhabitants and property holders of Neville

township to close the channel, this land became vacant land subject to warrant, survey and patent under the then existing laws of the Commonwealth.

Besides this, we have the opinion delivered September 21, 1897, by the Deputy Attorney General of Pennsylvania, reported and published in 20 Pa. Co. Court, page 13; also in 6 District Reports, construing the act of July 15, 1897, in which, among other things, he says:

"The manifest purpose of the act is to provide a method of taking up lands which formerly could not be taken for the reasons that such lands were covered by navigable streams. * * * The second section provides that where the land about to be taken up has never been improved by settlement, has not been fenced or otherwise improved, the owner of land adjoining shall have the first right to purchase the same from the Commonwealth. * * * The act itself contemplates the giving of written notice to the adjoining land owner at the same time notice by advertisement of the application is given."

The case of *Weiser vs. Moody*, 2 Yeates 127, cited by counsel for Kyle et al., was decided by the lower court in 1796, fifteen years before the decision of *Bixler vs. Baker*, supra, by the Supreme Court, and twenty-seven years before the decision by the Supreme Court in the case of *Hunter et al. vs. Howard*, supra, and well-nigh a century before the decision of *Wolfe vs. Reynolds*, supra, and *Poor vs. McClure*, 77 Pa. 214. That was a controversy growing out of grants made by the proprietaries of Pennsylvania, and has no application, whatsoever, to cases arising before the Board of Property. The proprietaries held the fee, and, of course, where they, with notice, conveyed land to which they had no title, they, like any other individual, would be bound in equity to give title when afterward acquired. But, as we have already shown in our brief, the Commonwealth of Pennsylvania, acting through the Board of Property, its agents, are not estopped when those agents exceed their authority and make a grant not in conformity with the law authorizing the grant.

We respectfully submit these observations and the foregoing argument in connection with the brief heretofore printed and filed with the Department, and confidently believe, not only in law but as a matter of equity, that Mr. Phillips, an abutting property holder upon the land applied for and in controversy, the first applicant under the act of 1897, in his own right as to property in front of his own, and as trustee for all other abutting property holders upon the back channel of the Ohio river, is entitled to have his warrant issue, his survey made and returned, and his patent.

W. T. TREDWAY,
STEPHEN STONE,
Attorneys for R. A. Phillips.

The proceedings of the Board of Property on the 4th of December, relative to the determination of the questions at issue with reference to the back channel of the Ohio river, are as follows:

The Board then went into executive session and after having considered the testimony and briefs submitted, decided that the act of 1874 did not give the Secretary of Internal Affairs authority to issue the warrant which was granted to D. J. Kyle and others in 1894. It therefore directed that the Secretary of Internal Affairs grant a warrant to R. A. Phillips for himself and in trust for such other abutting owners as should recognize said Phillips as their trustee in order that such abutting owners may have secured to them the rights which were intended to be granted to them under the act of 1897, authorizing the granting of warrants for beds or portions of beds of navigable rivers. In the applications of Samuel D. Robison and T. J. Gillespie, who filed applications for that portion of the back channel of the Ohio river which lies opposite the property they own, the Secretary of Internal Affairs was directed to grant the said Samuel D. Robison and T. J. Gillespie warrants in pursuance of their applications.

Attest:

ISAAC B. BROWN,
Clerk.

From the proceedings published herewith it is not presumptuous to prophesy that the litigation growing out of the contentions of the different parties for title to the back channel of the Ohio river will command the attention of the best lawyers of the Commonwealth as well as the careful consideration of the courts. The ambiguity of the act of 1897 will no doubt be a source of much contention until it is repealed or some decision made by the Supreme Court regarding its validity. If public policy is to have its proper way in the administration of justice, the sooner the act of 1897 is repealed the better for the welfare of the Commonwealth. The contention in these cases not only shows that the Commonwealth is suffering from bad legislation with reference to such vacant lands as the State now owns, but it also shows that if these lands are to be disposed of the persons who acquire them should be required to pay a price in a measure at least commensurate with their actual value. If the back channel of the Ohio river is subject to warrant, survey and patent as vacant or unappropriated land, either under the act of 1874 or the act of 1897, there is no reason why the Commonwealth should not receive a fair consideration for the land. It is undoubtedly a valuable piece of property. It is assumed to be worth many thousands of dollars, and yet the State probably does not secure enough from it in purchase money to pay the expense of printing the proceedings of the Board of Property with reference to it. In view of the fact that the State has adopted the policy of purchasing lands for forest culture, it would seem that no further vacant land of the Commonwealth should be sold where it can be used for forest

culture, and certainly none should be sold unless a sum is received for it which will give the Commonwealth a fair return for the property conveyed by warrant, survey and patent.

Another important case that came to the attention of the Department and the Board of Property was one relating to the property alignments along Oil creek as it passes through the municipality of Oil City, a petition was received from the City Engineer and City Solicitor of Oil City, pursuant to action taken by the councils of that place, requesting the State to make a survey along the southern bank of the creek, with a view of ascertaining where the line of the original survey was located at the time of the location of the tract known as the "Cornplanter" tract. From the correspondence had it appeared that the property owners whose rights were acquired in pursuance of the warrant granted for the Cornplanter tract, were encroaching on the bed of Oil creek in erecting buildings, so that the buildings constructed would extend beyond the lines of the survey of the Cornplanter tract, and impede to a greater or lesser extent the flow of water through the channel of the creek, and also interfere with navigation therein. The following is a copy of the petition.

Oil City, Pa., September 20, 1899.

To Hon. James W. Latta, Secretary of Internal Affairs:

Dear Sir: In May last one of the property owners whose land abuts on Oil creek where it flows through the city of Oil City, requested councils of Oil City to make an alignment of Oil Creek so that it might be known where the boundaries were and to what point buildings could be erected. After investigation councils were informed that they had no power to make such an alignment, but that possibly the State could do so. A resolution was therefore passed by councils of said Oil City authorizing the city solicitor and city engineer to apply to the proper State officials and endeavor if possible to have a proper alignment of Oil Creek made.

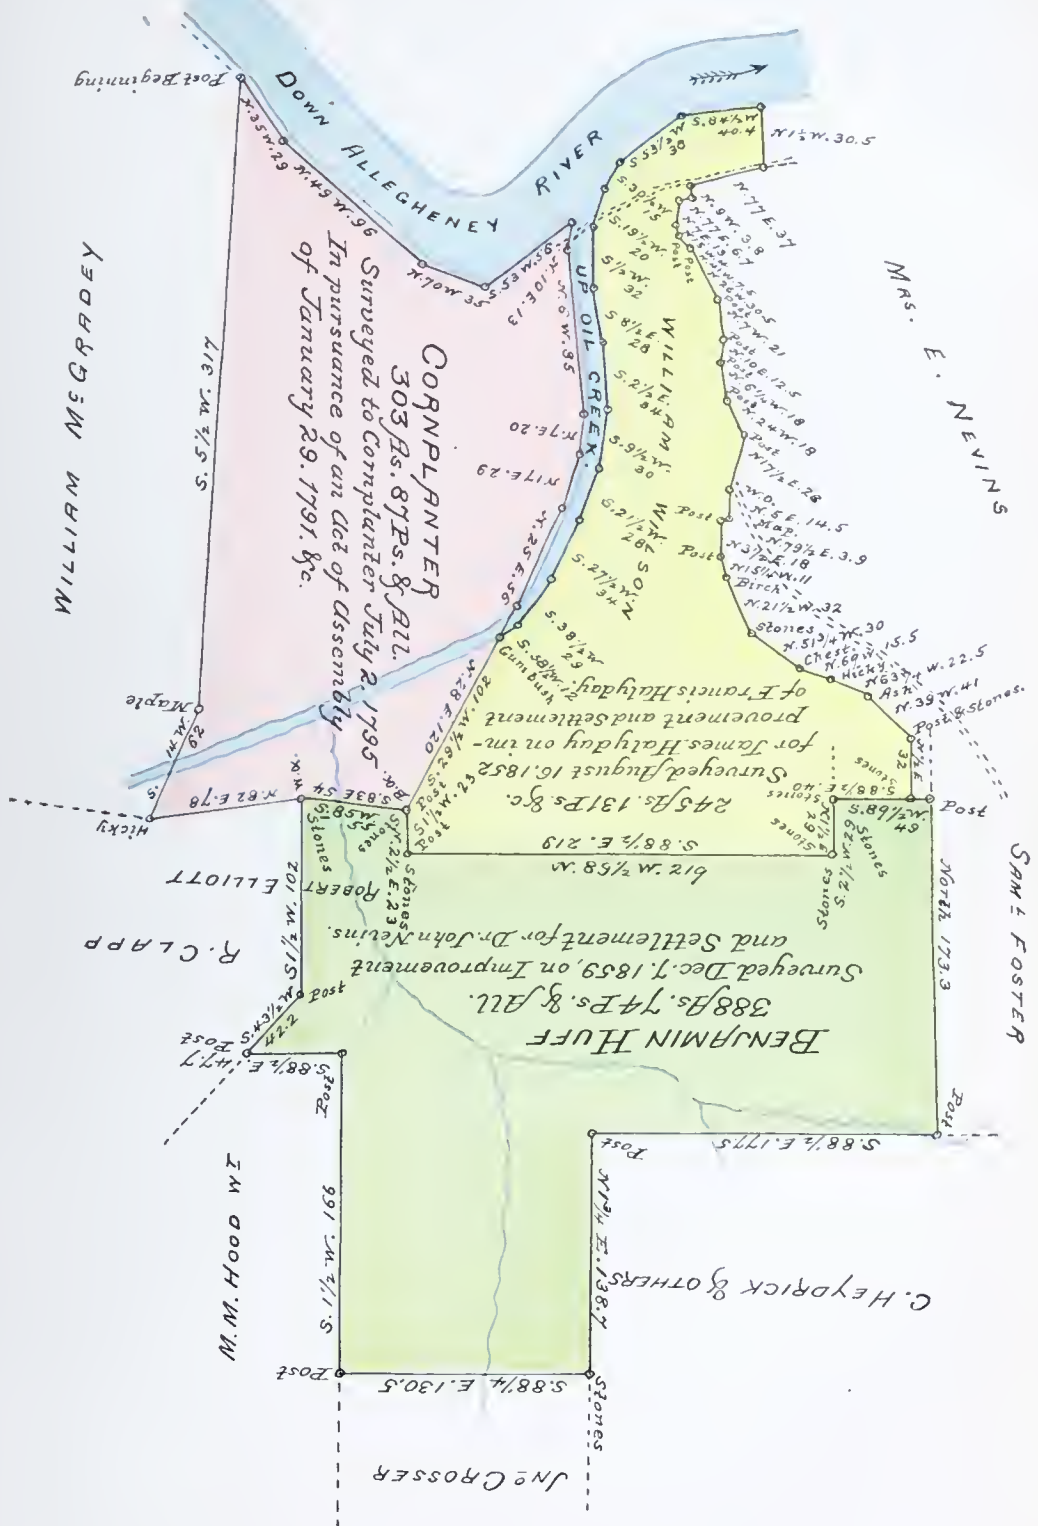

In pursuance of this instruction, we would, on behalf of the city of Oil City, respectfully request the Secretary of Internal Affairs to take whatever action may be possible and legal to have the alignment of said Oil creek established.

Very respectfully,

G. F. ROESS, City Engineer,

P. M. SPEER, City Solicitor.

As there seemed to be no specific authority for the Secretary of Internal Affairs to comply with the request of the petitioners that the lines of the original survey be relocated along Oil creek, the petition was referred to the Board of Property, accompanied by the following brief of authority cited, with a view of presenting to the Board the adjudications of our courts on questions that bear somewhat on the matter referred to in the petition:

BOARD OF PROPERTY.

Its powers are "to hear and determine in all cases of controversy on caveats, on all matters of difficulty or irregularity touching escheats, warrants on escheats, warrants to agree, rights of pre-emption, promises, imperfect titles, or otherwise, which may arise in transacting the business of the said Land Office." Act of April 5, 1782.

The owner of land on a navigable stream has no title in the water, but holds it subject to the right of the Commonwealth. *Fulmer vs. Williams*, 122 P. S. 191.

The low water mark of a navigable river which bounds a municipality is the limit of its jurisdiction. *Gilchrist's appeal*, 109 P. S. 600.

Between high and low water marks the public have right of way for the purposes of navigation, which includes all that is reasonably necessary for that purpose. *Purcell vs. Stover*, 110 P. S. 43.

Between high and low water mark upon a navigable river, the grantee takes subject to the rights due the public, and, as between him and the public, he may use his land below high water mark for such purposes as do not interfere with the free flow and navigation of the waters. *Fulmer vs. Williams*, 122 P. S. 191.

A riparian owner has no right to erect a wharf beyond low water mark. *Borough vs. The Geneva*, 3 Lancaster, 134.

Ordinary high water mark is the boundary of absolute title; ordinary low water mark, that of qualified right. *Hartley vs. Crawford*, 33 Leg. Int., 24.

The limit of a municipality, bounded by an navigable river, is low water mark of that river, unless express language to the contrary is used in the act of incorporation. *Gilchrist's Appeal*, 109 P. S. 600.

The ownership of land adjoining a navigable stream extends only to ordinary high water mark; beyond that the ownership of the soil will not authorize such use of it as will interfere with the use of the stream as a highway, or cause it to encroach upon other riparian owners. *Bailey vs. Miltenberger*, 31 P. S. 137.

Special warrant to Cornplanter for 1,500 acres, dated February 3, 1791, 339 acres and 87 perches at the mouth of Oil creek surveyed to him July 2, 1795. Patented March 9, 1796.

Oil creek, from the mouth up to the main fork, declared to be a public stream and highway for the passage of boats and rafts, by act of March 21, 1798. *Smith's Laws*, Volume III, page 320.

Oil creek, from the lower forks in Venango county, to the upper forks in Crawford county, a public highway, by act of March 10, 1810. *Smith's Laws*, Volume V, page 101.

The matter was presented to the Board of Property on the 22d of March, 1900, and the Board directed that it be referred to the Attorney General for his opinion. A record of the proceedings of the Board in this case may be found in Minute Book No. 11, page 660. With the communication and brief sent to the Attorney General, there was also sent a connected draft of the Cornplanter tract and other surveys in the immediate locality, in order that he might have presented to him the location of the tracts with reference to Oil creek as it passes through and between the tracts on its course to its confluence with the Allegheny river at Oil City. A copy of the draft is given herewith, together with a copy of the letter transmitting the papers to the Attorney General.

October 18, 1899.

Hon. John P. Elkin, Attorney General, Harrisburg, Pa.:

Dear Sir: I inclose herewith a letter from the city solicitor of Oil City, under date of July 22, 1899, and also a petition signed by G. F. Roess, city engineer, and P. M. Speer, city solicitor, dated September 20, 1899, praying that the State of Pennsylvania cause to be surveyed and established the line of the property owners abutting on Oil creek, within the city limits of Oil City. I also inclose a connected draft which shows the courses and distances of the tracts of land at the confluence of the Allegheny river and Oil creek; also briefs referring to some of the laws of the Commonwealth with reference to the ownership of land along navigable and non-navigable streams of the Commonwealth.

These papers are submitted to you for your opinion as to the authority of the State to act in the premises, and are so submitted in accordance with a resolution of the Board of Property, passed at a meeting held in the Executive Chamber, October 17, 1899.

Very truly yours,

ISAAC B. BROWN,
Deputy Secretary.

Under date of May 16, 1900, the opinion of the Attorney General was received. It reads as follows:

Office of the Attorney General,
Harrisburg, Pa., May 16, 1900.

Hon. Isaac B. Brown, Deputy Secretary of Internal Affairs:

Sir: I am in receipt of your Communication of recent date, enclosing petition, signed by the engineer and solicitor of the city of Oil City, in the county of Venango, asking that the State of Pennsylvania cause to be surveyed and established the line of property owners abutting on Oil creek within the limits of said city. Your inquiry raises the question of the authority of the Commonwealth of Pennsylvania to make an alignment of the public streams, as suggested in the petition under consideration.

So far as I am informed, the State has not heretofore been called upon to exercise such authority. I am not familiar with the provisions of any act of Assembly which authorizes or requires the Commonwealth to make the alignment of public streams in the manner suggested. In the absence of legislation expressly authorizing the State to make such a survey, and designating the proper officers to make the same, it is my opinion that such a survey cannot be made for the purpose of making an alignment of the streams in question. It may be that the interests of the public and private owners would be better conserved by having the property lines of public streams ascertained in the manner suggested by the petition enclosed for our consideration, but it will be necessary for the Legislature to pass the proper legislation to enable such alignments to be made.

The Legislature has at different times conferred authority of this kind in special jurisdictions. The act of 16th April, A. D. 1858 (P. L. 326), provided the method of establishing high and low water lines in the Allegheny, Monongahela and Ohio rivers in the vicinity of Pittsburg. The courts of the county of Allegheny were therein authorized to appoint three discreet and disinterested freeholders as commissioners for the purpose of making a survey and fixing high and low water marks. If it was necessary for the Legislature to pass an act to authorize the appointment of a commission for the purpose of fixing high and low water marks in the streams named, it would seem to follow that it would be necessary for the Legislature to pass similar acts to cover the other public streams of the Commonwealth, if it is deemed expedient to have the high and low water marks properly defined.

Up to this time all these questions have been adjudicated by the courts in the respective counties in proceedings instituted by private individuals or in the interest of the public. It seems to me that the local authorities, by proceedings in equity, can have all questions in dispute investigated and determined. There is no State officer invested with the power to make or cause to be made a survey such as is contemplated in the petition which you have submitted for the consideration of this Department. It is my opinion, therefore, and so I advise you, that, in the absence of legislative authority, we are unable to grant the prayer of the petitioner and cause the survey to be made.

Very respectfully,

JNO. P. ELKIN,
Attorney General.

In the opinion of the Attorney General there is a suggestion that legislation is necessary to enable any of the State officials to establish the line of the original survey along any of the public streams of the Commonwealth. A very important question is involved in this suggestion. It is important for the reason that the title to the beds of streams that are navigable or that have been declared public highways, remains in the Commonwealth, and yet in every locality where cities or boroughs are built along these public streams there is a disposition to encroach on the beds of the stream in the construction of new buildings. In other words, there is a disposition to extend the property rights beyond those established by the surveyor when the original lines were run on the ground. There are two valid objections to such action on the part of property owners. First they are attempting to acquire property that does not belong to them, but which belongs to the State, and second, by building on the bed of the stream they are preventing the natural or free flow of water. If this encroachment were carried to the extent it might be,

by filling in the bed of the stream, it would sooner or later result in great loss of property in time of flood, as the bed of the stream would be too narrow to carry off the excess of water. In view of the serious questions thus involved it would seem entirely proper that the Legislature should provide that authority be given to the Land Bureau of this Department to establish the lines of original surveys along public streams, in order that the present owners may not encroach upon the property of the State and by so doing destroy the freedom of navigation or the natural flow of water in the streams.

Boundary Lines.

The Legislature at its session in 1899 made provision for the resurvey of the boundary line between the State of Pennsylvania and Maryland, known as the Mason and Dixon Line. The appropriation was made contingent upon the co-operation of the State of Maryland, and was not to be available unless that state made a similar appropriation to carry on the work of resurveying and relocating the line and replacing and resetting whatever monuments might be found to be out of place. The state of Maryland passed legislation not only requiring co-operation in the resurvey, but also providing for a conference with the Superintendent of the United States Coast and Geodetic Survey with reference to the work. Pursuant to this action a conference was held in Washington and an agreement effected by which the resurvey of the line, the resetting of the monuments that had been displaced, and the furnishing of new ones where none had ever been placed, should be done under the direction of the United States Coast and Geodetic Survey. The work was commenced during the year, but will not likely be completed before the fall of 1901. The agreement entered into between the two States and concurred in by the Superintendent of the Coast and Geodetic Survey is as follows:

Agreement for the Examination, Repair, Replacing and Erection of Monuments on the Boundary Line Between the States of Pennsylvania and Maryland.

Whereas, The act of the General Assembly of the Commonwealth of Pennsylvania, approved the 4th day of May, A. D. 1889, empowers and directs the Department of Internal Affairs of the said Commonwealth to co-operate with the proper authorities in adjoining states in the examination, repair and replacing of the boundary line monuments and in the resurvey of the boundary line between Pennsylvania and any adjoining state, and in conjunction with such authority in adjoining states to procure and erect new monuments whenever found necessary, and

Whereas, Under chapter 745 of the enactments of 1900 of the General Assembly of the state of Maryland, and by virtue of appointment, made on the 6th day of June, 1900, by Hon. John Walter Smith, Governor of said state, Dr. William B. Clark is given similar power and direction with reference to the examination, repair and replacing of the monuments on the boundary line between the states of Pennsylvania and Maryland, known as the Mason

and Dixon Line, and is also authorized to co-operate with the proper authorities in Pennsylvania in all matters pertaining to the examination, repairing and replacing of said monuments, and in the resurvey of said boundary line, and in the furnishing and erection of new monuments when necessary, and

Whereas, From satisfactory information it has been ascertained that several of the monuments located on the line between the states of Pennsylvania and Maryland, known as the Mason and Dixon Line, have been displaced, others partially mutilated or destroyed, and further, that in some of the mountain regions no monuments were ever erected (the line being marked only by stone heaps or earth mounds), from which it appears that the public interests in both states will be conserved by the examination, repair or replacing of the monuments now in position, and by the furnishing and erection of new monuments at points where none have ever been erected, and

Whereas, Under authority given in the state of Maryland, by the law referred to, direction is also given the Commissioner appointed from that state to co-operate with the Superintendent of the United States Coast and Geodetic Survey in the examination and repair of said monuments and the resurvey of said boundary line, and

Whereas, A meeting was held in the city of Washington, D. C., on the 17th day of July, A. D. 1900, at which there were present Dr. H. S. Pritchett, Superintendent of the United States Coast and Geodetic Survey; Dr. William B. Clark, representing the State of Maryland, and Major Isaac B. Brown, Deputy Secretary of Internal Affairs, representing the State of Pennsylvania, at which it was agreed that the United States Coast and Geodetic Survey, under the direction of the Superintendent, Dr. H. S. Pritchett, should execute the work as authorized by the laws of the two states hereinbefore referred to.

Therefore, The undersigned acting in conformity with the authority as hereinbefore stated, have agreed and by these presents do hereby agree on this ninth day of August, A. D. 1900, that the United States Coast and Geodetic Survey, under the direction of its Superintendent, Dr. H. S. Pritchett, be empowered and is hereby empowered to examine the boundary line monuments that mark the location of the boundary line between the States of Pennsylvania and Maryland, and shall, wherever monuments are found mutilated or displaced, exercise its discretion in the repair and replacing of such monuments; and wherever any of the monuments have been removed from their proper location and cannot be recovered, or where it shall be found that no monuments were ever erected at the points at which it is clear that they were intended to be placed by Mason and Dixon, who surveyed and established said boundary line, then it is agreed that new monuments shall be procured and erected at the proper positions; and the necessary authority is hereby conferred to make effectual this agreement.

It is further agreed, That all surveying, expense or work is hereby authorized which in the opinion of the Superintendent of the said Coast and Geodetic Survey shall be necessary to make effectual the laws of the two states in interest, with reference to the erection of monuments in the place of those which may have been removed, or in determining the location of those to be erected where none have heretofore been erected.

It is further agreed, That if any of the monuments can now be found which were prepared to mark the location of the line, but which were never placed in position, all legal means possible shall be employed to secure possession of such monuments and have them properly erected instead of procuring new ones.

It is further understood and agreed, That the duties imposed by the laws herein referred to and conferred under this agreement shall be discharged as

speedily as practicable, or as may be consistent with a proper execution of the work provided for.

It is further understood and agreed, That all services rendered by the Superintendent of the said United States Coast and Geodetic Survey, or by those designated under his authority, shall be rendered without cost to either of the states that are parties to this agreement; but all necessary expenses incurred in prosecuting the work, including commutation of subsistence and traveling expenses of the Coast and Geodetic Survey officer engaged on the work, or in furnishing necessary materials, shall be borne equally by the two states in interest; said expenses to be accounted for in verified vouchers, and so far as practicable supplemented by receipted vouchers from parties to whom disbursements have been made, and duplicate vouchers, one for each state.

It is further understood and agreed, That such assistant surveyors may be employed to act with the representatives of the United States Coast and Geodetic Survey as shall be agreed upon by the parties representing the two states in interest; their compensation to be agreed upon and borne by the two states respectively.

It is further understood and agreed, That upon the completion of the duties imposed by the law authorizing the examination of the boundary line monuments and the resurvey of the boundary line, the Superintendent of the United States Coast and Geodetic Survey shall make, or cause to be made, a report in duplicate for the approval of the parties representing the two states in interest, and that said report shall embrace the details of all the work done upon the said boundary line or its monuments, and inter alia shall show the condition of the monuments, fully describe the character and location of the new ones, and shall include any other matter that in the opinion of the said Superintendent may be of interest to the people of Pennsylvania and Maryland.

In testimony whereof, James W. Latta, Secretary of Internal Affairs of Pennsylvania, has hereunto set his hand and caused the seal of said Department to be affixed at Harrisburg on the tenth day of August, A. D. 1900; and the said Dr. William B. Clark, for and on behalf of the state of Maryland, under the authority given him, has hereunto set his hand on the ninth day of August, A. D. 1900.

(Seal.)

JAMES W. LATTA,
Secretary of Internal Affairs of Pennsylvania.

(Seal.)

WILLIAM B. CLARK,
Commissioner, State of Maryland.

Office of the United States Coast and Geodetic Survey, Washington, D. C.,
August 9, 1900.

Under the authority conferred by the act of the Legislature of the state of Maryland, and in compliance with the within agreement made and entered into by and between the States of Pennsylvania and Maryland, I, H. S. Pritchett, for and in behalf of the United States Coast and Geodetic Survey, hereby agree, on the part of the said Survey, to discharge the duties imposed by the laws with reference to the boundary line between the State of Pennsylvania and Maryland, and to execute the work skilfully and promptly.

HENRY S. PRITCHETT,
Superintendent United States Coast and Geodetic Survey.

Names and Dates of the Erection of the Several Counties of the Commonwealth of Pennsylvania and the Territory from which they were Formed.

The first three counties which were formed, to wit: Philadelphia, Bucks, and Chester, were established at the first settlement of the Province of Pennsylvania.

1. Adams, January 22, 1800, formed of a part of York.
2. Allegheny, September 24, 1788, formed of parts of Westmoreland and Washington.
3. Armstrong, March 12, 1800, formed parts of Allegheny, Westmoreland and Lycoming.
4. Beaver, March 12, 1800, formed of parts of Allegheny and Washington.
5. Bedford, March 9, 1771, formed of a part of Cumberland.
6. Berks, March 11, 1752, formed of parts of Philadelphia, Chester and Lancaster.
7. Blair, February 26, 1846, formed of parts of Huntingdon and Bedford.
8. *Bradford, February 21, 1810, formed of parts of Luzerne and Lycoming.
9. Bucks, one of the three original counties of the Province, 1682.
10. Butler, March 12, 1800, formed of a part of Allegheny.
11. Cambria, March 26, 1804, formed of parts of Huntingdon, Somerset and Bedford.
12. Cameron, March 29, 1860, formed of parts of Clinton, Elk, McKean and Potter.
13. Carbon, March 13, 1843, formed of parts of Northampton and Monroe.
14. Centre, February 13, 1800, formed of parts of Mifflin, Northumberland, Lycoming and Huntingdon.
15. Chester, one of the three original counties of the Province, 1682.
16. Clarion, March 11, 1839, formed of parts of Venango and Armstrong.
- 17. Clearfield, March 26, 1804, formed of parts of Northumberland, Huntingdon and Lycoming.
18. Clinton, June 21, 1839, formed of parts of Lycoming and Centre.
19. Columbia, March 22, 1813, formed of a part of Northumberland.
20. Crawford, March 12, 1800, formed of a part of Allegheny.
21. Cumberland, January 27, 1750, formed of a part of Lancaster.
22. Dauphin, March 4, 1785, formed of a part of Lancaster.
23. Delaware, September 26, 1789, formed of a part of Chester.

*Previous to March 24, 1812, this county was called Ontario, but its name was changed to Bradford on that day.

24. Elk, April 18, 1843, formed of parts of Jefferson, Clearfield and McKean.
25. Erie, March 12, 1800, formed of a part of Allegheny.
26. Fayette, September 26, 1783, formed of a part of Westmoreland.
27. Forest, April 11, 1848, formed of parts of Jefferson and Venango.*
28. Franklin, September 9, 1784, formed of a part of Cumberland.
29. Fulton, April 19, 1850, formed of a part of Bedford.
30. Greene, February 9, 1796, formed of a part of Washington.
31. Huntingdon, September 20, 1787, formed of a part of Bedford.
32. Indiana, March 30, 1803, formed of parts of Westmoreland and Lycoming.
33. Jefferson, March 26, 1804, formed of a part of Lycoming.
34. Juniata, March 2, 1831, formed of a part of Mifflin.
35. Lackawanna, August 21, 1878, formed of a part of Luzerne.
36. Lancaster, May 10, 1729, formed of a part of Chester.
37. Lawrence, March 20, 1849, formed of parts of Beaver and Mercer.
38. Lebanon, February 16, 1813, formed of parts of Dauphin and Lancaster.
39. Lehigh, March 6, 1812, formed of a part of Northampton.
40. Luzerne, September 25, 1786, formed of a part of Northumberland.
41. Lycoming, April 13, 1795, formed of a part of Northumberland.
42. McKean, March 26, 1804, formed of a part of Lycoming.
43. Mercer, March 12, 1800, formed of a part of Allegheny.
44. Mifflin, September 19, 1789, formed of parts of Cumberland and Northumberland.
45. Monroe, April 1, 1836, formed of parts of Northampton and Pike.
46. Montgomery, September 10, 1784, formed of a part of Philadelphia.
47. Montour, May 3, 1850, formed of a part of Columbia.
48. Northampton, March 11, 1752, formed of a part of Bucks.
49. Northumberland, March 21, 1772, formed of parts of Lancaster, Cumberland, Berks, Bedford and Northampton.
50. Perry, March 22, 1820, formed of a part of Cumberland.
51. Philadelphia, one of the three original counties of the Province, 1682.
52. Pike, March 26, 1814, formed of a part of Wayne.
53. Potter, March 26, 1804, formed of a part of Lycoming.
54. Schuylkill, March 1, 1811, formed of parts of Berks and Northampton.
55. Snyder, March 2, 1855, formed of a part of Union.
56. Somerset, April 17, 1795, formed of a part of Bedford.
57. Sullivan, March 15, 1847, formed of a part of Lycoming.
58. Susquehanna, February 21, 1810, formed of a part of Luzerne.

*Part of Venango added by act approved October 31, 1866.

59. Tioga, March 26, 1804, formed of a part of Lycoming.
60. Union, March 22, 1813, formed of a part of Northumberland.
61. Venango, March 12, 1800, formed of parts of Allegheny and Lycoming.
62. Warren, March 12, 1800, formed of parts of Allegheny and Lycoming.
63. Wayne, March 21, 1798, formed of a part of Northampton.
64. Washington, March 28, 1781, formed of a part of Westmoreland.
65. Westmoreland, February 26, 1773, formed of a part of Bedford, and in 1785 part of the purchase of 1784 was added thereto.
66. Wyoming, April 4, 1842, formed of a part of Luzerne.
67. York, August 19, 1749, formed of a part of Lancaster.

A communication was addressed to this Department by the Governor of the Commonwealth, under date of December 1, 1900, asking for a summary of the work of the Department, and also suggestions as to needed legislation. The reply to this communication covers nearly every branch of the work of the Department and is submitted herewith:

Department of Internal Affairs,
Harrisburg, Pa., December 18, 1900. .

Hon. William A. Stone, Governor of the Commonwealth:

Sir: In compliance with your letter of December 1st, in which you ask for a summary of the report of this Department, together with suggestions as to additional legislation, etc., I beg to state that the Department, under existing laws and regulations, is divided into Bureaus, as follows: Land Office Bureau, Bureau of Boundary Lines and Boundary Line Monuments, Bureau of Assessments and Taxes, Bureau of Industrial Statistics, Bureau of Railways, Bureau of Vital Statistics, Bureau of State Weather Service, and Bureau of Mines.

With reference to these Bureaus I have the honor to submit the following statement:

LAND OFFICE BUREAU.

Preservation of Records.

The Land Office Bureau contains the records of the titles of lands that have been conveyed by the Commonwealth of Pennsylvania and by the proprietaries, from the time the Land Office was established under the proprietaries, down to the present time. The preservation of these records is of very great importance to every land owner within the limits of the Commonwealth, as their destruction would amount to a calamity, and in view of the fact that in the construction of the new capitol, as now designed, the building containing

these records is to be taken down, the Secretary of Internal Affairs desires to impress upon the Legislature, and those who may have charge of the construction of the new building, the necessity of providing the most perfect apartments that can be constructed for the protection of these records from fire. No one but those who have been engaged in ejectment cases can realize how exceedingly important are the applications, warrants, surveys and patents relating to the lands within the Commonwealth, and also how indispensable to the proper consideration of land titles is the preservation of the records of the Board of Property, all of which are now in the building occupied by the Department of Internal Affairs. It is remarkable that these records which pertain not only to the Commonwealth but to the province of Pennsylvania also, have so far been preserved from destruction by fire. The Secretary of Internal Affairs desires to urge with all emphasis possible the necessity for making provision for the preservation of not only the land title records, but other ancient and valuable records now in the Department, in order that in the construction of the new capitol provision shall be made for the proper care and preservation of these documents.

Board of Property.

The Board of Property is composed of the Attorney General, Secretary of the Commonwealth and Secretary of Internal Affairs, and has authority to investigate disputes arising with reference to the regularity of original titles and to pass upon applications made for vacant land where caveats are filed against the granting of the warrants, acceptance of the surveys or the issuing of patents. Since 1792 the findings of the Board of Property with reference to the granting of patents have not been considered as final, as the act of that year gave the defeated party the right to commence an action of ejectment in the county wherein the land in question was situated, provided the action should be commenced within six months from the determination of the questions at issue by the Board. This was a wholesome provision, because it gave the defeated party a right to appeal to the courts of the Commonwealth to further test the justice of his claim. Under the act of 1874, regulating the granting of warrants, no provision was made for the defeated party to appeal from the decision of the Board of Property or to commence an action of ejectment in the courts of the Commonwealth. In other words, it has been considered that the findings of the Board on an application for a warrant to survey vacant land are final.

It is respectfully recommended that the existing laws be so far amended that the defeated contestant before the Board of Property on an application for a warrant may be placed on the same grounds

with reference to an appeal from the decision of the Board, or the commencing of an action of ejectment, as the defeated contestant in the matter of a controversy before the Board concerning the granting of a patent.

Price of Vacant Land.

Any one discovering vacant land within the Commonwealth may make an application for a warrant to have it surveyed, pay the State at the rate of twenty-six and two-thirds cents per acre, without regard to its actual value, and if there be no contest before the Board of Property by any other person claiming to own the land, or claiming pre-emption rights thereto, the applicant can secure a warrant and patent from the Commonwealth giving him an indefeasible title to the land. If the application be for an island in any of the navigable streams of the Commonwealth the process of securing title is somewhat different. Upon application being made for an island, the Secretary of Internal Affairs is authorized to appoint three appraisers to make an examination of the island and determine its value per acre. The amount thus determined is paid by the applicant, and the State in such cases receives compensation that in a degree at least approaches to the actual value of the land. In the case of an application for vacant land, however, the land may be worth a thousand dollars an acre, but the State can demand only twenty-six and two-thirds cents. In view of the fact that the State has recently passed legislation providing for the establishment of forestry reservations and is purchasing land throughout the Commonwealth, with a view of cultivating forests, it is suggested that the present laws regulating the granting of warrants for vacant land be so far amended that the Secretary of Internal Affairs have the right to decide whether or not it is desirable that the State should sell the land applied for under these applications, and that in case he shall decide that it is advisable to sell it, he shall have the power to appoint appraisers to determine its value and the applicants shall be required to pay the price so fixed before the title of the Commonwealth shall be granted. In this way lands that are discovered to be vacant would not pass from the ownership of the Commonwealth without the Commonwealth receiving therefor consideration in some degree commensurate with their value.

Boundary Line Monuments.

Under existing laws the Secretary of Internal Affairs is required to co-operate with the proper authorities in adjoining states for the examination of the boundary line monuments, the resurvey of the boundary lines and the resetting of old monuments and placing in

position of new monuments, when found necessary. Under this law the monuments between the States of New York and Pennsylvania were examined during the year covered by this report, and the results of the examination are published in Parts 1 and 2 of the Department reports.

The Legislature at its session of 1899 made an appropriation of \$5,000 for the examination and resurvey, where necessary, of the Mason and Dixon Line, and for the furnishing of new monuments where earth mounds or stone piles had heretofore marked the location of the line. A conference was held with the State Geologist of Maryland in June, 1899, and an agreement was subsequently effected whereby the work of examination and resurvey of this line was to be done by the United States Coast and Geodetic Survey. This work will not be completed until some time next year, when a detailed report will be published in the annual report of the Department.

Bureau of Assessments and Taxes.

The county commissioners of each county are required to make a report to the Secretary of Internal Affairs of the number of taxables in each assessment district, number of acres of cleared land, number of acres of timber land, value of all real estate, value of real estate exempt from taxation, value of real estate taxable, number and value of horses, mares, geldings and mules, number and value of neat cattle, value of salaries and emoluments of office, aggregate value of all property taxable for county purposes, aggregate amount of county taxes assessed, amount of money at interest, value of stages, omnibuses, hacks and cabs, aggregate value of property taxable for State purposes, aggregate amount of State tax assessed and the debt of each county. The commissioners under the act of 1889 are required to make a separate return of the amount of taxes collected for the support of the poor, the amount collected for the construction and repairs of streets, roads and bridges, the amount collected for the common schools and school purposes and the total amount of taxes collected for all purposes. They are also required to secure from each assessment district the amount of taxes collected on personal property, the amount collected on occupations, the amount collected on licenses, the amount collected on real estate of railway corporations, the amount collected on real estate of corporations other than railway. When the information from all the assessment districts is secured by the county commissioners, they are required to make a return of the same to the Secretary of Internal Affairs. These data are consolidated and published in Parts 1 and 2 of the Department report. One portion of this law needs amendment. It relates to the number of acres of

cleared and timber land. The data now obtained are unreliable, for the reason that there are but two classifications of land, cleared and timber, when there should be at least three. Where the valuable timber has been removed from the land, and the land is not devoted to farming purposes or grazing purposes, it can hardly be designated as cleared or timber land. Some assessors classify it as timber land and others as cleared land. The data therefore returned are not reliable. In other respects however the data obtained from these reports are of value on questions of taxation, as they enable the taxing power to arrive at a fairly accurate idea of the equities or lack of equities that exist in our tax laws.

BUREAU OF INDUSTRIAL STATISTICS.

The annual report of the Bureau of Industrial Statistics of the Department of Internal Affairs for the calendar year ended December 30, 1900, is necessarily not yet published, but the report for 1899 is remarkable in its enormous figures covering the production of Pennsylvania's leading industries.

The production of pig iron alone was shown to be 6,542,998 gross tons, or within about 30 per cent. of the entire production of Great Britain. The production in the United States was 13,620,703 gross tons. The report shows the increase in the production of pig iron on the part of Great Britain for the past five years to have been a little over 25 per cent., while it shows the increase on the part of the United States to have been over 100 per cent. The realized value of this production of Pennsylvania was \$98,203,803.

The report shows Pennsylvania to have produced 6,446,159 gross tons of crude steel of all kinds, which was 60 per cent. of the entire production of the United States, and about 29 per cent. in excess of the production of Great Britain. The increase on the part of the United States is shown to have been 141 per cent., while the increase on the part of Great Britain was but 55 per cent.

The report further shows Pennsylvania to have produced 7,093,485 net tons of iron and steel rolled into finished form, 28 per cent. of an increase over 1898, and 89 per cent. of an increase over the production of 1896. The realized value of this unprecedented production was \$233,377,126.

Pennsylvania had 21 black plate tin works in operation during 1899, 18 of which turned out a tinned product. The aggregate of black plate for tinning is shown to have been 368,600,734 pounds. The total production of tin plate turned out in Pennsylvania was 331,082,734 pounds, an increase over her production in 1896 of 137 per cent. This production was about 37 per cent. of the entire production of the United States. A further analysis of the report shows

the increase in tin plate production in the United States since 1894 to have been 435 per cent.

In addition to the census of these leading industries narrated, the Bureau made a practically complete census of the cotton and wool manufacture, in which it shows 180,441,351 pounds of a cotton product, and 172,795,284 pounds of a woolen product. The aggregate value was \$116,850,782.

The report also presents two comparative series tables, the so-called 1892 and 1896 series, which continue from year to year. In these two series 137 industries are represented and 1,209 establishments. Comparison is made year by year of the same establishments as to days of operation, persons employed, the aggregate of wages paid, the yearly earnings, the daily wage and the market value of the production, and as a barometer of the business pulse these tables have proved of great value.

A complete census is made by this Bureau each year of pig iron, steel, iron and steel rolled into finished form, and tin plate, and the same information is set forth as in the comparative series tables; and in addition thereto some new important industry is added for each year as in the case of cotton and wool for 1899. The silk industry was taken up and fully treated in 1898, and for the year 1900 glass manufacture in all its branches will receive like exhaustive treatment.

For the efficiency of its publications this Bureau was awarded a gold medal at the Paris Exposition.

BUREAU OF RAILWAYS.

The reports of about 1,000 corporations were filed in the Bureau of Railways for the year ending June 30, 1900, including steam railways, street railways, telegraph, telephone and canal companies. These reports relate to the capitalization, funded and unfunded indebtedness, cost of road or line and equipment, value of property owned, income from operations and other sources, expenditures of operation, other expenses, dividends paid, etc. The reports give in detail the physical condition of the roads, the ownership, the number of cars, both passenger and freight, and the condition of the roadbed, the number of employes, their classification and per diem and annual wages paid, the number of passengers carried, the tonnage, the average distance of the haul of passengers and the average distance of the haul of freight, the cost per ton per mile for carrying freight and the receipts per ton per mile for carrying freight. A full account is also given of all accidents, fatal and non-fatal, to passengers, employes and other persons. A classification is made of the kinds of freight carried, whether the products be of agriculture, forest

or mines. All the data thus collected have been compiled by the Bureau of Railways and arranged in convenient and comprehensive form and are in the hands of the printer. The reports will be ready for distribution about the 15th of January.

The railway report covers interests of great magnitude. The Bureau of Railways is also required to make investigation of any complaints that may be made against common carriers for violation of the laws of the Commonwealth regulating the affairs of such corporations. Few complaints have been made during the year, and it may be assumed that the Constitution and the law of the Commonwealth, by which supervision is exercised over these corporations, are being fairly well obeyed. That portion of the report relating to accidents appeals with much force to the law making power of the Commonwealth. The accidents to passengers, employes and other persons on the steam and street railways numbered 21,357. Of this number 2,636 were fatal, and 18,721 non-fatal. A large percentage of these accidents no doubt resulted from carelessness, but many were caused by a lack of safety appliances and many occurred at grade crossings. The grade crossing is looked upon as one of the most prolific causes of the destruction of human life in the operation of the steam and street railways. The National Congress has passed laws requiring the use of safety appliances on the cars used in interstate traffic, while Massachusetts, Connecticut, New York and other states have passed laws prohibiting grade crossings in new construction of steam and street railways, and providing also for the expense of eliminating grade crossings already constructed. The expense is generally borne by the state, the company and the municipality in which the crossing is located. Similar laws should be passed in Pennsylvania, and every session of the Legislature that fails to place such enactments upon the statute books fails to perform its duty in conserving the welfare and safety of the people. It is recommended that this matter be brought to the attention of the Legislature, and that provision be made for an official inspection in cases where reliable information is received that the track, structure or equipment of any railroad is unserviceable to the extent of endangering the life of passengers or employes in its operation. These inspections could be made with but little expense to the Commonwealth, and when it is considered that thousands of persons are killed and maimed every year on our railroads, there seems to be little room left for argument against such an official inspection. The authorities making the inspection should also be clothed with the power to require the repair of roads, structure and equipment when found necessary. No state has greater railroad interests than Pennsylvania. This is true with reference to the capitalization as well as to the amount of business done, and in view of the fact that so large a percentage

of the taxes of the State are paid by the common carrier, it would seem that greater attention ought to be given to the safety of passengers and employes.

The cost of the maintenance of the Bureau of Railways in Pennsylvania is so insignificant, compared with the cost of maintaining similar Bureaus or Departments in other states that there should be no complaint in case the annual expenses of the Bureau should be increased by the enactment of the law suggested. In other states approximating the size of Pennsylvania the expenses of maintaining railway supervision amounts to from \$30,000 to \$60,000 a year. In New York where the railroad interests are not as great as in Pennsylvania, the expense is \$60,000. The compilation of the data for the annual report in this State involves a large amount of earnest and careful work, but no provision of law is made even for a stenographer, and practically all the expense to the State is the payment of the salaries of three clerks at \$1,400 a year. It is respectfully suggested that provision be made by the Legislature for the employment of a stenographer at least, at a salary of \$1,000 per annum.

BUREAU OF VITAL STATISTICS.

The act of June 3, 1885 (Pamphlet Laws, page 56), gave authority for the establishment of a Bureau of Vital Statistics in the Department of Internal Affairs. While the establishment of this Bureau was under the direction of the Secretary of Internal Affairs, the Bureau itself was but an adjunct to the State Board of Health. Its object seems to have been principally to effect a registration of births, marriages and deaths and prevalent diseases existing, and also to prepare and maintain a complete list of practitioners of medicine and surgery within the Commonwealth. Under the provisions of this law the State Board of Health secured and had returned to the Bureau of Vital Statistics thus established the records of marriages that took place within certain counties of the Commonwealth covering a period of two or three years. Returns were also made showing the registration of physicians in several of the counties, but as there seems to have been no appropriation made to make effectual the act of 1885, providing for the establishment of the Bureau, it has ceased to exist, except so far as it appears upon the statute books of the Commonwealth.

It is respectfully recommended that an appropriation be made to give some force and effect to the act of 1885, providing for the establishment of this Bureau, or that the act be repealed, or at least so far amended that it shall not appear that there is a Bureau of Vital Statistics in the Department of Internal Affairs.

STATE WEATHER SERVICE BUREAU.

Under the act of May 13, 1887, there was established in the Department of Internal Affairs a Bureau designated as the State Weather Service Bureau. The Secretary of Internal Affairs was directed under this act to provide the clerical force for the performance of the duties devolving upon the Bureau, so far as they were to be discharged in the office of the Secretary of Internal Affairs. He was also authorized to appoint, on the recommendation of the Franklin Institute of Philadelphia, observers in the different counties of the State for the purpose of taking, recording and transmitting observations of the atmospheric pressure, temperature, humidity, rain fall, wind and other meteorological phenomena, occurring in the localities where the observers resided. He was also authorized to purchase and furnish to the observers the necessary equipment for making these observations. In accordance with the authority so conferred, the instruments for making the observations, together with such necessary equipment designated by the Franklin Institute, were furnished and paid for by the State. Appropriations were made for a number of years for the maintenance of this Bureau, but there seems to have been a consensus of opinion that it should be abolished, for the reason that the United States Signal Service was giving to the public data collected by it with reference to the weather forecasts, storms and frosts, changes of temperature, etc., which seemed to render the existing of the Pennsylvania Bureau entirely unnecessary. What purpose may have actuated the Legislature in refusing to continue the State Weather Service Bureau may be a matter of conjecture, but it is a fact that appropriations have not been made for a number of years, although the enactment for the establishment of the Bureau has never been repealed.

It is suggested therefore that the act referred to providing for the establishment of the Weather Service Bureau be repealed.

BUREAU OF MINES.

Under the provision of the act of Assembly approved May 2, 1899, the Department of Internal Affairs is allotted each year 2,000 copies of the reports of the Bureau of Mines. In the anthracite coal region there are 82 general and assistant superintendents, and 1,634 mine foremen and assistants. In the bituminous region there are 598 general and assistant superintendents, and 1,170 mine foremen and assistants, making an aggregate of 3,484 persons directly in charge of mining operations in the coal fields of Pennsylvania. In addition to this large number there are mining engineers in charge of collieries, and all of these, together with the superintendents and foremen, should be supplied with reports of the Bureau of Mines each year. It also seems to be eminently proper that the operators should

receive copies, and there are many intelligent miners who would appreciate being supplied with these reports. The demand from libraries and institutions that have connected with them schools of mining engineering is very great, and requests are constantly received from the chiefs of mining departments of other states and other countries for these reports. England, Scotland, France, Germany, Belgium, and even far away Australia and New Zealand have made requests. The newspapers of the State also make frequent applications, so that the 2,000 copies now received are entirely inadequate to supply the demand, and I most respectfully urge that the allotment be increased to 5,000.

Under the act of February 20, 1895, provision was made that the laws relating to the mining of coal should be printed annually in the report of the Bureau of Mines, but as we receive frequent applications from persons who desire copies of the laws pertaining to the anthracite region who do not care for those relating to the bituminous region, or vice versa, and as there are other requests from persons who wish the report merely for the statistical matter, it would be better in my opinion, and more economical, to have the laws relating to the mining of coal printed in a separate pamphlet. The expense would be exceedingly small, and the decrease in the cost of printing and binding the report, with the laws omitted, would almost cover the cost of 3,000 additional copies of the report. If the Legislature should not deem it advisable to have the laws published separately in pamphlet form, I would respectfully recommend that the report be published in two volumes, the anthracite report with the laws pertaining thereto in one volume, and the bituminous report with the laws pertaining thereto in another, as the report as now published is very cumbersome and unwieldy.

Section 2 of article 8 of the anthracite mine law, approved June 2, 1891, provides as follows:

"Certificates of qualification to mine foremen and assistant mine foremen shall be granted by the Secretary of Internal Affairs to every applicant who may be reported by the examiners, as hereinafter provided, as having passed a satisfactory examination and as having given satisfactory evidence of at least five years practical experience as a miner, and of good conduct, capability and sobriety. The certificate shall be in manner and form as shall be prescribed by the Secretary of Internal Affairs, and a record of all certificates issued shall be kept in his department."

Section 2 of article 15 of the bituminous mine law, referring to the same subject, reads as follows:

"The said Board shall be empowered to grant certificates of competency of two grades, namely, certificates of the first grade to persons who have had experience in mines generating explosive gases, and who shall have the necessary qualification to fulfil the duties of mine foremen in such mines; and certificates of second grade to persons who give satisfactory evidence of their ability to act as mine foremen in mines not generating explosive gases."

I would most urgently recommend that the foregoing section of the bituminous law be amended to conform to the anthracite law regarding the issuance of certificates of qualification to mine foremen from the office of the Secretary of Internal Affairs, as frequent applications are made to this Bureau for duplicate certificates by persons who had been granted certificates of qualification as mine foremen in the bituminous region, which had been lost or mislaid, but we are unable to furnish them as there are no records kept in this office of the bituminous certificates as there are of the anthracite certificates. Examining boards are frequently changed, and by reason of deaths, removals, etc., of the inspectors, there have never been any connected records kept of the certificates issued to mine foremen in the bituminous region.

I would respectfully call your attention to "An act to protect the lives and limbs of miners from the dangers resulting from incompetent miners working in the anthracite coal mines of this Commonwealth, and to provide for the examination of persons seeking employment as miners in the anthracite region and to prevent the employment of incompetent persons as miners in the anthracite coal mines and providing penalties for a violation of the same." Approved July 15, 1897.

This act is rather voluminous and contains eleven sections, but the subject matter is contained in part of section 5, which is as follows: "All persons applying for a certificate of competency to enable them to be employed as miners must produce satisfactory evidence of having had not less than two years' practical experience as a miner or as a mine laborer in the mines of this Commonwealth, and in no case shall an applicant be deemed competent unless he appear in person before the said board and answer intelligently and correctly at least twelve questions in the English language pertaining to the requirements of a practical miner, and be perfectly identified under oath as a mine laborer by at least one practical miner holding miner's certificate. The said board shall keep an accurate record of all its meetings, and in said record shall show a correct detailed account of the examination of each applicant, with the questions asked and their answer, and at each of its meetings the board shall keep said record open for public inspection. Any miner's certificate granted under the provisions of this act and the hereinafter mentioned act approved the ninth day of May, 1889, shall not be transferable to any person or persons whatsoever, and any transfer of the same shall be deemed a violation of this act. Certificates shall be issued only at meetings of said board, and said certificates shall not be legal unless then and there signed in person by at least three members of said board.

In my opinion, from experience as a superintendent of mines, this

act should be repealed, as it has proved to be inadequate and worthless and of no benefit whatever in decreasing the number of accidents that occur in and about the mines.

As a proof of the inutility of this act, I can state that a great majority of the miners employed in some of the mines, so far from "answering intelligently and correctly twelve questions pertaining to the requirements of a miner, in the English Language," cannot, after having been employed as miners for years, speak a sentence of intelligible English. The intent of the law was good and could it have been enforced to the letter, I have no doubt of its tendency to reduce the number of accidents.

I do not propose to call attention to the shortcomings of some of the examining boards, nor of the open traffic in certificates of competency among the foreign employes of the anthracite coal mines, but if the truth were known, one certificate has served to make full-fledged miners of a dozen persons.

Even if answering the questions in English were all that is required, or had the board of examiners adhered strictly to the law, the mines would not now be filled with men who are utterly ignorant of the English language. In my opinion, this law should be repealed, and the responsibility of employing miners, as well as other employes, should be placed upon the superintendents and mine foremen, particularly with reference to the competency of those employed in the gaseous mines.

I would respectfully recommend that the "Act establishing a Bureau of Mines in the Department of Internal Affairs of Pennsylvania, defining its purposes and authority, providing for the appointment of a Chief of said Bureau and assistant, and fixing their salaries and expenses," approved July 15, 1897, should be amended as follows, in sections 7 and 9: Section 7, which provides that "The Chief of the Bureau of Mines shall at all times be accountable to the Secretary of Internal Affairs for the faithful discharge of the duties imposed on him by law in the administration of his office, and the rules and regulations pertaining to said Bureau shall be subjected to the approval of the Secretary of Internal Affairs, who is hereby empowered to appoint an assistant to the Chief of the Bureau," should, after the word Bureau, be amended to read "who shall have a knowledge of mining engineering, at a salary of \$1,800 per year, one clerk at a salary of \$1,400, a stenographer and typewriter at a salary of \$1,000, and a messenger at a salary of \$300." If the Bureau is to be conducted on business principles, the above assistance is urgently needed.

Section 9 of the above act which provides for the deposit in the Bureau of Mines of an accurate map or plan by the inspector of each coal mine, etc., should be amended as follows: "At the request

of the Chief of the Bureau of Mines the inspector of each district shall deposit within sixty days from date of the demand an accurate map or plan of any coal mines required, which must be on tracing cloth drawn to a scale of 100 feet to the inch, said map or plan to show the actual location of all openings, excavations, shafts, tunnels, slopes, planes, main headings or gangways, cross headings, rooms, or breasts in each strata operated; all pumps, fans or other ventilating appliances, the course and direction of main air currents, the relation and proximity of the workings of such coal mines to all adjoining mines or coal lands, and the relative elevation of all tunnels, headings or gangways, and the face of working places near to or approaching boundary lines of adjacent mines; and it shall be the duty of each inspector to send to the Bureau a map properly certified as to its correctness, of all mines that shall be hereafter abandoned for any cause whatever. All such maps and plans to be and remain in the Bureau of Mines as part of the records of said office."

I ask for the foregoing amendment, as section 9 of the law creating the Bureau of Mines provides that copies of the maps of all the coal mines of this State shall be filed in this office, and as there are several thousand of such maps, the greater number of which would be of no use to the Bureau, even were there room to keep them, and enough money were appropriated to have the copies made; beside this the inspectors cannot do the work, as they have matters of more importance to occupy their time.

The production of anthracite coal in 1899 was 54,034,224 tons, as against 47,145,174 tons in 1898, an increase of 6,889,050 tons. The production of bituminous coal in 1899 was 73,066,943 tons, as against 64,247,635 tons in 1898, an increase of 8,819,308 tons.

The statistics of production for the present year will not be available until possibly February 15th next, as the returns are not made by the operators until after February first.

While the disastrous strike in the anthracite mines will probably tend to somewhat reduce the production in that region, the opening up of new coal territory in the bituminous region will no doubt result in an increase in the production of bituminous coal, so that the total production in the State may equal that of 1899. While the accidents resulting fatally will no doubt be numerous, they will not exceed those of 1899. There have not been any disasters by which any large number of persons have been killed at one time during the present year.

I have the honor to be,

Yours very respectfully,

JAMES W. LATTA,
Secretary of Internal Affairs.

PART II.

ASSESSMENTS AND TAXES.

ASSESSMENTS.

The returns of the county commissioners for the year ending November 30, 1900, have been consolidated and a table prepared to show the number of taxables as compared with the previous year. Comparative tables have also been arranged showing for the two years the number of acres of cleared land, the number of acres of timbered land, the value of real estate, the value of real estate exempt from taxation, the value of real estate taxable, the number and value of horses, mares, geldings and mules over the age of four years, the number and value of neat cattle over the age of four years, the value of salaries and emoluments of office, posts of profit, professions, trades and occupations, the aggregate value of all property taxable for county purposes, the total amount of county tax assessed in each of the counties of the Commonwealth.

Number of Taxables.

The total number of taxables as reported by the county commissioners for the year 1899 was 2,066,458, while for the year covered by this report the number is 1,929,777. It is unfortunate that the first observation to be made regarding the returns of the county commissioners is such as to cast discredit upon the correctness of the returns, but it cannot, under any circumstances be admitted that there has been a decrease in the number of taxables during the past year. Either too great a number was reported for 1899, or the returns for 1900 are not complete. In Allegheny county there has been a marked increase in the number, the returns showing 257,933, as against 240,712 last year. The other counties showing a considerable increase are Berks, Danphin, Lehigh, Luzerne, Philadelphia, Westmoreland. The counties showing a marked decrease are Bedford, Delaware, Fayette, Montgomery, Schuylkill, Wayne.

One of the factors upon which appropriations for the common schools, from the State Treasury, are based, is the number of taxables returned in each assessment district. Until within a few years the number of taxables determined the amount which each assess-

ment district should receive for the support of the common schools. A study of these figures will show what an unreliable basis this is for the division of the school appropriation.

Number of Acres of Cleared Land.

Last year the number of acres of cleared land reported was 16,100,263. This year the number is 16,034,765, which would indicate that there are now about 66,000 acres less than there were last year. To this extent at least the figures are unreliable, for it cannot be assumed that there is less cleared land to-day than there was in 1899. The counties showing a marked increase in the number of acres of cleared land are Bedford, Chester, Dauphin, Elk, Huntingdon, Juniata, McKean, Mercer, Montgomery. The counties that reported a considerably larger number of acres of cleared land in 1899 than 1900 were Berks, Cameron, Franklin, Lackawanna, Luzerne, Monroe, Susquehanna, Westmoreland.

Number of Acres of Timber Land.

Last year the number of acres of timber land reported was 9,138,176. This year the returns show 8,941,906 acres. It would be fair to presume that if there was a reduction in the number of acres of timber land, there would be a proportionate increase in the number of acres of cleared land, but when it is found that there is a decrease in the acreage of both cleared land and timber land, there is only one conclusion to be reached and that is that the figures of the county commissioners on this subject are not reliable. Cameron county shows a remarkable increase in the number of acres of timber land. Last year the number of acres reported was 185,455; this year the number is 232,792. This is a remarkable exhibit, in view of the fact that the timber on the lands embraced within the limits of that county has been largely cut off within the last few years. This Department has so often called attention to the untrustworthy character of these returns that it seems useless to refer to the matter again. The commissioners, of course, have to depend upon the returns made by the assessors, but when such a discrepancy exists as that just referred to it would seem only proper that an investigation be made to determine where and how it occurred. The returns of the commissioners are made under oath, and they are therefore accepted by the Department as at least approximating a correct statement of the facts.

The returns show an increase in Juniata county of over 2,000 acres of timbered land during the year. Forest culture must in-

deed, have advanced at a rapid rate in that county. Again, in the county of Luzerne there is an increase of about 6,000 acres. In many of the counties there is a decrease, and this is what ought to be expected in view of the rapidity with which the forests are being cut down and manufactured into lumber. There may not, however, be quite as much lack of care in the assessors' returns as there appears to be, for the reason that in cutting down forests the timber most valuable at the time is removed. Pine is usually the first, then the cherry. This usually leaves the beech, maple and oak. Until recent years the beech and maple have not been regarded as valuable timber. The manufacture of wood alcohol from birch, beech and maple has however, given considerable value to this class of timber, and in the last ten years many thousands of cords have been cut down and the extracts manufactured into wood alcohol, and charcoal is also produced in large quantities. The period of this gradual hewing away of the forests ranges from ten to thirty-five years, and it is possible that the assessors have not always been able to determine when land ceased to be properly classified as timber land. In view of the fact that there appears to be no rule among county commissioners, or direction to the assessors, as to the proper time to cease to classify land as timber land, it is not to be wondered at that confusion exists in the matter of making returns on this subject. Suggestions have been made in previous reports of this Department that the law should be amended so that there might be three or four classifications of land for statistical purposes. One class should be the land under cultivation for agricultural purposes, with which might also be included pasture lands. Another class might show the actual acreage of merchantable timber. The remaining lands might be classified with reference to susceptibility or non-susceptibility for forest reproduction. If this were done, and the assessors were to execute the laws faithfully in making their returns to the county commissioners, a statistical exhibit could then be made that would be of value to the public.

Value of all Real Estate.

Under this classification should be included all real estate within the limits of the Commonwealth whether taxable or not. Last year the value returned by the county commissioners was \$3,027,649.299; this year the returns show \$3,069,371,624. In the county of Philadelphia a remarkable increase is shown over last year, the figures being \$1,003,899,449, as against \$985,682,064. In Allegheny county \$549,301,515, as against \$540,490,185. The following counties also show a marked increase in the value of real estate: Berks, Dela-

ware, Lehigh, Montgomery, Northampton, Northumberland, Washington, Westmoreland.

Value of Real Estate Exempt from Taxation.

Property devoted to religious purposes, and property owned by municipalities is exempt from taxation. The amount reported last year under this classification was \$299,485,963; this year \$302,541,939. Of the latter amount \$124,604,094 was returned from Philadelphia, and \$67,303,255 from Allegheny county. The only county that seems to have no property exempt from taxation is Fulton, but as there are churches within the county, and no doubt some classes of municipal property, it may be assumed that the commissioners fail to get returns from the assessors on this subject. Forest county reports only \$88,000, and Pike \$54,815.

Value of Real Estate Taxable.

Last year the total amount of real estate taxable was reported to be \$2,728,163,336; this year the amount is \$2,766,829,685. This property is all subject to local taxation for the support of the municipal government in the several townships, boroughs and counties of the Commonwealth. It will be seen from the figures that the total value of real estate is \$3,069,371,624, and the value of real estate taxable \$2,766,829,685. The difference between these amounts is \$292,541,939, and should equal the amount reported as exempt from taxation, but it does not do so. In Allegheny county the amount of real estate taxable was reported last year at \$472,186,173; this year \$481,998,260. In Philadelphia county last year it was \$862,801,670; this year \$879,295,355. Other counties showing a marked increase are Lackawanna, Lancaster, Lawrence, Lehigh, Luzerne, Montgomery, Northampton, Northumberland, Venango, Washington and Westmoreland. The counties showing a decrease are Adams, Armstrong, Cambria, Clinton, Greene, Juniata, Lycoming, Mercer, Monroe, Perry, Potter, Sullivan, Wayne, Wyoming. These counties have heretofore had a large amount of timber land, and it is probable that after the timber is removed the lands are assessed at a nominal figure. To this cause may be attributed the falling off in the value of real estate taxable. It is probably a fact, too, that there is a disposition among assessors generally and the people owning property to reduce the assessed valuation of real estate, with a view of lightening the burden of taxation.

Number and Value of Horses, Mares, Geldings and Mules.

The number of these animals reported last year was 618,234; this year 610,426. It is altogether probable, however, that these returns do not indicate one-half of these animals owned in the State. A great many owners of these animals feel that they have a license to misrepresent the facts regarding them. They are not taxable until four years of age, and judging from the returns made by the assessors there are many of them old and toothless before they arrive at the taxable age. Much is said about the inequalities of taxation, but if such inequalities existed with reference to the taxation of corporations as exists with reference to the taxation of the class of animals here referred to, there would be much greater room for criticism. The returns for the year show a reduction in the number of these animals of about 8,000, but no one will believe that these figures represent the facts. The value of these animals was returned last year at \$24,099,687; this year at \$24,520,924. From these figures it will be seen that while there has been a reduction in the number, there has been a decided increase in the value of these animals.

Number and Value of Neat Cattle under Four Years of Age.

The number of these animals returned last year was 643,425; this year 637,109, a decrease of 6,316. These figures, however, can hardly be accepted as correct, as dairy products are bringing good prices in almost every locality and it is very improbable that there should be a slaughter of these animals as long as they prove so remunerative. Undoubtedly many owners make fair returns under this classification. It is a question of conscience. The man who returns only a portion of his property to the assessor and thereby escapes his just proportion of taxation, is placing an unfair burden upon his more honest neighbor, besides violating the laws of the Commonwealth, passed to secure equity in the distribution of taxes.

The value of neat cattle reported yast year was \$12,088, 841; this year \$12,070,073.

Value of Salaries, Emoluments of Office, Posts of Profit, Professions, Trades and Occupations.

The amount reported last year under this heading was \$125,928, 448; this year \$129,627,766. A marked increase is shown in the county of Allegheny, where the returns show \$45,728,100 this year as against \$43,579,050 last year. For some unknown reason the counties of Philadelphia and Lancaster make no returns on this

subject. It may be assumed, therefore, that the actual value of this class of property is nearly double the amount returned.

Aggregate Value of all Property Taxable for County Purposes.

The amount returned under this heading last year was \$2,890,305,-716; this year \$2,933,194,386. This classification includes all property, real or personal, subject to taxation for the support of the county governments. It differs somewhat, of course, from the aggregate amount of real estate taxable. A considerable increase is shown under this classification in Philadelphia and Allegheny counties. In Philadelphia county the amount last year was \$864,516,-035; this year \$880,935,265. In Allegheny county the amount last year was \$518,779,175; this year \$529,947,280. Some of the counties show a decrease, Cameron reporting only \$874,259. This is the only county that reports less than \$1,000,000 of property taxable for county purposes.

Aggregate Amount of County Taxes Assessed.

The assessment of taxes for county purposes is made by the county commissioners of the several counties. They have the authority to determine what millage shall be levied and they arrive at their judgment by considering the necessities of the county as to new buildings, the maintenance of the poor, building and repair of bridges, and such other things as are properly charged to the county government. The total amount collected last year for county purposes was \$22,217,169; this year \$22,745,599. The increase is largely found in the counties of Philadelphia and Allegheny. In the former county the amount last year was \$15,505,526; this year \$15,803,212. In the latter the amount last year was \$1,037,558; this year \$1,059,894. The following counties show a decrease: Armstrong, Cambria, Clarion, Elk, Perry, Potter, Schuylkill.

Amount of Money at Interest, Including Mortgages, Judgments, Bonds, Stocks, Etc.

The amount returned last year under this heading was \$697,307,-883; this year \$724,544,018. Of this amount \$86,756,590 was reported from Allegheny county, \$16,883,123 from Berks, \$20,802,634 from Lancaster, \$22,819,145 from Montgomery and \$374,782,494 from Philadelphia. It will be seen that more than one-half of the total amount was returned from Philadelphia. The counties that report less than \$1,000,000 at interest are: Cameron \$31,055, Clear-

field \$934,055, Elk \$454,233, Forest \$156,985, Fulton \$227,492, Juniata \$530,850, Montour \$543,723, Perry \$759,552, Pike \$360,994, Potter \$674,181, Snyder \$543,640, Sullivan \$198,971, Wyoming \$953,351.

Value of Stages, Omnibuses, Hacks, Cabs, Etc.

The amount returned last year under this heading was \$554,507; this year \$634,841. Probably no other law relating to taxes is so poorly executed as the law covering this subject of taxation. In the city of Philadelphia alone a modest estimate of the value of these vehicles would place the amount many times beyond the amount returned for the whole State. It would be better to repeal the law with reference to the taxing of this class of property, if it cannot be more faithfully executed by the assessors.

Aggregate Value of Property Taxable for State Purposes, at Four Mills on the Dollar, including Money at Interest, Stages, Omnibuses, Hacks, Etc.

In the consolidated tables referring to this class of property is included both money at interest and the value of stages, omnibuses, etc. For the year covered by this report the amount returned under this heading was \$725,164,896; last year \$697,862,390. The amounts in these consolidated tables do not differ materially from the amounts given in the consolidated tables representing alone the amount of money at interest, and the increases or decreases in the total amount of property subject to taxation correspond very closely with the increases or decreases in the amount of money at interest.

Aggregate Amount of State Tax Assessed.

The total amount of tax assessed on property for State purposes was reported last year at \$2,732,757; this year \$2,900,536. More than one-half of the tax on money at interest is collected through the Board of County Commissioners of the county of Philadelphia, the amount returned being \$1,499,779. Allegheny reported \$347,497. In some counties the amount paid is exceedingly small. In Forest \$635, Fulton \$910, Sullivan \$795.

County Debt.

The total amount of county debt reported last year was \$61,037,128; this year \$50,565,192. The counties showing a marked increase in indebtedness are Armstrong, Butler, Forest, Washington

and York. The counties showing a marked decrease are Beaver, which last year reported \$26,000, but is now out of debt; Elk, which last year reported \$11,500, but is now out of debt; Fulton, which last year reported \$515, but is now out of debt. Other counties reporting a decrease are: Clearfield, Clinton, Columbia, Crawford, Fayette, Indiana, Jefferson, Juniata, Lackawanna, Luzerne. Philadelphia, which reported \$51,363,726 last year, shows a decrease to \$40,983,994. The counties reporting no indebtedness at all are Bucks, Cambria, Centre, Clarion, Cumberland, Elk, Erie, Franklin, Fulton, Greene, Lawrence, Lehigh, McKean, Mercer, Potter, Somerset, Venango. Last year there were fourteen counties that reported no indebtedness.

Taxes.

Under the provisions of the act of May 9, 1889, this Department is required to collect and compile statistics showing the amount of taxes for different purposes in the several counties of the Commonwealth. By the provisions of this act the assessors are required to make returns to the county commissioners of all taxes assessed and collected, as follows:

1. The amount collected on personal property.
2. Amount collected on occupations.
3. Amount collected on licenses of all kinds, including wholesale and retail liquor licenses.
4. Amount collected on real estate of railway corporations.
5. Amount collected on real estate of corporations other than railways, including limited partnerships.

Returns are also made showing:

1. For support of the poor.
2. For construction and repairs of streets, roads and bridges.
3. For support of the common schools.
4. For other purposes.
5. Total amount collected for all purposes.

Since the passage of this act the county commissioners have compiled and forwarded to this Department the information required on blanks furnished for the purpose. Some difficulty is encountered in compiling the data, due largely to an indisposition on the part of the assessors to comply with the law, as no provision is made for any payment to them for this work, except such as may be made through the local authorities. All the payment made by this Department under the act of 1889 is the amount paid to the commissioners' clerks for the work and expenses incurred in making returns of the data collected under that act. In many cases it has been found necessary to deviate from the explicit direction of the

law, which requires that the figures given shall show the exact amount of taxes collected. This has been the case where there has been a failure or refusal by the assessors to comply with the request of the commissioners for full returns, and the commissioners have been compelled to depend upon the rate levy based upon the assessed valuation of property to determine the amount of taxes to be included in their returns. Some mistakes necessarily occur in these returns, as the amount of taxes collected would not correspond exactly with the amount assessed. The difference, however, may be presumed to equal the amount of taxes exonerated. These figures are nevertheless of considerable value as tax statistics. The Department has endeavored to impress upon the commissioners the necessity of making faithful and accurate reports, so that the legislative branch of the government in enacting taxation laws shall have presented to it the amounts of taxes paid through local channels for all purposes. There are some defects in the act of 1889 that should be remedied. It might be to the advantage of the State to combine in one report from the county commissioners all information that relates to the assessment of property and the taxes and licenses collected. This could be done on one blank and would more readily present to the public the actual conditions than can be done with two different reports. This view of the case is made more apparent when it is known that the act of 1889 fails to make a proper classification of the taxes collected. For instance, the taxes that are collected in municipalities should be classified with reference to the support of the schools, the support of the poor, the support of the county governments, the maintenance of streets, and for other municipal purposes. This classification should not include any kind of licenses. Licenses should be reported separately and classified with reference to their denomination, whether peddler's licenses or wholesale and retail liquor licenses. If the act of 1889 could be amended to meet these suggestions, it is believed that the statistics compiled would be of much greater value than at present. Other observations that may be of interest are made under the other classifications.

Taxes Collected for the Support of the Poor.

In many of the counties of the Commonwealth there are county poor houses wherein the poor are maintained as a county charge, instead of a city, borough or township charge. The money necessary for the support of these houses is derived by appropriation direct from the county treasury made by the county commissioners on requisition of the board of poor directors. There is no tax levied and specified as a poor tax. In the consolidated table on this sub-

ject there is included in column No. 1 the amount of tax levied and collected in the different assessment districts, and also the amount appropriated by the commissioners in the several counties, for the support of the poor maintained in the county almshouses. The total amount collected for this purpose during the year was \$2,-886,131. Last year the amount was \$2,603,482. Allegheny county reported \$425,793, Luzerne \$138,661, Philadelphia \$506,401, Cameron \$6,334, Fulton \$1,863, Pike \$6,417, Sullivan \$4,445. In this amount for the support of the poor is included, of course, such appropriations as may have been made during the year for the maintenance and construction of buildings.

Amount of Taxes Collected for the Construction and Repairs of Streets, Roads and Bridges.

No small portion of the total amount of taxes collected in the Commonwealth through local channels is devoted to the construction and repairs of streets, roads and bridges. The amount reported for the year covered by this report is \$13,240,927. Last year the amount was \$11,312,528. These figures denote a marked increase for the year. The amount reported by Allegheny county was \$2,-130,183, Berks \$249,904, Delaware \$288,952, Lancaster \$330,457, Luzerne \$197,792, Montgomery \$445,758, Northampton \$200,470, Philadelphia \$4,563,300, Schuylkill \$215,829, Washington \$202,522, Westmoreland \$248,978. The amount reported by Forest county was only \$25,600, and Fulton \$11,132. In the townships where taxes are worked out upon the public highways by the owners of property the amounts thus worked out are included in the reports of the commissioners. It is claimed by many that the results obtained under this method are not satisfactory. A better system should be devised for the expenditure of the money raised for the construction and repairs of the highways of the Commonwealth. Too often the money collected for this purpose is expended according to the caprice or prejudice of those having charge of the work. The road laws of the Commonwealth need careful consideration at the hands of the Legislature, in order that there may be greater economy in the expenditure of the money intended for this purpose.

Amount of Taxes Collected for Schools and School Purposes, not Including Appropriations Received from the State.

The amount collected under this heading for the year was \$14,-098,622; last year \$13,612,622. These amounts do not include any portion of the appropriation made by the State. The figures are

supposed to represent practically the exact amount collected from the people for this purpose. In Allegheny county the amount was \$1,769,252; Philadelphia \$4,512,860. The total amount in these two counties, \$6,282,112, is about one-half of the total amount collected in the State for the support of the common schools. In Cameron county the amount was only \$13,501, and in Fulton \$7,908. It is possible that the increase in the amount of taxes collected for the support of the schools is due to some extent to the decrease in the school appropriation made by the State.

Total Amount of Taxes Collected for all Purposes through Local Channels.

In the consolidated table having reference to the total collection of taxes in the Commonwealth there is given in column five the total amount collected in each county for all purposes. The amount reported during the present year was \$57,649,889; last year \$55,808,585. These figures not only include the taxes collected for the support of the poor, the support of the schools and the maintenance and repairs of streets, roads and bridges, but also the taxes collected to defray the expenses of conducting the affairs of borough, city and county governments. The volume of this tax is growing larger every year, but it can hardly be claimed that the percentage of increase is greater than the percentage of increase in the value of taxable property. In the county of Allegheny the total amount collected during the year was \$11,673,582. In Philadelphia the amount was \$21,431,426. Taking into consideration the value of taxable property in these two counties, it would seem that the rate of taxation is considerably higher in Allegheny than in Philadelphia.

Amount of Taxes Collected on Personal Property.

Under the second division of consolidated tables showing the amount of taxes collected for all purposes there is a subdivision of the amount of taxes collected on personal property. The amount reported under this heading during the year was \$3,406,522; last year \$3,198,971. Allegheny reported \$387,351, Philadelphia \$1,489,906. The taxation of personal property, as has often been stated in reports of this Department, is attended with many difficulties. That species of property described by Blackstone as "personal property," and which may accompany the owner wheresoever he may choose to go, is of too uncertain a character to enable the tax collector to enforce collection as the law contemplated. Until men shall have advanced to a higher plane of honesty, it must be ex-

pected that the law relating to the collection of taxes on personal property will be imperfectly executed. The man who makes a fair return of his personal property for taxation must necessarily feel the necessity for more stringent laws, in order that equity may be preserved in the levying and collection of this tax. That wrongs do exist, and that injustice characterizes the execution of the tax laws in regard to the collection of the personal property tax, goes without saying.

Amount of Taxes Collected on Occupations.

The amount recorded for the year under this heading was \$1,663,639; last year \$1,331,736. No return is made by the county of Philadelphia on this subject, and the data given herewith are therefore incomplete, except so far as the figures relate to other counties. In other words, the total amount given in the consolidated table must not be considered as representing the total amount of taxes collected on occupations.

Amount of Taxes Collected on Licenses, Including Wholesale and Retail Liquor Licenses.

Under this heading the amount reported last year was \$6,067,833; this year \$6,190,596. The returns fail to indicate what proportion is collected from peddlers' licenses or from wholesale and retail liquor licenses. It can be assumed however that a large percentage of this amount is collected on the licenses granted for the sale of liquors. The amount returned from Allegheny county was \$1,244,602, Lackawanna county \$220,777, Philadelphia \$2,890,372, Schuylkill \$200,316, Adams \$8,619, Bedford \$6,579, Cameron \$4,594, Clinton \$2,908, Fulton \$805, Greene \$400, Juniata \$1,740, Mifflin \$3,939, Perry \$6,257, Pike \$3,633, Potter \$7,856.

Amount of Taxes Collected on the Real Estate of Railway Corporations.

In nearly every county in the Commonwealth railway property such as is essential for use in the operation of the road is exempt from local taxation, the tax on these corporations being paid direct into the State Treasury on their capital stock, their loans and their gross receipts. In most of the counties there is some property owned by the railways that is not considered essential for carrying on their business. The total value of such property returned for the year was \$848,362; last year the amount was \$728,714. The

larger part is owned in the counties of Philadelphia and Allegheny. In the former the returns show \$441,526, and in the latter \$93,103. Some of the counties fail to make any return of the property owned by the railways, and it may therefore be presumed that all the property owned by these corporations in such counties is essential for their operation. Forest, Fulton, Greene, Potter and Sullivan do not make returns on this subject.

Amount of taxes Collected on the Real Estate of Corporations
Other than Railways, Including Limited Partnerships.

The total value of property under this heading was reported for the year as \$3,134,169; last year \$2,828,601. The counties of Delaware, Elk, Forest, Fulton, Greene, Juniata, Philadelphia, Potter, Sullivan, Wyoming and York fail to make any returns under this classification and it may therefore be assumed that the figures here given do not embrace by any means all the property of this class owned in the Commonwealth, as the city of Philadelphia alone no doubt embraces within its limits property of this classification valued at millions.

Per Capita Amount of Taxes Collected for all Purposes.

A per capita tabulation has been prepared and is included in this report immediately following the consolidated tables. This table shows:

1. Per capita amount of taxes collected for the support of the poor.
2. Per capita amount of taxes collected for the construction and repair of streets, roads and bridges.
3. Per capita amount of taxes collected for the support of the common schools.
4. Per capita amount of taxes collected for purposes not embraced in the preceding three tabulations.
5. Per capita amount of taxes collected for all purposes.

Under this tabulation is also given:

1. Percentage of amount of taxes collected for the support of the poor to the total amount collected.
2. Percentage of amount of taxes collected for the construction and repairs of streets, roads and bridges to the total amount collected.
3. Percentage of amount of taxes collected for school purposes, not including any appropriations from the State, to the total amount collected.
4. Percentage of amount of taxes collected, including amount

required for county, city and other purposes, to the total amount collected.

The data as to the per capita amount of taxes collected is based on the census of 1900, and will enable any one making a study of the subject to ascertain the per capita burden of taxation as it exists in the several counties of the Commonwealth. The addition to this consolidated table shows what percentage the tax collected for any given purpose bears to the total amount of taxes collected. For instance, in the county of Adams nine per cent. of the total amount of taxes collected is for the support of the poor, thirty-one per cent. for the construction and repairs of streets, roads and bridges, twenty-seven per cent. for school purposes and thirty-three per cent. for the support of county government and other purposes. Probably no more compact data could be arranged than are found in these tables showing the percentages of taxes collected for different purposes. The column containing the percentage of school tax to the total amount of tax shows pretty clearly the spirit that exists in several counties with reference to the support of the common school system. For instance, in Beaver county twenty-nine per cent. of the total amount of taxes collected is devoted to school purposes. In Mercer thirty-one per cent., in Montgomery thirty-eight per cent., in Perry twenty-six per cent., in Venango thirty-seven per cent., in Warren thirty-eight per cent. Some counties show a much smaller percentage of tax collected for this purpose. Special mention of these counties might be making an odious comparison.

ASSESSMENT REPORTS.

The Following Returns made by the Commissioners of the Several Counties of the Commonwealth, to the Secretary of Internal Affairs, for the Year 1900, Shows the Number of Acres of Cleared and Timber Land, and the Amount at which all the Real and Personal Property, and the Matter and Things made Taxable by the Laws of this Commonwealth, were Valued, and the Amount of Taxes Assessed Thereon for State and County Purposes, in the Various Assessment Districts of the Commonwealth, made Pursuant to the Several Acts of Assembly Relating Thereto.

		\$12,530		\$170,000 00

*The occupation tax, which is known in Lancaster as poll tax, aggregates \$9,114. The custom for many years has been to assess each married man, not a freeholder, 25 cents poll or occupation tax, and each single man, not a freeholder, 50 cents poll or occupation tax. This tax is levied directly, without putting a valuation on the taxpayer's office, trade or occupation, and is not included in the above aggregate of county tax.

STATE OF PENNSYLVANIA,
CITY OF PHILADELPHIA,
Simon Gratz, Isaac H. Shields, Rinaldo A. Lukens, members of the board of revision of taxes, city and county of Philadelphia, being duly sworn or affirmed according to law, do depose and say that the foregoing return of pro perty taxable in the said city and county is just and true to the best of their knowledge and belief.

SIMON GRATZ,
ISAAC H. SHIELDS,
RINALDO A. LUKENS,
Board of Revision of Taxes.

Sworn and subscribed to before me this 20th day of June, A. D. 1900.
GEORGE W. CLEMENT,
Notary Public.

The poor are maintained as county charges. There is no separate levy for poor purposes. The money for the maintenance of the poor is drawn from the county funds upon presentation of a monthly statement and requisition by the board of poor directors and countersigned by the county commissioners. The amount thus expended for the year last past is \$121,587.71, which is included in the aggregate of columns 4 and 5.

PHILADELPHIA COUNTY.

Names of Assessment Districts.	First Division. Showing the amount of taxes collected in the county for all purposes.					Second Division. Showing a specific return of all taxes on the subjects named.				
	No. 1.	No. 2.	No. 3.	No. 4.	No. 5.	No. 6.	No. 7.	No. 8.	No. 9.	No. 10.
	Total amount of taxes appropriated for the support of the poor. Being the appropriation made by city councils to the department of poor for the year 1900.	Total amount of taxes appropriated for the construction and repairs of streets, roads and bridges. Being the appropriation made by city councils to the bureau of highways for the year 1900.	Total amount of taxes appropriated for schools and school purposes, not including any appropriation received from the State. Being the appropriation made by city councils to the board of public education for the year 1900.	Amount of taxes collected for any purpose not embraced in columns 1, 2 and 3, whether the same be State, county or local taxes.	Total amount of taxes collected for all purposes, as set forth in the four preceding columns.	Amount of taxes collected on personal property. Being the taxes collected for city purposes on horses and cattle and State tax.	Amount of taxes collected on occupations.	Amount of taxes collected on licenses of all kinds, including wholesale and retail liquor licenses.	Amount of taxes collected on the real estate of railroad corporations.	Amount of taxes collected on the real estate of corporations other than railroads, including limited partnerships.
City and county of Philadelphia,	\$506,461 51	*\$4,563,300 53	†\$5,367,065 00	\$411,848,864 27	\$822,285,631 31	\$1,489,906 92.	Nothing.	\$2,890,372 61	\$441,526 44	

Note.—The appropriation received from the State is paid into the city treasury and forms part of the appropriation made by city councils to the board of public education for school purposes.
*Mem.—Of the above amount \$600,000.00 were appropriated from moneys received from city loan.
†Mem.—Of the above \$777,641.23 were appropriated from moneys received from city loan. Of the above sum \$54,204.37 was the estimated amount which the county of Philadelphia was entitled to receive for the year 1900 as its proportion of the total sum appropriated for the support of common schools for 1900.
‡Mem.—\$1,377,641.23 were appropriated from moneys received from city loan.
§Mem.—The above amount is \$1,377,641.23 in excess of the total amount of taxes, licenses, etc., collected. Said excess of \$1,377,641.23 being received from moneys taken from city loan and not from receipts of taxes, licenses, etc., only. It is necessary to include said amount of \$1,377,641.23 in the column of receipts for the reason that it forms part of the amount appropriated as per columns Nos. 2 and 3.
||Impossible to give.

TABULAR STATEMENT showing the amount of taxes collected and appropriated per capita for all purposes in each county of the Commonwealth; also the per capita amount of taxes collected for (1) support of the poor, (2) construction and repairs of streets, roads and bridges (3) support of the common schools, (4) support of township, borough, city and county governments; also what percentage the amount of taxes collected for each purpose indicated bears to the total amount collected for all purposes.

	No. 1.	No. 2.	No. 3.	No. 4.	No. 5.	No. 6.	No. 7.	No. 8.	No. 9.
	Per capita amount of taxes collected for the support of the poor.	Per capita amount of taxes collected for the construction and repairs of streets, roads and bridges.	Per capita amount of taxes collected for schools and school purposes, not including any appropriation received from the State.	Per capita amount of taxes collected for any purpose not embraced in columns 1, 2 and 3, whether the same be State, county or local taxes.	Per capita to total amount of taxes collected for all purposes, as set forth in the four preceding columns.	Percentage of amount of taxes collected for support of the poor to total amount of taxes collected.	Percentage of amount of taxes collected for construction and repairs of streets, roads and bridges to total amount of taxes collected.	Percentage of amount of taxes collected for school purposes, not including any appropriation received from the State, to total amount of taxes collected.	Percentage of amount of taxes, including amounts required for county, city and other purposes, to total amount of taxes collected.
